FIRE AND ICE . . . that's what you get when you take the cool looks of the Volkswagon Beetle, Bus, Karmann Ghia, Thing, Squareback or Fastback and unleash the hot performance of the air-cooled VW engine. How to Hot Rod Volkswagen Engines gives the real skinny for breathing-on, blueprinting and bulletproofing your air-cooled Vee-dub. Street, custom, kit car, off road, or full-race, this book gives you all the air-cooled engine-building basics to find and put to the pavement hidden horsepower. Includes tips on carburetion, ignition and exhaust tuning, case beefing, cylinder-head flow work, camshaft selection, lubrication and cooling upgrades, 6-to-12-volt conversions and much more. Plus there's a natty 6-page history of the origins of the first air-cooled VW engines. All neat stuff, this. Go ahead. You deserve it! Double or triple the output of your air-cooled Volkswagon. Or add 10-15 horsepower with easy bolt-on mods. Mild or wild, do it the right way-with this book. More than 300 photos, drawings and charts to guide you through your VW's innards. And don't look back.

The People's Car

The VW Story

Portland Speedway, also known as Union Avenue Speedway, opened in the summer of 1936 and enjoyed a 66-year run as the leading oval track in Portland. Originally built as a dirt track on a farmer's field in the far north of the city, the track was known for track roadsters based on Ford's Model T, sprint cars, and stock cars. As returning servicemen discovered a love for racing, the track exploded in popularity after World War II. The track was paved in 1946 and flourished as a center for racing; it even included a drive-in movie theater. Many notable racers, such as Len Sutton, Rolla Vollstedt, Greg Biffle, and Mike Bliss, either started their careers at or visited Portland Speedway. But the real story of Portland Speedway is told in the hundreds of people who made a living or simply enjoyed the racing life while competing at the Pacific Northwest's finest track."
