Topics covered:

- Mathematical operations and number properties
- Negative numbers and absolute value
- Solving problems with rational numbers
- Ratios and proportions
- Percent and percent change
- Graphing relationships and unit rates
- Roots and exponents
- Scientific notation
- Solving equations and inequalities
- Customary and metric units of measure, including conversions
- Data presentation
- Statistics and probability
- Constructing and analyzing geometric figures
- Solving problems involving angle measure, area, surface area, and volume
