River Phoenix: A Short Life is the first biography of this talented but tragic young star. It explores the contradictions of a life that encompassed the hippy philosophy of his unconventional parents, the abnormal pressures of child stardom on TV, leading inevitably to the big time as a brat pack hopeful in Hollywood. However, there was real talent in this young actor which was recognised by up-coming directors and established names. His performance in Sidney Lumet's Running on Empty and his role as a male prostitute in My Own Private Idaho established his credentials as a serious actor with the potential for greatness.

We have all heard the noises that go bump in the night. Most of us tend to ignore them due to our fear of what it may be. Many other people see things or feel things and are not fazed by them. They tolerate it and move along. It's very intriguing when you think about how many incidents occur. Call them spirits, ghosts, demons or poltergeists, in this world they exist. Both Adam and Jason knew this and believed in it too. From a very young age they had both experienced it. This is their story of supernatural encounters. After reading this your perception may be changed forever. It might make you believe in the unreal. Perhaps what you thought you knew is the complete opposite to the truth. A tale of courage, denial, failure, love, friendship in the midst of unthinkable horror.

The Very Quick Job Search

In and out of therapy since she was sixteen, Cecelia read everything she could find written by others who experienced child abuse or sexual abuse. These books related the facts of the events. They didn't really offer any understanding of what it takes to recover. When your spirit has been spent you don't know where to begin. How do you learn to love, when you were raised without love? How do you learn that you are loveable? How do you learn to love yourself? How do you learn to forgive? First and foremost, I hope that others like myself will find within these pages a few ideas or tools to use to create a better life for themselves. Life is after all what you choose to make it. The power to change your life for the better is within you. You just have to find it. For the general public, I hope to give a glimpse of the pain, turmoil, rage, confusion, numbness, frustration, disappointment, and malcontent we find ourselves saddled with. In this way they may be able to recognize how they can become instrumental in helping someone who is silently screaming for help.

Coach TJ Stonewall established the Lady Phoenix Basketball Program as a way to help young female student athletes with their pursuit to reach their athletic goals and higher education. He had no idea that there were coaches out there who want to win at all costs, and who will try to draw the most talented players away from other programs with material things and promises of fame. While TJ struggles to put an end to illegal recruiting and misuse of funds by other ball clubs, he must contend with troubles of his own, including a player who runs away from home when her mother finds sexually explicit pictures of her, another wayward player with a bad attitude, and a highly skilled player who has lost focus on her academic responsibilities. On top of all that, TJ is a newlywed and must learn how to take care of his wife, who he has waited all his life for. Rise of the Phoenix goes behind the scenes of New York's summer leagues and into the lives of some of the city's most well known players and coaches.

Fred Reichheld's 2006 book *The Ultimate Question*, that question being, "How likely is it that you would recommend this company to a friend or colleague?"-challenged the conventional wisdom of customer satisfaction programs. It coined the terms 'bad profits' and 'good profits' and pointed to a faster, much more accurate way of gauging customers' real loyalty to a company, introducing a quantitative measure (the Net Promoter Score) for establishing a baseline and effectively tracking changes going forward. Richard Owen and Laura Brooks are co-developers, along with Reichheld, of the methodology behind answering the question. In this book, Owen and Brooks tell how based on a variety of real case studies' to actually embed Net Promoter discipline in organizations of all types.
