Peace Now!

Goodbye 20th Century

This monumental work reveals the continuities that underlie the changing surface of Chinese life from late imperial days to modern times. With a perspective that encompasses a thousand years of Chinese history, China's Motor provides a view of the social, economic, and political principles that have prompted people in widely varying circumstances to act, believe, and behave in ways that are labeled as Chinese. This original reinterpretation of Chinese culture, as meticulous in detail as it is vast in scope, will revise not only the study of China but also the very terms of social analysis.

Fiction, is a sweeping, impassioned work of activism and resistance that is also a stunning evocation of—and paean to—the natural world. From the roots to the crown and back to the seeds, Richard Powers’s twelfth novel unfolds in concentric rings of interlocking fables that range from antebellum New York to the late twentieth-century Timber Wars of the Pacific Northwest and beyond. There is a world alongside ours—vast, slow, interconnected, resourceful, magnificently inventive, and almost invisible to us. This is the story of a handful of people who learn how to see that world and who are drawn up into its unfolding catastrophe.

As urban designers respond to the critical issue of climate change they must also address three cresting cultural waves: the worldwide rural-to-urban migration; the collapse of global fertility rates; and the disappearance of the middle class. In Five Rules for Tomorrow's Cities, planning and design expert Patrick Condon offers five rules to help urban designers assimilate these interconnected changes into their work: (1) See the City as a System; (2) Recognize Patterns in the Urban Environment; (3) Apply Lighter, Greener, Smarter Infrastructure; (4) Strengthen Social and Economic Urban Resilience; and (5) Adapt to Shifts in Jobs, Retail, and

How did the protests and support of ordinary American citizens affect their country's participation in the Vietnam War? This engrossing book focuses on four social groups that achieved political prominence in the 1960s and early 1970s--students, African Americans, women, and labor--and investigates the impact of each on American foreign policy during the war. Drawing on oral histories, personal interviews, and a broad range of archival sources, Rhodri Jeffreys-Jones narrates and compares the activities of these groups. He shows that all of them gave the war solid support at its outset and offers a new perspective on this, arguing that these "outsider" social groups were tempted to conform with

foreign policy goals as a means to social and political acceptance. But in due course students, African Americans, and then women turned away from temptation and mounted spectacular revolts against the war, with a cumulative effect that sapped the resistance of government policymakers. Organized labor, however, supported the war until almost the end. Jeffreys-Jones shows that this gave President Nixon his opportunity to speak of the "great silent majority" of American citizens who were in favor of the war. Because labor continued to be receptive to overtures from the White House, peace did not come quickly.

One of the most influential and imaginative sci-fi writers turns his attention to London - with dazzling results. 'Part-detective story, part-cultural snapshot . . . all bound by Gibson's pin-sharp prose' Arena _____ Cayce Pollard owes her living to her pathological sensitivity to logos. In London to consult for the world's coolest ad agency, she finds herself catapulted, via her addiction to a mysterious body of fragmentary film footage, uploaded to the Web by a shadowy auteur, into a global quest for this unknown "garage Kubrick". Cayce becomes involved with an eccentric hacker, a vengeful ad executive, a defrocked mathematician, a Tokyo Otaku-coven known as Eye of the Dragon and, eventually, the elusive Kubrick himself. William Gibson's novel is about the eternal mystery of London, the coolest sneakers in the world, and life in (the former) USSR.
