Count and explore the zany world and words of Seuss in this classic picture book! From counting to opposites to Dr. Seuss's signature silly rhymes, this book has everything a beginning reader needs! Meet the bumpy Wump and the singing Ying, and even the winking Yink who drinks pink ink. The silly rhymes and colorful cast of characters will have every child giggling from morning to night. From near to far from here to there, funny things are everywhere. Originally created by Dr. Seuss himself, Beginner Books are fun, funny, and easy to read. These unjacketed hardcover early readers encourage children to read all on their own, using simple words and illustrations. Smaller than the classic large format Seuss picture books like *The Lorax* and *Oh, the Places You'll Go!*, these portable packages are perfect for practicing readers ages 3-7, and lucky parents too! "Pretty much all the stuff you need to know is in Dr. Seuss." -President Barack Obama

Twenty Thousand Leagues Under the Sea

Mudskippers are amphibious fishes native to the Indo-West Pacific and tropical western Africa. Unlike most fishes, mudskippers emerge to forage, find mates, and defend territories. Adaptations to their morphology, physiology and behavior enable mudskippers to accommodate both aquatic and terrestrial habitats. For these traits, mudskippers have long captured the fascination of scientists, naturalists, and fish hobbyists. Some mudskipper taxa (e.g. *Periophthalmodon* spp., *Periophthalmus* spp., *Boleophthalmus* spp.) are readily observed on mudflats and mangrove forests during the ebb tide. Correspondingly, these conspicuous and widespread taxa are relatively well-studied. The autecology and basic biology for the remaining taxa (e.g. *Apocryptodon* spp. and *Oxuderces* spp.) are still poorly understood. *Fishes Out of Water: Biology and Ecology of Mudskippers* is the first comprehensive book to synthesize published scientific information and observation on these fishes. Two dozen subject experts present thorough overviews in fifteen distinct chapters. Contents span mudskipper anatomy, distribution, systematics, physiology, ecology, and conservation. Unique adaptations to terrestriality are discussed within the context of each chapter foci. This authoritative reference

equips the reader with the basic foundation to understand mudskipper biology and ecology, while providing a framework in which emerging data are discussed. The book will be of interest to a broad range of students, researchers, and professionals in ichthyology, evolution, ecology, animal behavior, and comparative physiology.

Fish Out of Water

A lively and inspiring memoir from #1 New York Times bestselling author Eric Metaxas that chronicles his unlikely journey from skeptic to believer Who am I? Where am I going? What is the meaning of life? These were the questions that had dogged Eric Metaxas his whole life. The studious son of middle-class immigrants, Metaxas had always dedicated himself to the pursuit of knowledge--to philosophy and history and literature. When he was accepted to Yale, a place that seemed to him to be a rarefied world devoted to exploring the bounds and landscape of the rational human mind, Metaxas thought he would find answers. But those same questions continued to haunt him. After graduating from college and spending a few years working as a writer, Metaxas found himself lost, adrift in life. He moved home with his parents and accepted a dead-end, menial job. But it was under these unexpected circumstances that Metaxas found himself on the path to finding God and, finally, the purpose he'd been searching for the whole time. Fish Out of Water is a profound, funny, wise, and hopeful examination of our desire for meaning, knowing God in a secular age, and how to listen when God speaks to you.

Pumpkin Jack

In this rare peek into the personal life of the author of numerous bestselling novels, gain an understanding of David Foster Wallace and how he became the man that he was. Only once did David Foster Wallace give a public talk on his views on life, during a commencement address given in 2005 at Kenyon College. The speech is reprinted for the first time in book form in This is Water. How does one keep from going through their comfortable, prosperous adult life unconsciously? How do we get ourselves out of the foreground of our thoughts and achieve compassion? The speech captures Wallace's electric intellect as well as his grace in attention to others. After his death, it became a treasured piece of writing reprinted in The Wall Street Journal and the London Times, commented on endlessly in blogs, and emailed from friend to friend. Writing with his one-of-a-kind blend of causal humor, exacting intellect, and practical philosophy, David Foster Wallace probes the challenges of daily living and offers advice that renews us with every reading.

Presenting an inside look at the gay community of Tel Aviv, this book reveals a woman's perspective on a thriving Israeli counterculture. Arriving alone in Tel Aviv at the age of 54, the author quickly assimilated into the city's gay community—one that was not accustomed to seeing a middle-aged woman in a predominantly male society. By revealing the lives and tender stories of the people she met and their contributions to society, the author captures moments of happiness, despair, and friendship in rich, compassionate, amusing, and poignant detail.

