### **Learn to Read Greek**

With enthusiasm and wry wit, author Jones takes you step by step through the rudiments of the Western World's first great language--the medium of Plato and the New Testament. Introduces the Greek alphabet, explains each grammar point in layman's terms, gives plenty of study hints, provides answers for the exercises, and even presents a "to-do" list at the end of most chapters. Not too far into the book you'll already be reading masterful Greek literature, in extracts chosen from such authors as Plato, Sophocles, and Thucydides. Offers a discussion of Greek history and culture in each chapter, and another feature that looks closely at Greek words, with special emphasis on related words in English.--From publisher description.

### **Comparative Legal Philosophy Applied to Legal Institutions**

Combining the best features of traditional and modern methods, Athenaze provides a unique course of instruction that allows students to read connected Greek narrative from an early stage, and guides them to the point where they can read complete classical texts. There is a fictional narrative about an Attic farmer's family placed in precise historical context (432 BC). The narrative is interwoven with tales from mythology and the Persian Wars, and gradually gives way to extracts from Herodotus, Plato, and Thucydides. Each chapter includes a full explanation of new vocabulary and grammar, and an essay on relevant aspects of ancient Greek culture and history. Exercises in translation from English to Greek are integrated throughout.

## **Wheelock's Latin 7th Edition**

This text gives clear, concise and easily understood explanations of all the key points of Ancient Greek grammar. Features such as study tips and a glossary ensure students have all the support they need to help their language learning.

## **Reading Greek**

Sponsored by the Department of Classics of Harvard University, a revised edition of the late Professor Smyth's A Greek Grammar for Colleges is now available. All necessary corrections have been made, and the book retains the form which has long made it the most complete and valuable work of its kind. In this descriptive grammar the author offers a treatment of Greek syntax which is exceptionally rich as well subtle and varied.

## **An Introduction to Ancient Greek: A Literary Approach, (2nd Edition)**

A.E. Luschnig's "An Introduction to Ancient Greek: A Literary Approach" prepares students to read Greek in less than a year by presenting basic traditional grammar without frills and by introducing real Greek written by ancient Greeks, from the first day of study. This second edition retains all the features of the first but is more streamlined, easier on the eyes, more gender-inclusive, and altogether more 21st century. It is supported by a Web site for teachers and learners.

## **Athenaze**

## **Discovering Ancient Greek Step by Step**

A Latin grammar and reader all in one when the text and workbook are used together, Learn to Read Latin presents basic Latin morphology and syntax with clear explanations and examples, and it offers direct access to great works of Latin literature even at the earliest stages of learning the language. As beginning students learn basic forms and grammar, they also gain familiarity with patterns of Latin word order and other features of style, thus becoming well prepared for later, more difficult texts. No other beginning Latin book contains as many unaltered versions of ancient texts. Learn to Read Latin includes the writings of such authors as Caesar, Cicero, Sallust, Catullus, Vergil, and Ovid, arranged chronologically and accompanied by introductions to each author and each work. These readings serve as the chief training texts around which the book's fifteen chapters are constructed. A workbook is also available, providing abundant drills for each chapter of the text. A flexible format allows the workbook exercises to be used in the classroom, for homework assignments, for

extra individual drill work, or as a home study tool.

### **In Search of the Greeks (Second Edition)**

Introduces a wider range of grammatical forms and constructions, expanding vocabulary to 625 words.

### **The Oxford Grammar of Classical Greek**

Communicates the significance and essential qualities of Hellenic civilization using passages from classical writings to illustrate syntactical and morphological rules

### **An Introduction to Ancient Greek**

This course allows students to read connected Greek narrative from an early stage, and guides them to the point where they can read complete classical texts. There is a fictional narrative about an Attic farmer's family placed in precise historical context (432 BC). The narrative is interwoven with tales from mythology and the Persian Wars, and gradually gives way to extracts from Herodotus, Plato and Thucydides. Each chapter includes a full explanation of new vocabulary and grammar, and an essay on relevant aspects of ancient Greek culture and history. Exercises in translation from English to Greek are integrated throughout.

