The New Answers Book

We are an increasingly skeptical society - whether it comes to politics, science, or even faith. As various channels of media vie for our time and attention, people see conflict everywhere, even about fundamental aspects of the Bible. In this popular new series, a stellar group of biblical scholars, seminary professors and apologetics ministry leaders team up to offer compelling facts and research to reassure Christians about the validity and inerrancy of the Bible.

Six Days

Here is a ground-breaking book that takes on skeptics from both sides of the cosmological debate, arguing that science and the Bible are not at odds concerning the origin of the universe. The culmination of a physicist's thirty-five-year journey from MIT to Jerusalem, *Genesis and the Big Bang* presents a compelling argument that the events of the billions of years that cosmologists say followed the Big Bang and those of the first six days described in Genesis are, in fact, one and the same—identical realities described in vastly different terms. In engaging, accessible language, Dr. Schroeder reconciles the observable facts of science with the very essence of Western religion: the biblical account of Creation. Carefully reviewing and interpreting accepted scientific principles, analogous passages of Scripture, and biblical scholarship, Dr. Schroeder arrives at a conclusion so lucid that one wonders why it has taken this long in coming. The result for the reader—whether believer or skeptic, Jewish or Christian—is a totally fresh understanding of the key events in the life of the universe.

World Religions and Cults Volume 1

How Do We Know the Bible Is True?

Provides answers to such children's questions as "Did bumblebees have stingers before Adam and Eve sinned?" and "Why do evolutionists trust their beliefs and not Christ?"

The Answers Book

A shocking look at the state of higher education - secular and Christian! The book serves as a vital resource, engaging parents who are looking for a college for their child. Tips for parents when looking at a Christian college to find out what they really believe and teach about the authority of Scripture are included. focused on a powerful question: are they going to build your child's faith or tear it down.

One Race One Blood

On May 28, 2007, the Creation Museum opened in Petersburg, Kentucky. Aimed at scientifically demonstrating that the universe was created less than ten thousand years ago by a Judeo-Christian god, the museum is hugely popular, attracting millions of visitors over the past eight years. Surrounded by themed topiary gardens and a petting zoo with camel rides, the site conjures up images of a religious Disneyland. Inside, visitors are met by dinosaurs at every turn and by a replica of the Garden of Eden that features the Tree of Life, the serpent, and Adam and Eve. In *Righting America at the Creation Museum*, Susan L. Trollinger and William Vance Trollinger, Jr., take readers on a fascinating tour of the museum. The Trollingers vividly describe and analyze its vast array of exhibits, placards, dioramas, and videos, from the Culture in Crisis Room, where videos depict sinful characters watching pornography or considering abortion, to the Natural Selection Room, where placards argue that natural selection doesn't lead to evolution. The book also traces the rise of creationism and the history of fundamentalism in America. This compelling book reveals that the Creation Museum is a remarkably complex phenomenon, at once a "natural history" museum at odds with contemporary science, an extended brief for the Bible as the literally true and errorless word of God, and a powerful and unflinching argument on behalf of the Christian right.

How Could a Loving God

A is for Adam is a multi-purpose family book designed to teach young learners Biblical truths. This resource can be a fun

and educational way to help your children learn the timeline of history, beginning with Creation and ending with the new Heavens and new Earth. Children will love the bright illustrations and rhymes. Parents and educators will find short discussion points, memorization aids for core truths, and a “More Answers” section. Each sequence of verses teaches the Gospel message to children, answering such questions as: How can we know we didn’t evolve from monkeys? What did sin do to the world? Why are there different languages? Why did Jesus have to die?

