adulthood is staggering. To see effective change, parents cannot leave their child's faith to chance. Rather, families must start nurturing faith early—you cannot start once your child is grown, you must start at home. Strengthening family and home life is the best way to encourage your children to maintain a lifelong faith. It Starts at Home upholds marriage and family as the proving ground for lasting success. Experienced pastors Kurt Bruner and Steve Stroope provide a clear purpose, an effective strategy, and a simple plan for anyone who wants to be intentional in their homes. Their insights will help leaders recalibrate their priorities by asking them to evaluate their leadership where it counts most. This newly revised edition evaluates the current trends families and young adults face that can contribute to this crisis. Don't let your child's faith fade to memory—learn how you can create a home that will prepare them for lifelong faith.

This book offers a comprehensive account of modern Spanish culture, tracing its dramatic and often unexpected development from its beginnings after the Revolution of 1868 to the present day. Specially-commissioned essays by leading experts provide analyses of the historical and political background of modern Spain, the culture of the major autonomous regions (notably Castile, Catalonia, and the Basque Country), and the country's literature: narrative, poetry, theatre and the essay. Spain's recent development is divided into three main phases: from 1868 to the outbreak of the Spanish Civil War; the period of the dictatorship of Francisco Franco; and the post-Franco arrival of democracy. The concept of 'Spanish culture' is investigated, and there are studies of Spanish painting and sculpture, architecture, cinema, dance, music, and the modern media. A chronology and guides to further reading are provided, making the volume an invaluable introduction to the politics, literature and culture of modern Spain.

## **The Adventures of Leucippe and Clitophon - Delphi Complete Works of Achilles Tatius (Illustrated)**

Sometimes evil has a familiar face . . . Paul Artisan, P.I. is a new version of an old breed -- a righter of wrongs, someone driven to get to the bottom of things. Too bad his usual cases are of the boring malpractice and fraud variety. Until now. His new gig turns on the disappearance of one of a pair of twins, adult scions of a rich but tragedy-prone family. The missing twin -- a charismatic poster-boy for irresponsibility -- has spent his life daring people to

hate him, punishing himself endlessly for his screw-ups and misdeeds. The other twin -- Artisan's client -- is dutiful and resentful in equal measure, bewildered that his "other half" could have turned out so badly, and wracked by guilt at his inability to reform him. He has a more practical reason, as well, for wanting his brother found: their crazy father, in failing health and with guilty secrets of his own, will not divide the family fortune until both siblings are accounted for. But it isn't just a fortune that's at stake here. Truth itself is up for grabs, as the detective's discoveries seem to challenge everything we think we know about identity, and human nature, and family. As Artisan journeys across the globe to track down the bad twin, he seems to have moved into a mirror-world where friends and enemies have a way of looking very much alike. The P.I. may have his long-awaited chance to put his courage and ideals to the test, but if he doesn't get to the bottom of this case soon, it could very well cost him his life. Troup's long-awaited *Bad Twin* is a suspenseful novel that touches on many powerful themes, including the consequence of vengeance, the power of redemption, and where to turn when all seems lost. *Bad Twin* is a work of fiction and all names, characters and incidents are used fictitiously; the author himself is a fictional character.

ophthalmology have been refined or newly developed during the past four years, a new edition reflecting these changes is most timely. The scope and aim of the book will be consistent with the first edition, which provides a broad review of the specialist ophthalmology examinations for final year ophthalmology residents and trainees. The book deals primarily with key facts and topics that are important from the examination perspective. Only information and facts that are considered relevant and critical to the exams are covered, with topics that may be of scientific interest, but are not commonly tested in exams, specifically left out. Time-challenged readers will also benefit from the knowledge acquired from various other sources or textbooks that are now organized and synthesized in this book. While not meant to replace the standard textbooks, enough information is contained within the book to serve as the main revision text nearer the exams. The style and format of this book is intentionally didactic, with questions and short answers. The answer includes a "model opening statement," followed first by a classification system to aid organization of facts, and then the core explanation in concise short notes. "Exam Tips" are inserted to provide an insight into techniques of answering different types of questions and when appropriate, a "Clinical Approach" section is also included. In the new edition, topics such as new understanding of disease mechanisms (e.g., genetics of eye diseases), new investigations (e.g., OCT), and novel procedures and treatment (e.g., the use of antivascular endothelial growth factors, new refractive surgical techniques) are covered. This book will be a valuable guide to the final year