### **Homeric Greek**

### **Deep Ancestors**

An enduring academic favorite now updated for the first time in fifteen years, this user-friendly introduction to New Testament Greek keeps discussion of grammar as non-technical as possible. Author David Alan Black provides tools and exercises for bringing the student to the experience of reading from the Greek New Testament after just seventeen lessons. Among the revisions to this third edition are updated discussions and scholarship, further back matter vocabulary references, and additional appendices.

### **Athenaze**

Through a combination of the linguistics of a reconstructed language, archaeology, and comparative mythology, Deep Ancestors breathes life into the ancient Proto-Indo-European culture and religion. Ceisiwr states "This book must be considered a report on a work in progress. As time goes by, new research will be done, new ideas and data presented, and old texts and archaeology reinterpreted. This will require changes in the beliefs and practices of reconstructed Proto-Indo-European religion. Consider this a process of progressive revelation, except that instead of coming from the gods it comes from scholars."

### **Ecce Romani III.**

One of the most successful Classical Greek introductory textbooks, this edition provides an introduction to Classical Greek with an encouraging, pleasant, and accessible presentation for today's modern students. Fifty short lessons presume no knowledge of Latin, and allow students to master a concept before moving on to the next. Each lesson is accompanied by numerous exercises, as well as manageable selections of Ancient Greek writings (edited in early chapters) from Aesop's most amusing and curious fables to concise Greek passages from The New Testament, Aristotle, Arrian, Demosthenes, Lysias, Plato, Thucydides, and Xenophon. The fourth edition of From Alpha to Omega retains all the features that have made it a best-selling introductory Greek textbook, many of them improved or expanded: Balanced, evenly-paced lessons to accommodate various academic schedules Brief readings from Ancient Greek authors Efficient translation exercises Succinct, instructive vocabulary lists Glossary containing all vocabulary words from lessons and readings, both Greek-to-English, and English-to-Greek Online exercises, audio recordings, video tutorials, and more accompany each chapter at [courses.pullins.com](http://courses.pullins.com). An Ancillary Exercise Workbook and a Greek Reader are also available.

### **Athenaze**

For nearly sixty years, Wheelock's Latin has remained the opitmus liber of beginning Latin textbooks. When Professor Frederic M. Wheelock's Latin first appeared in 1956, the reviews extolled its thoroughness, organization, and conciseness; one reviewer predicted that the book "might well become the standard text" for introducing students to elementary Latin. Now, nearly six decades later, that prediction has certainly proved accurate. This new edition of Wheelock's Latin has all of the features, many of them improved and expanded, that have made it the bestselling single-volume beginning Latin textbook: 40 chapters with grammatical explanations and readings drawn from the works of Rome's major prose and verse writers; Self-tutorial exercises, each with an answer key, for independent study; An extensive English-Latin/Latin-English vocabulary section; A rich selection of original Latin readings—unlike other Latin textbooks, which contain primarily made-up texts; Etymological aids, maps, and dozens of images illustrating aspects of the classical culture and mythology presented in the chapter readings. Also included are expanded notes on the literary passages, comments on vocabulary,

and translation tips; new comprehension and discussion questions; and new authentic classical Latin readings, including Roman graffiti, in every chapter.

## **Athenaze:**

On the Margin Each of the eight chapters consists of a brief introduction in English, followed by selected extracts from Cicero, Pliny, Petronius, as well as other authors and inscriptions, all of which are made readily accessible by glosses. The book begins by dealing with the family, and then reaches out to the area of the 'other' - those groups on the margin of Roman society: women, children, slaves, freedmen, convicts, gladiators, foreigners and Christians. In addition, there are questions on each passage designed to stimulate discussion and reflection on these largely under-examined aspects of Roman life.

