## **Europe Since 1945**

Mahmutcehaji'c (former vice president of the Bosnia-Herzegovina government) first prepared this text as a lecture to be given at Stanford University in 1997, but he was unexpectedly denied a visa to enter the United States. The book is an indictment of the partition of Bosnia and a plea for Bosnia's communities to reject ethnic segregation and restore mutual trust. He argues that different religious and ethnic cultures have co-existed in Bosnia for centuries, and that the partitioning was made possible by Western complicity with Serbian and Croatian nationalists. ## **Izetbegović of Bosnia and Herzegovina**

The renowned historian Ivan T. Berend discusses populist demagoguery through the presentation of eighteen politicians from twelve European countries spanning World War I to the present. Berend defines demagoguery, reflects on its connections with populism, and examines the common features and differences in the demagogues' programs and language. Mussolini and Hitler, the "model demagogues," are only briefly discussed, as is the election of Donald Trump in the United States and its impact on Europe. The eighteen detailed portraits include two communists, two fascists, and several right-wing and anti-EU politicians, extending

across the full range of demagoguery. The author covers Béla Kun, the leader of the Hungarian Soviet Republic in 1919, weaving through Codreanu and Gömbös from the 1930s, on to Stahremberg and Haider in Austria, and then more broadly throughout Europe from Ceaușescu, Milošević, Tuđman, Izetbegović, Berlusconi, Wilders, to the two Le Pens, Farage, and Boris Johnson, Orbán and the two Kaczyńskis. Each case includes an analysis of the time and place and is illustrated with quotations from the demagogues' speeches. This book is a warning about the continuing threat of populist demagogues both for their subjects and for history itself. Berend insists on the crucial importance for Europe to understand the reality behind their promises and persuasive language as imperative to impeding their success.

As the leading Muslim political spokesman and intellectual, Izetbegovic was

sentenced in 1983 to a 14-year prison term. During the six years he served in prison, he wrote notes on life issues, religion, and politics. These reflections were smuggled out of prison and edited for publication in this collection along with a selection of letters from his family.

### **The Bosnian Muslims in the Second World War**

The story of the Bosnian Muslims in World War II is an epic frequently alluded to in discussions of the 1990s Balkan conflicts, but almost as frequently misunderstood or falsified. This first comprehensive study of the topic in any language sets the record straight. Based on extensive research in the archives of Bosnia-Herzegovina, Serbia and Croatia, it traces the history of Bosnia and its Muslims from the Nazi German and Fascist Italian occupation of Yugoslavia in 1941, through the years of the Yugoslav civil war, and up to the seizure of power by the Communists and their establishment of a new Yugoslav state. The book explores the reasons for Muslim opposition to the new order established by the Nazis and Fascists in Bosnia in 1941 and the different forms this opposition took. It describes how the Yugoslav Communists were able to harness part of this Muslim opposition to support their own resistance movement and revolutionary bid for power. This Muslim element in the Communists' revolution shaped its form and outcome, but ultimately had itself to be curbed as the victorious Communists consolidated their dictatorship. In doing so, they set the scene for future struggles

over Yugoslavia's Muslim question.

## **Inescapable Questions**

Islamic Fundamentalist's Global Network - Modus Operandi - Model Bosnia I. Brief Historical Background The US Congressional Research Service report<sup>1</sup> states that Al-Qaeda cells have currently been identified and have also been objectively suspected in at least thirty-four countries and their affiliated geo-political territories presently. Moreover, this same report dated September 10th 2001 released in Washington D.C. on September 13th 2001, only two days after the September 11th terrorist attacks perpetrated against America's World Trade Center state Osama bin Laden is estimated to have inherited roughly \$300- million dollars. Although some terrorist experts believe bin Laden actually has far less than this figure presently, and he is no longer reliant on his personal fortune to finance Al-Qaeda's activities, they claim that alternately he is employing a variety of both legal and illegal business endeavors as fronts for financing his terrorist activities. Over the previous six years, Al-Qaeda's network led by, Osama bin Laden, has evolved from merely a small regional threat beginning with USW troops stationed in the Persian Gulf, into an all out global threat to international peace and perpetual human survival including a direct threat especially directed against United States citizens and United States associated national security interests. In constructing Al-Qaeda, bin Laden has assembled a coalition of disparate radical Islamicist groups

comprised of a variety of ethnic nationalities, all to work towards one common goal which is in Bosnia&Herzegovina, the total ethnic expulsion of everyone non-Muslim so that only Islamist racists are left as the overall controlling influence of these future ethnically pure Islamic Muslim-inhabited lands which once were multi-ethnic as America. Al-Qa'ida: in the 80s they were in Afghanistan, supported by America and fighting the Russians. In the new century they have metastasized throughout the world's geopolitical body. Where were they in the 90s? Unholy Terror provides the answer, with all its terrifying implications for our world today. This book provides the missing piece in the puzzle of al-Qa'ida's transformation from an isolated fighting force into a lethal global threat: the Bosnian war of 1992 to 1995. John R. Schindler reveals the unexamined role that radical Islam played in that terrible conflict--and the ill-considered contributions of American policy to al-Qa'ida's growth. His book explores a truth long hidden from view: that, like Afghanistan in the 1980s, Bosnia in the 1990s became a training ground for the mujahidin. Unholy Terror at last exposes the shocking story of how bin Laden successfully exploited the Bosnian conflict for his own ends--and of how the U. S. Government gave substantial support to his unholy warriors, leading to blowback of epic proportions.