Fish Out of Water

"Following a family tragedy, 18-year-old Gabe LoScuda suddenly finds himself thrust into the role of caregiver for his ailing grandfather. Between the shopping trips and the doctor visits with Grandpa, Gabe and his friend John try to salvage their senior year, meet girls, and make the varsity baseball team. It doesn't take long for Gabe to realize that going to school and looking after a grandfather with Alzheimer's is more work than he ever imagined. And when long-lost Uncle Nick appears on the scene, Gabe soon finds that living with Nick and Grandpa is like babysitting two grown men. Aside from John, the only person who truly understands Gabe is Sofia, a punk-rocking rebel he meets at the veteran's hospital. When these three unlikely friends are faced with a serious dilemma, will they do what it takes to save Grandpa? If there's a chance of preserving the final shreds of Grandpa's dignity, Gabe may have to make the most gut-wrenching decision of his life--and there's no way out."--Provided by publisher.

Stop going after goals and leveling up your life only to find yourself back to where you started, or worse. In *Fish Out of Water*, Calvin Wayman explains what happens to every person when they take action to level up in any aspect of their life. They become like a "fish out of water." Wayman explains the pitfalls that have kept people stuck from achieving their goals time and time again. *Fish Out of Water* gives the tools, principles, and strategies to break through the fish out of water stage, and become the "new you" that you're meant to be. *Fish Out of Water* is broken into three segments that are the foundation to your personal transformation. These sections are: 1) CIA: Consistent Imperfect Action (How to stay in the game) 2) Get Schooled 3) SWIM Like a Shark Wayman explains how these three principles are used together to level up your life. Sharing stories from Eric Worre, Nick Unsworth, John Lee Dumas, Lewis Howes, Tony Robbins, and others, Wayman illustrates how high-achievers have used these guiding principles to achieve massive levels of success. *Fish Out of Water* is the missing link to why most goals fail, and what you can do to finally break through, and transform into the new you!

From the perspective of a parent with college-age children, I thank Abby Nye for confronting us so boldly with the reality of what Christian students face in the secular world of academia. "Children need to be prepared for this experience - or they need to avoid it" -Joseph Farah, editor and C.E.O., WorldNewDaily.com So you're ready for the next chapter in your life?. Well, if you are a Christian heading to campus for the first time, there are several things you need to know about living your faith while surrounded by atheistic professors. Abby Nye has written a fantastic guide for college students who find their faith and values under assault from day one. Learn just what to expect, and how to navigate through classes while maintaining a good GPA and a positive college experience. Abby prepares new freshman (and even seasoned students!) to be able to survive and thrive in this often hostile setting. Among the topics she covers: Freshman orientation week The treatment of science and faith in the classroom Difficult professors and real life solutions The many forms of liberal ?indoctrination? Helpful campus groups and managing peer pressure This book is truly a must reading for students embarking for any college?a valuable handbook for parents, teachers, and students alike.

Fishes Out of Water

What starts as a psychological thriller and a simple crime story surpasses itself and attains the tragic force of the myth. This novel contains a precise and final definition of poetry/art, the sublime, the beautiful, and a definitive definition of the tragic and tragedy, all expressed in entertaining dialogues among friends. These definitions are final; they make all previous theories expounded by philosophers and historians obsolete. Furthermore, these definitions cannot be surpassed by any thinker in the future. There has never been, nor will there ever be any work of literature, which can be compared to this novel.

Creepy Carrots!

"A necessary book for anyone truly interested in what we take from the sea to eat, and how, and why." -Sam Sifton, The New York Times Book Review. Acclaimed author of American Catch and The Omega Principle and life-long fisherman, Paul Greenberg takes us on a journey, examining the four fish that dominate our menus: salmon, sea bass, cod, and tuna. Investigating the forces that get fish to our dinner tables, Greenberg reveals our damaged relationship with the ocean and its inhabitants. Just three decades ago, nearly everything we ate from the sea was wild. Today, rampant overfishing and an unprecedented biotech revolution have brought us to a point where wild and farmed fish occupy equal parts of a complex marketplace. Four Fish offers a way for us to move toward a future in which healthy and sustainable seafood is the rule rather than the exception.

What a Fish Knows

Mika is about to fulfill her dream of working at the world famous Monterey Bay Aquarium when her plans are derailed by an unexpected arrival-her estranged

grandmother Betty. Betty has dementia, and is no longer able to take care of herself. Betty is in need of her family's help-and she's not going to be particularly nice about it. Mika has to give up her summer internship at the Aquarium and stick to working part-time at AnimalZone in order to take care of Betty. The manager at AnimalZone has hired his nephew Dylan to work there, and Mika thinks he's entitled and annoying. Or is he just trying to become a better person? Mika is trying to be as patient as possible with her grandma-but Betty doesn't make that easy. And neither does Dylan. NATALIE WHIPPLE accidentally killed three goldfish while researching this novel [which Mika would be very ashamed of] but she hasn't killed any since. She grew up in California and spent many a family vacation in Monterey, and now she lives in Utah with her husband and three children frequently wishing she were closer to a beach.