## **Reading Course in Homeric Greek, Teacher's Manual and Answer Key**

The classic, single-volume introductory Latin textbook, introduced in 1956 and still the bestselling and most highly regarded textbook of its kind. Wheelock's Latin, sixth edition, revised, has all the features that have made it the best-selling single-volume beginning Latin textbook, many of them revised and expanded:

- o 40 chapters with grammatical explanations and readings based on ancient Roman authors
- o Self-tutorial exercises with an answer key for independent study
- o An extensive English-Latin/ Latin-English vocabulary section
- o A rich selection of original Latin readings -- unlike other textbooks which contain primarily made-up Latin texts
- o Etymological aids

Also includes maps of the Mediterranean, Italy and the Aegean area, as well as numerous photographs illustrating aspects of classical culture, mythology, and historical and literary figures presented in the chapter readings.

- o The leading self-tutorial Latin program. Also great for college and accelerated high school courses.
- o Wheelock's Latin is the top-selling Latin reference in the US.
- o Interest and enrolments in Latin have been steadily rising in the U.S. for the past 20 years. One-half million people are currently enrolled in Latin classes, and at least 10,000 teachers, professors and graduate assistants are teaching the language in America.

## **Learn to Read New Testament Greek**

In Search of the Greeks offers an engaging introduction to the societies of Classical Greece. Making extensive use of ancient sources and illustrated with some hundred and fifty photographs, drawings, maps and plans, many now for the first time in colour, the book introduces key topics of ancient Greece. The new edition opens with a new chapter that provides an historical overview of the key events, figures and eras, and continues with updated chapters on key topics in Greek history: religion and thought, Athenian democracy, Athenian society, Athenian drama, the Olympic Games and Sparta. Activity

boxes and further reading lists throughout each chapter aid students' understanding of the subject. Appendices provide further information on Greek currency values, Greek musical instruments and the Greek calendar. Review questions throughout this book challenge students to read further and reflect on some of the most important social, political and cultural issues of classical Greece. Many topics raise issues of contemporary relevance, such as the rights of citizens in a democracy, forced marriage and approaches to education. The book is supported by a website which, contains comprehensive resources on the social, political and cultural issues of classical Greece.

## **Introduction to Attic Greek**

This is a Focus reprint of the instructor's manual and answer key to accompany the 1946 edition of A Reading Course in Homeric Greek, Book One.

## **Athenaze**

A lively short biography of one of the best known Roman emperors.

## **Greek to GCSE**

This is the book that generations of writers have relied upon for timeless advice on grammar, diction, syntax, and other essentials. In concise terms, it identifies the principal requirements of proper style and common errors.

## **Greek Grammar**

## **Learn Ancient Greek**

The CD-ROM "contains sense unit versions of all prose readings in Book III and large type versions of all the readings."--Page vi of teacher's guide.

## **Wheelock's Latin, 6th Edition Revised**

This method indeed conveys the essentials of what one must know to be able to read classical Greek texts.

## **A New Introduction to Greek**

Combining the best features of traditional and modern methods, Athenaze: An Introduction to Ancient Greek, 2/e, provides a unique course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading complete classical texts. Carefully designed to hold students' interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' Acharnians. Essays on relevant aspects of ancient Greek culture and history are also provided. New to the Second Edition: \* Short passages from Classical and New Testament Greek in virtually every chapter \* The opening lines of the Iliad and the Odyssey toward the end of Book II \* New vocabulary and more complete explanations of grammar, including material on accents \* Many new exercises and additional opportunities for students to practice completing charts of verb forms and paradigms of nouns and adjectives \* Updated Teacher's Handbooks for Books I and II containing translations of all stories, readings, and exercises; detailed suggestions for classroom presentation; abundant English derivatives; and additional linguistic information \* Offered for the first time, Student Workbooks for Books I and II that include self-correcting exercises, cumulative vocabulary lists, periodic grammatical reviews, and additional readings

## **Mate For A Centaur**

For many years, Homeric Greek has been a standard textbook for first-year Greek courses in college and preparatory schools. This fourth edition addresses the needs of today's teachers and students, while retaining those elements of the original book responsible for its longevity.