The recent resurgence of populist movements and parties has led to a revival of scholarly interest in populism. This volume brings together well-established and new scholars to reassess the subject and combine historical and theoretical perspectives to shed new light on the history of the subject, as well as enriching contemporary discussions. In three parts, the contributors explore the history of populism in different regions, theories of populism and recent populist movements. Taken together, the contributions included in this book represent the most comprehensive and wide-ranging study of the topic to date. Questions addressed include: - What are the 'essential' characteristics of populism? - Is it important to distinguish between left- and right-wing populism? - How can the transformation of populist movements be explained? This is the most thorough and up to date comparative historical study of populism available. As such it will be of great value to anyone researching or studying the topic.

Robin Woodsworth Carlsen For centuries Europe has benefitted from Islam, often without acknowledging it and without giving anything in return. Now with the publication of Islam Between East and West, Europe has begun to pay its debt to Islam. Rational and yet not insulting to the emotions, it exalts the spirit without denigrating the body. But what stands it apart as a landmark is its transcendental wisdom expressed in a style inherent to all noble ideas. Doubtless, its appeal will go beyond its time because it embraces life - and there is no theme greater than life. M . Tariq

### **Ethnic Politics in Eastern Europe**

This is the first authoritative biography of Slobodan Milosevic, currently on trial at The Hague for crimes against humanity. Adam LeBor, a critically acclaimed author and journalist who covered the Yugoslav Wars for the Independent and The Times, documents the life of a man whose policies instigated four wars, who skilfully exploited the most modern techniques of media management to whip up a nationalist frenzy, and under whose rule bloody campaigns of ethnic cleansing systematically destroyed a once sophisticated multi-ethnic country, and yet who retained for a decade the ability to wrap the 'international community' round his little finger. It gives the inside story of Milosevic's childhood, his marriage to Mira (who gave him an entrée into the highest circles of Yugoslavia's political elite), his rise to power, the looted money (estimated at some \$30 billion), the ascendancy of crime over politics (personified in his son Marko's enterprises), his relationships with key figures like Radovan Karadzic and Franjo Tujman, not to mention the many western diplomats, politicians and businessmen with whom he dealt for more than 10 years, and finally the story of his fall from power.

through the imposition of economic and political reform. Promoted as a way to modernize Yugoslavia and bring it into the mainstream, the program was in fact meant to bring down the Communist government in a "quiet revolution" of the type that was envisaged for other former Soviet bloc countries. Showing how Western plans for the liberalization of the country resulted in ethnic polarization and the election of ethno-nationalist leaders, the book then goes on to describe the events of the war. The struggle of the republics for independence was yet another proxy war, which the West encouraged in order to chastise Milosevic and nudge him into becoming the man that they wanted him to be. While no formal plan has surfaced to show that the whole thing was engineered to provide a base for US/NATO troops, on the other hand, the situation was so egregious that intervention was highly sought and that the West had an obligation to clean up its mess, which it finally did. Many have been emotionally manipulated into being grateful for NATO intervention, and then it was quite convenient that a NATO base existed. But how does one say that intervention was needful, and then point the finger at the intervening forces? One can claim that Germany, Austria and the Vatican were in favor of Croatian and Slovenian secession and the US came late to the game to demand Bosnian independence. It can also be claimed that Britain and France did not stand in the way of Serbian secession within Bosnia and Croatia but rather promoted their goals. Yugoslavia was a case of secession within secession, raising the question of who was supported by whom in either case Bosnia is a case study similar to the other color revolutions. If a small number of people are manipulated

## **Daily Report**

Since its birth as a concept, civilization has been defined by an encounter with the 'other'. Barbarism, the ever-ready counter concept, has provided civilization with its raison d'etre-that of exerting violence upon other societies to 'civilize' them. Enlightenment thinkers defined civilization as an opponent of nature, while science and technology, tools with which nature was to be conquered, became one of the basic indicators of development. Thus was formed the unbroken tie between

civilization and science. In the Muslim world, civilization became a synonym for modernization, a lifestyle imposed by the colonialists and their local counterparts. However, as this volume reveals, the resistance to and reception of Western modernity by non-Western societies is not homogenous, nor is the 'othering' unidirectional. If the Orientalist discourse portrayed the Islamic East as an exotic, seductive, and untamed 'other', a corresponding Occidentalism also stereotyped the West as the soulless, mechanistic 'other' to Islam. Challenging the embedded prejudices within social theory, *Debates on Civilization in the Muslim World* questions the Eurocentric understanding of civilization and also explores the themes of modernization, globalization, and the future of the civilization debate. ### **Unholy Terror**