Demolishing Supposed Bible Contradictions

If you were asked how you know the Bible is true, do you have an answer? Over 29 issues addressed, including: Who made God; where did God come from? Has Noah’s ark been found? Hasn’t Bible text been changed over the years? Is Hell real? Did the ten plagues of Egypt really happen? We are an increasingly skeptical society — whether it comes to politics, science, or even faith. People see conflict everywhere, even about fundamental aspects of the Bible. When church leaders are at odds about biblical truth and scriptural authority, believers are left confused and uncertain, needing clear biblical truth. Addressing topics from popular culture like the Shroud of Turin, or “missing” books of the Bible, and even what makes God’s Word unique among holy books, *How Do We Know the Bible is True? Vol. 2* is a “must have” resource for churches, libraries, and home study.

The Answers Book for Kids

If Darwin were to examine the evidence today using modern science, would his conclusions be the same? Charles Darwin’s *On the Origin of Species*, published over 150 years ago, is considered one of history’s most influential books and continues to serve as the foundation of thought for evolutionary biology. Since Darwin’s time, however, new fields of science have emerged that simply give us better answers to the question of origins. With a Ph.D. in cell and developmental biology from Harvard University, Dr. Nathaniel Jeanson is uniquely qualified to investigate what genetics reveal about origins. *The Origins Puzzle Comes Together* If the science surrounding origins were a puzzle, Darwin would have had fewer than 15% of the pieces to work with when he developed his theory of evolution. We now have a much greater percentage of the pieces because of modern scientific research. As Dr. Jeanson puts the new pieces together, a whole new picture emerges, giving us a testable, predictive model to explain the origin of species. A New Scientific Revolution Begins Darwin’s theory of evolution may be one of science’s “sacred cows,” but genetics research is proving it wrong. Changing an entrenched narrative, even if it’s wrong, is no easy task. Replacing Darwin asks you to consider the possibility that, based on genetics research, our origins are more easily understood in the context of . . . In the beginning . . . God, with the timeline found in the biblical narrative of Genesis. There is a better answer to the origins debate than what we have been led to believe. Let the revolution begin! About the Author Dr. Nathaniel Jeanson is a scientist and a scholar, trained in one of the most

prestigious universities in the world. He earned his B.S. in Molecular Biology and Bioinformatics from the University of Wisconsin-Parkside and his PhD in Cell and Developmental Biology from Harvard University. As an undergraduate, he researched the molecular control of photosynthesis, and his graduate work involved investigating the molecular and physiological control of adult blood stem cells. His findings have been presented at regional and national conferences and have been published in peer-reviewed journals, such as *Blood*, *Nature*, and *Cell*. Since 2009, he has been actively researching the origin of species, both at the Institute for Creation Research and at Answers in Genesis.

A lot of time and money is spent by Christians who have a passion to spread the gospel. Across the globe, this effort is paying off as seekers find Christ, the source of truth and peace. In many cultures, though, appeals made on behalf of the Christian faith are met with blank stares, indifference, even mocking hostility. Ken Ham, one of Christendom's most astute observers of evangelism, is convinced that compromise with evolutionary world views has virtually crippled preaching and teaching efforts, especially in Western societies. In this truly bold book, Ham presents an ambitious plan to fulfill the Great Commission. A compelling writer and speaker, Ham deftly exposes the great flaws of Darwinism, and shows how compromise with this philosophy of death is killing the Church. By the jungle of tangled views of reality, and helps committed Christians see the path to effective evangelism.

The Answers Book for Kids Volume 5

Religions in today's culture seem to be multiplying. Have you ever wondered why certain religions believe and practice what they do? Or how they view the Bible? This volume delves into these and other engaging questions, such as: How can a Christian witness to people in these religions? Do these other religions believe in creation and a Creator? How do we deal with these religions from a biblical authority perspective? Many religions and cults discussed in this first volume openly affirm that the Bible is true, but then something gets in their way. And there is a common factor every time—man's fallible opinions. In one way or another the Bible gets demoted, reinterpreted, or completely ignored. Man's ideas are used to throw the Bible's clear teaching out the window while false teachings are promoted. This book is a must for laymen, church leaders, teachers, and students to understand the trends in our culture and around the world where certain religions dominate, helping you discern truth and guard your faith. When you understand a religion's origins and teachings, you are in a better position to know how to proclaim the gospel of Jesus Christ as you take the good news to those in false religions.

