Grounded in financial statements, Financial Accounting allows accountants to see not only the impact of financial transactions in financial statements, but also the impact of transactions on overall business decisions. The eighth edition offers new elements designed to sharpen Pratt's economic decision-making foundation with a more timely, real-world focus. Up-to-date, expanded, and detailed IFRS coverage is now included. The SEC 2014 roadmap is explored in all chapters. Comprehensive coverage of real-world financial crisis issues is presented. Accountants will also find more discussions on the increasing role of management's assessment of internal controls over financial reporting.

Designed for a senior level course in advanced accounting, this text delivers a balanced and detailed approach to the conceptual and technical aspects of advanced accounting. Reflective of the current state of the international accounting landscape, this new edition discusses the upcoming globalization of accounting standards with frequent references to the FASB's new Codification system and with a "compare and contrast" method for explaining the differences between U.S. GAAP and IFRS. In addition, Advanced Accounting includes comprehensive coverage of all three methods of consolidated financial reporting (cost, partial equity, complete equity). Authored with both the student and teacher in mind, margin icons and labels distinguish all three methods and other pedagogical features.