This book focuses on the recent political and economic events in the former Yugoslavia. The author presents a clear, detailed and accessible breakdown of the developments in: Bosnia-Herzegovina, Croatia, the Former Yugoslav Republic of Macedonia, Slovenia and the Federal Republic of Yugoslavia (Serbia and Montenegro). The role of the West in the more unstable countries of the Former Yugoslavia has been reassessed in the light of the terrorist attacks on the United States and the fall of Afghanistan. The involvement of the US, in particular, in countries affected by ethnic strife has been brought under scrutiny, as has the role of international military and civilian involvement in maintaining peace and

rebuilding economies and political structures. This book contributes to these debates by providing a unique level of coverage of economic and political developments in former Yugoslav countries. It will provide an invaluable source of reference for all those interested in transitional and developing countries.

### **Bosnia and Beyond**

By all measures, the late twentieth century was a time of dramatic decline for the Islamic world, the Ummah, particularly its Arab heartland. Sober Muslim voices regularly describe their current state as the worst in the 1,400-year history of Islam. Yet, precisely at this time of unprecedented material vulnerability, Islam has emerged as a civilizational force strong enough to challenge the imposition of Western, particularly American, homogenizing power on Muslim peoples. This is the central paradox of Islam today: at a time of such unprecedented weakness in one sense, how has the Islamic Awakening, a broad and diverse movement of contemporary Islamic renewal, emerged as such a resilient and powerful transnational force and what implications does it have for the West? In *One Islam, Many Muslims Worlds* Raymond W. Baker addresses this question. Two things are clear, Baker argues: Islam's unexpected strength in recent decades does not originate from official political, economic, or religious institutions, nor can it be explained by focusing exclusively on the often-criminal assertions of violent, marginal groups. While extremists monopolize the international press and the

scholarly journals, those who live and work in the Islamic world know that the vast majority of Muslims reject their reckless calls to violence and look elsewhere for guidance. Baker shows that extremists draw their energy and support not from contributions to the reinterpretation and revival of Islamic beliefs and practices, but from the hatreds engendered by misguided Western policies in Islamic lands. His persuasive analysis of the Islamic world identifies centrists as the revitalizing force of Islam, saying that they are responsible for constructing a modern, cohesive Islamic identity that is a force to be reckoned with.

Boston, November 5, 1995 The war in Bosnia and Herzegovina is an unheard-of tragedy. The question most often asked is, how could that happen today when the genocide committed during World War II is so well known (the Holocaust) and when the international community had the will and the means to protect the Republic of Bosnia and Herzegovina? The international community has shown that it is not the enemy of the Republic of Bosnia and Herzegovina and that it accepts this state into its membership when it recognized the Republic of Bosnia and Herzegovina on April 7, 1992. With that act, the international community stood up against the Serbian nationalism, which only started to bloody its hands in Bosnia and Herzegovina. So how come that in the fall of 1995, after the innumerable atrocities committed by the Serbs revolted the world, the international community crossed over to the side of the war criminals, giving them 49 percent of Bosnia and Herzegovina with its Dayton peace proposals? Who was the mastermind who succeeded to change the world opinion and what methods did he use? This book answers some of those questions. The reading of this book has to be approached with having faith in no one but a common sense. Besides that, from the reader who comprehends what is truly happening in Bosnia, it is expected that he/she spreads the truth. The ultimate goal is to help in the fight against the forces of betrayal and the division of Bosnia and Herzegovina. Wishing to arm the Bosnian patriots as soon as possible with the knowledge of what is really happening, this book is being written in a hurry. I still hope that this book will reach Bosnians and friends of Republic of Bosnia and Herzegovina all over the world before it is too late and while it is still possible to say no to the division of a member of the United Nations.

## **Excerpts from Books Written by the Bosnian Muslim Leader-Alija Izetbegovic, and Croatian President -Franjo Tudjman**

A Concise History of Bosnia integrates the political, economic and cultural history of this fascinating, beautiful, but much misunderstood country. Drawing on a wide range of primary and secondary literature, this objective and engaging history covers developments in the region up to the present day and offers an accessible interpretation of an often contested and controversial history. Importantly, Cathie Carmichael looks at Bosnia over the long term, moving away from a narrow focus on the 1990s to offer a historical rather than a nationalist perspective on events. Integrated within the narrative account, there is a particular focus on the themes of culture and religion, and the effect of geography and regional changes in the landscape on Bosnian history. Engaging and authoritative, the book succinctly explores how Bosnia has changed over many centuries, and focuses on the dynamic and creative aspects of Bosnia's past as well as the darker elements.