The First Book of Moses, Called Genesis

Dinosaurs are fascinating creatures that kids simply adore, and even the youngest believer can recite the biblical story of Noah and his ark. Now discover how to answer some of kids' most interesting questions about dinosaurs and Noah's ark like: How did all the dinosaurs fit on the ark? How did Noah keep the animals on the ark from eating each other and his family? Where did all the water go after the Flood? Why aren't there fossils of humans from Noah's flood? Answers are important. If children aren't given answers to their questions about the Bible and the history it reveals, they cannot defend their faith against a secular worldview in a fallen world. My Creation Bible

There are hosts of books and resources on the Flood and Noah's ark in the creation movement. But there has been a glaring

problem in this area for 50 years. There isn't one basic laymen book on the Flood and ark to give answers to those questions asked all the time. Most books are too shallow, too specific, or too technical for the average Christian to read or get much from. Most people in pews could use a book like this to give them the basic answers they need about the Flood and the ark, then they will be prepared to go into further technical books or specific books from there. Answers the top questions Answers in Genesis receives about the FloodAddresses issues in a way that should be easy to read and yet still gives the reader some meat to chew on.The perfect "starter" book for those interested in learning more or for believers wanting share the truth with non-believers Most people in the pews could use a book like this to give them the basic answers they need about the Flood and Noah's Ark. Coming to Grips With Genesis

Discover how many evangelical leaders, willingly or unwittingly, are undermining the authority of God's Word by compromising the Bible in Genesis Learn how allowing for an old/universe of billions of years unlocks a door of compromise Heed the wake-up call to the Church to return to the authority of God's Word, beginning in Genesis. Today, most Bible

colleges, seminaries, K-12 Christian schools, and now even parts of the homeschool movement do not accept the first eleven chapters of Genesis as literal history. They try to fit the supposed billions of years into Genesis, and some teach evolution as fact. Our churches are largely following suit. Ken Ham, international speaker and author on biblical authority, examines how compromise starting in Genesis, particularly in regard to the six days of creation and the earth's age, have filtered down from the Bible colleges and seminaries to pastors—and finally to parents and their children. This erosive legacy is seen in generations of young people leaving the Church—2/3 of them. Get the facts, discover God's truth, and help bring a new reformation to the Church by helping to call it back to the authority of God's Word.

A Special Door

Go to the heart of this cultural issue! Racism cannot be solved by laws, educational programs, or secular science. It is a sin and only God has the solution. Discussions about "race" are too often confused with political correctness or cultural buzzwords. Yet, it is vital to have this difficult conversation with children in a way they can understand. And God has given us a simple, powerful answer in the Bible. Reveals how biblical history makes clear what science is only now understanding Addresses cultural differences, people groups, and the science of skin tones Sweeps away the flawed evolutionary foundation of racism with God's enduring truth! Apologetics powerhouse Ken Ham provides children important insight and a biblical foundation that combats the idea of human "races." From the Garden of Eden to our world today, there is just one race - the human race. Once you understand that, racism loses its power!

The Answers Book

In 1987 Ken Ham wrote what would become a prophetic warning to the Church about the destructive effects of compromise with evolutionary ideas, and how this compromise undermines Scriptural authority and erodes Christian confidence in the infallibility of God's Word. Today we have Christians not only confused when it comes to Genesis and age of the earth, but even the reality of Hell, Adam as a real person, and Christ's own words about creation, marriage and more are being debated in the pulpits across the world. In this special revised and updated edition, Ken Ham again takes the lead in pointing out the looming precipice the Church is rushing towards, how evolution and/or millions of years, is driving away young people of the faith, and the biblical solution that can change it!
