LASORS 2010

This report from the Education Committee looks at the administration of examinations for 15-19 year olds in England. The Committee expresses serious concerns about incentives in the exam system and about competition on syllabus content. Incentives in the system should be changed so the downward pressure through the competition of exam boards is mitigated. The Committee considers a number of options to change incentives, including: (i) A single board. This offers a simpler system, with no risk of competition, but the Committee believes the cost, risk and disruption outweigh the benefits; (ii) Franchising of subjects to exam boards. This removes syllabus competition, but again has downsides; (3) Or the current system of multiple boards. The Committee sees no benefit in competition on syllabus content, but the setting and marking of exams and associated administration, if properly regulated, could generate incentives and drive quality up, offering value for money to schools and colleges. The Committee also recommends the development of national syllabuses, accredited by Ofqual. The syllabuses would be developed by exam boards in conjunction with learned bodies and employer organisations and could therefore retain the benefits of competition on quality and the incentive for exam boards to innovate.

Master's Thesis from the year 2015 in the subject Business economics - Miscellaneous, grade: 1,0, , language: English, abstract: The aim of this thesis is to contribute valuable input to the process of teaching in general. New ideas and teaching concepts are required due to fast changing educational circumstances. By developing a teaching concept that increases the involvement of students throughout the whole semester this thesis adds new ideas in the area of modern teaching. Professors, students and other members of the staff have been interviewed to find out what good teaching is about. After gathering information and interpretation of the findings, the thesis describes teaching tools that fit into a new innovative teaching concept. Especially Hidden Champions show new ways to compete in a highly competitive market. Therefore the lecture, which is the basis of the whole concept, discusses these companies. They are extremely successful and mostly unknown by the general society. Hidden Champions and their factors for success are core topics of the thesis. Furthermore, elements like a power point presentation and the way of using the teaching tools are described. The results of the thesis show that many issues in teaching are already at a high quality level, but there are many possibilities to add new ideas. The point of improvement the thesis works on is to continuously motivate students throughout the whole semester.