## **Teacher's Handbook for Athenaze**

Thoroughly revised and expanded, Introduction to Attic Greek, 2nd Edition gives student and instructors the most comprehensive and accessible presentation of ancient Greek available. The text features:

- Full exposure to the grammar and morphology that students will encounter in actual texts
- Self-contained instructional chapters, with challenging, carefully tailored exercises
- Progressively more complex chapters to build the student's knowledge of declensions, tenses, and constructions by alternating emphasis on morphology and syntax
- Readings based on actual texts and include unadapted passages from Xenophon, Lysias, Plato, Aristophanes, and Thucydides.
- Concise introduction to the history of the Greek language
- Composite list of verbs with principal parts, and an appendix of all paradigms
- Greek-English and English-Greek glossaries

Additional Resources:

- Robust online supplements for teaching and learning available at

atticgreek.org • Answer Key to exercises also available from UC Press (978-0-520-27574-4)

## **The Oxford Latin Course**

Learn to Read Greek is a text and workbook for students beginning the study of Ancient Greek. It is the companion volume to the authors' Learn to Read Latin, published in 2004. Like its Latin predecessor, it has a grammar-based approach and is intended for students who have a serious interest in learning the language. The text and workbook include carefully chosen vocabularies and extensive vocabulary notes; clear and complete presentations of all necessary morphology and syntax; large numbers of drills and drill sentences; and abundant unabridged sample passages from a variety of Greek authors and texts.

## **Hadrian**

Used along side any Latin course, the Oxford Latin Reader will give students access to, and confidence with, a broad range of unadapted Latin texts. Helps make the transition from adapted Latin to unadapted texts Extracts are of a manageable length and a glossary of difficult vocabulary and usages aid students to approach the texts with confidence A historical timeline matches major events with the featured authors' lives The Teacher's Book provides full translations to save time as well as suggested questions and additional background information

## **Oxford Latin Reader**

## **On the Margin**

First published in 1978, Reading Greek has become a best-selling one-year introductory course in ancient Greek for students and adults. It combines the best of modern and traditional language-learning techniques and is used widely in schools, summer schools and universities across the world. It has also been translated into several foreign languages. This volume provides full grammatical support together with numerous exercises at different levels. For the second edition the presentations of grammar have been substantially revised to meet the needs of today's students and the volume has been completely redesigned, with the use of colour. Greek-English and English-Greek vocabularies are provided, as well as a substantial reference grammar and language surveys. The accompanying Text and Vocabulary volume contains a narrative adapted entirely from ancient authors in order to encourage students rapidly to develop their reading skills, simultaneously receiving a good introduction to Greek culture.

## **The Elements of Style**

Introduction to Greek, Second Edition is an introductory text to Classical Greek. It is designed for the first full year course and it concentrates on the basics in a way that allows the material to be covered easily in courses that meet three times a week over the course of two semesters. The focus of the text is on grammar with slightly altered readings drawn chiefly from the works of Xenophon and Herodotus.

## **Federalism in Greek Antiquity**

Helps post-beginner-level students to read substantial extracts from the New Testament in Greek.

## **A Greek Grammar**

Since its publication in 1990, Athenaze: An Introduction to Ancient Greek has helped tens of thousands of students learn classical Greek. Building on the bestselling tradition of previous editions, the long-awaited third edition combines the best features of traditional and modern teaching methods. It provides a unique course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading complete classical texts. James Morwood, editor of the Oxford Grammar of Classical Greek and the Pocket Oxford Classical Greek Dictionary, brings his expertise and years of teaching experience to this revision. Carefully designed to hold students' interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' Acharnians. Essays on relevant aspects of ancient Greek culture and history are also woven throughout.

