For thirty years, Peter Singer's Practical Ethics has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

Acclaimed for her gorgeous writing and clear-eyed gaze into the hearts of people, Peery now returns with her second novel, *The Exact Nature of Our Wrongs*. On a summer evening in the blue-collar town of Amicus, Kansas, the Campbell family gathers for a birthday dinner for their ailing patriarch, retired judge Abel Campbell, prepared and hosted by their still-hale mother Hattie. But when Billy, the youngest sibling—with a history of addiction, grand ideas, and misdemeanors—passes out in his devil's food cake, the family takes up the unfinished business of Billy's sobriety. Billy's wayward adventures have too long consumed their lives, in particular Hattie's, who has enabled his transgressions while trying to save him from Abel's disappointment. As the older children—Doro, Jesse, ClairBell, and Gideon—contend with their own troubles, they compete for the approval of the elderly parents they adore, but can't
