QUOTES FROM THE JEWS "I say the word " Anti-Semite" is vulgar and pedantic: that I think will be universally admitted. It is also nonsensical. The antagonism to the Jews has nothing to do with any supposed "Semitic" race which probably does not exist any more than do many other modern hypothetical abstractions, and which, anyhow, does not come into the matter. The Anti-Semite is not a man who hates the modern Arabs or the ancient Carthaginians. He is a man who hates Jews."

You're making a difference Your purchase of this book helps benefit cancer research. Read below for more details. "Rags to riches to rags" - that saying has endured for centuries through many cultures because family success, whether fame, fortune, or otherwise, rarely survives through the third generation. In the United States, only 30 percent of family businesses make it through the second generation, while only 12 percent make it through the third. "You Can't Spend Pride" tells the story of one family business, Mister Kleen, that has defied the odds. Not only are three generations of the family working in the company, but Mister Kleen has grown to be a multi-million-dollar operation that ranks among the top 10 percent of businesses in its industry. Narrated as a first-person account by the co-founder, Mary Ann Clark, and her son and current company president, Ernie Clark Jr., "You Can't Spend Pride" tells the improbable story of how the family built their business from cleaning one client's office in the evenings to maintaining millions of square feet of high-security and commercial space throughout the Washington, D.C. area. And success certainly didn't happen overnight. The family fought through financial challenges, health issues, and many bad economic times over the course of decades to get the business on solid ground-now employing more than 400 people. "You Can't Spend Pride" is a must-read for anyone looking to start their own company, having difficulty growing their current company, and most certainly for anyone running a family business. Filled with stories and solid entrepreneurial advice, you'll find yourself immersed in the inspirational history of Mister Kleen as it rises from a home-based business in 1976 to the trusted leader in high-security and commercial cleaning in the Nation's Capital. All proceeds from the sale of this book go to the Cancer Research Institute For a minimum of one year, beginning May 20, 2014, Mister Kleen will donate to the Cancer Research Institute 100 percent of the proceeds (\$3.53 for each paperback copy, \$2.40 for each Kindle copy) of "You Can't Spend Pride" sold on Amazon.com. Your purchase of this book is making a difference by providing funding to one of the most significant organizations in the fight against cancer. The Cancer Research Institute (CRI) is the world's only nonprofit organization dedicated exclusively to harnessing the immune system's power to conquer all cancers. This important work has led to a promising new class of cancer treatments called cancer immunotherapy. These treatments mobilize, strengthen, and sustain the immune system's natural ability to destroy cancer cells, wherever they are in the body. CRI awards research grants and fellowships to support scientists at leading research universities and clinics around the world. To accomplish this, CRI relies on generous support from individuals, corporations, and foundations who have a desire to become partners in their effort to conquer cancer through immunology. Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles.

Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