## **Learn to Read Latin**

Designed to accompany the corresponding student's textbook, this volume contains the full English translations of all exercises. The Athenaze course aims to promote the fluent reading of ancient Greek through a series of exercises, grammatical explanations and essays on culture and history.

## **From Alpha to Omega**

In mythology, the centaurs are portrayed as lustful, drunken, brawlers, nothing more than a beast for the hero to slay, but every villain is the hero of his own story. Nais, Princess of Boiotia, never expected anything less than an arranged marriage. There were plenty of suitors to choose from. Her father, King Nycteus, a pious man as well as loving father, sought the wisdom of the gods in the matter of his daughter's betrothal. The Delphic Oracle instructed the king to award Nais' hand to the winner of the Olympic Games. It seemed as if the gods themselves would claim the Princess as rumors spread that Nais would wed the son of Zeus, for who could defeat Heracles in competition at his father's own festival? Nais' future appeared favorably certain until a herd of centaurs arrived in Olympia to compete for the Princess.

## **Athenaze**

The world of ancient Greece witnessed some of the most sophisticated and varied experiments with federalism in the pre-modern era. In the volatile interstate environment of Greece, federalism was a creative response to the challenge of establishing regional unity, while at the same time preserving a degree of local autonomy. To reconcile the forces of integration and independence, Greek federal states introduced, for example, the notion of proportional representation, the stratification of legal practice, and a federal grammar of festivals and cults. Federalism in Greek Antiquity provides the first comprehensive reassessment of the topic. It comprises detailed contributions on all federal states in Aegean Greece and its periphery. With every chapter written by a leading expert in the field, the book also incorporates thematic sections that place the topic in a broader historical and social-scientific context.

## **Introduction to Greek**

Provides exercises covering all the grammar sections in the textbook and all the vocabulary lists at the beginnings of the chapters in the textbook.

## **New Testament Greek**

This textbook was conceived and written under the authors' conviction that the feature of Greek grammar that lends itself most readily to understanding and discussion is syntax, especially the syntax of the verb and that such understanding has been unnecessarily complicated by the traditional use of a terminology derived more from the study of the Latin verb than the Greek. The principal feature of the Greek verb is no longer presented as that of "tense," a term that conflates and confuses questions of the time of an action relative to the act of speaking with ways of representing an action in itself. Rather, emphasis is placed on the latter feature, the aspect of a verb, both as a means of organizing the many forms that the verb can take and as a means of making comparatively simple sense of the multiplicity of syntactical rules that govern

its use. Volume One features twenty Lessons presenting basic Greek Grammar in a manner facilitating the early introduction of substantial and philosophically rich passages from Heraclitus Aeschylus, Xenophon, Aristotle, Euclid and especially Plato, each containing vocabulary, discussion and exercises to aid in retention and reinforcement. Volume Two contains extended readings, with grammatical and vocabulary notes, from Plato and Aristotle, including the complete dialogue Meno, as well as Appendices and comprehensive Vocabulary lists. The two most distinctive Lessons in the text occur close to the beginning. Lesson Four presents the six features that determine any Greek verb—aspect (progressive, aorist or simple, perfect), “tense” (past, present, future), mood, voice, person, number)—through a discussion that is carried out mostly in English. At the end of the lesson, students are in possession of all the conceptual elements upon which the syntax of the Greek verb is based. Lesson Five presents the Progressive System of the regular verb in all of its moods and voices. The burden of paradigms on the memory is lightened by means of an emphasis on analysis into a verb’s formative elements and through the use of linguistic rules that show how seemingly diverse forms arise from common origins. This early presentation of the non-indicative moods allows the student to appreciate the verb as a conveyer, not only of facts, but of the speaker’s doubts, wishes, speculations and feelings as well.