Although primarily aimed at candidates attempting the British postgraduate exams (FRCS, FRANZCO, MRCS, MRCOphth and FRCOphth), it is also useful for other examination systems (e.g., the American Boards). This volume of essays contains contributions from a very wide range of British, American and Spanish scholars. Its primary concern is the relationships between the various ethnic, cultural, regional and religious communities that co-existed in the Iberian peninsula in the later Middle Ages. Conflicts and mutual interactions between them are here explored in a range of both historical and literary studies, to expose something of the rich diversity of the cultural life of later medieval Spain.

### **Joost Van Den Vondel (1587-1679)**

#### **It Starts at Home**

This critical edition provides unique access to a work which has challenged scholars and students alike. The book is the first to deal fully with the poem as literature and to supply the runic background necessary for an understanding of the raw materials with which the poet was working. The introduction offers a thorough discussion of the origin, development, and uses of runes before proceeding to the close examination of text, language, literary sources, style, and themes of the poem. Following the text and translation of the poem proper, detailed explanatory notes pay particular attention to the background of each individual rune and rune name, and the appendixes provide analogous material to assist in setting the poet's achievement into the runic context. Since many of the sources necessary for an accurate assessment of the Old English Rune Poem are written in foreign or dead languages, modern English translations have been provided throughout to ensure that the poem will be accessible to students as well as to professional medievalists. Agnes and Honey have always been best friends, but they haven't always been so different. Agnes loves being a Believer. She knows the rules at the Mount Blessing religious commune are there to make her a better person. Honey hates Mount Blessing and the control Emmanuel, their leader, has over her life. The only bright spot is the butterfly garden she's helping to build, and the journal of butterflies that she keeps. When Agnes's grandmother makes an unexpected visit to the commune, she discovers a violent secret that the Believers are desperate to keep quiet. And when Agnes's little brother is seriously injured and Emmanuel refuses to send him to a hospital, Nana Pete takes the three children and escapes the commune. Their journey begins an exploration of faith, friendship, religion and family for the two girls, as Agnes clings to her familiar faith while Honey desperately wants a new future.

Chaereas and Callirhoe . . . is the earliest Greek romantic novel the text of which has been completely preserved; hence it is among the first ancestors of modern European fiction. In this lively tale of adventure, a nobly born heroine is kidnapped across the seas from Syracuse to Asia Minor, where her beauty causes many complications and she is finally rescued by her dashing lover. This book in antiquity took the place of such stories as Dumas and Sabatini have written for later generations.

THIS EDITION HAS BEEN REPLACED BY A NEWER EDITION From about 1880 to World War I, sweeping changes in technology and culture created new modes of understanding and experiencing time and space. Stephen Kern writes about the onrush of

technics that reshaped life concretely--telephone, electric lighting, steamship, skyscraper, bicycle, cinema, plane, x-ray, machine gun--and the cultural innovations that shattered older forms of art and thought--the stream-of-consciousness novel, psychoanalysis, Cubism, simultaneous poetry, relativity, and the introduction of world standard time. Kern interprets this generation's revolutionized sense of past, present, and future, and of form, distance, and direction. This overview includes such figures as Proust, Joyce, Mann, Wells, Gertrude Stein, Strindberg, Freud, Husserl, Apollinaire, Conrad, Picasso, and Einstein, as well as diverse sources of popular culture drawn from journals, newspapers, and magazines. It also treats new developments in personal and social relations including scientific management, assembly lines, urbanism, imperialism, and trench warfare. While exploring transformed spatial-temporal dimensions, the book focuses on the way new sensibilities subverted traditional values. Kern identifies a broad leveling of cultural hierarchies such as the Cubist breakdown of the conventional distinction between the prominent subject and the framing background, and he argues that these levelings parallel the challenge to aristocratic society, the rise of democracy, and the death of God. This entire reworking of time and space is shown finally to have influenced the conduct of diplomacy during the crisis of July 1914 and to have structured the Cubist war that followed.
