Order directly from [www.rxpharmacist.com](http://www.rxpharmacist.com) for the cheapest deal! You asked. We delivered. This review guide was thoughtfully created by recent pharmacy graduates for recent, soon to be pharmacy graduates or even the seasoned pharmacist wanting to get licensed in the state of CA. Based off previous customer feedback, we spent months created this guide with no detail left unchecked. It is meant to be an extensive yet simple guide to pass your board exams easily. This study guide will save you from weeks of frustration and help focus on key points to study for the CPJE exam. One of the most updated guides out there, we also include over 140 CPJE practice questions that highly mimics the actual CPJE so you can test your knowledge. Want more guides or need more help? Visit us at [www.rxpharmacist.com](http://www.rxpharmacist.com).

## **CEH v9**

After years of studying and hard work, you're almost a licensed pharmacist! The final step is passing the North American Pharmacy Licensure Examination, or the NAPLEX®. For the last decade, PharmPrep: ASHP's NAPLEX® Review, has been a trusted resource with new graduates preparing for the NAPLEX examination, both as an online product and a print companion. Using real patient cases accompanied by questions that address all NAPLEX® competency statements, the new fully updated PharmPrep: ASHP's NAPLEX® Review, 4th edition, gives you the flexibility to review information by specific disease state and provides 78 sample cases, as well as calculations and law review sections. As drug therapy becomes more complex, PharmPrep has continued to update and revise cases so they reflect contemporary clinical practice. PharmPrep is an equally important reference for the experienced practitioner as a tool for pharmacists to continue to develop professionally, or for out of practice professionals looking to refresh their skills.

Only PharmPrep has case-based questions and detailed explanations that don't just tell you what answers are right or wrong, but why. It is the the most affordable, trusted resource available to prepare for the NAPLEX® exam. As a book or in a convenient online/book package, PharmPrep goes where you go—on the subway, in the break room, to the coffeehouse. Or, just cozy up to the PharmPrep book from the comforts of home. Wherever you go, its the best resource to get you passed and ready to practice. To learn more about PharmPrep Online, visit [www.pharmpreponline.com](http://www.pharmpreponline.com) and sign up for a free trial today. Don't have an ASHP account? Simply register at [www.ashp.org](http://www.ashp.org).

### **RxPrep's 2017 Course Book for the NAPLEX and Clinical Content for the CPJE**

Updates for 2019! We've updated and added some content in the following disease states: Acid/Base Disorders, Bipolar Disorder, Breast Cancer, CHF, Chronic Kidney Disease, Clostridium Difficile, Crohn's, DVT/PE, Depression, Diabetes, Gout, Migraines, Hyperlipidemia, Hypertension, PUD, Meningitis, Osteoporosis, Parkinson's, PAD, Rheumatoid Arthritis, Sepsis, Sexual Dysfunction, Shingles, STD's, Vaccines. If you talk to anyone who's taken the BCPS exam, you'll quickly understand that the BCPS exam will likely be the most challenging exam you'll ever take. You need all the resources you can get to make sure you are prepared! In addition to the exam being very difficult, you are likely a busy professional with very minimal free time. I've always had a hard time staying focused while studying from large review article type study guides and have squandered hours reading while retaining very little. This book is intended to be a crash course/cheat sheet overview of the most highly testable material. I wanted to remember the really important stuff, because I know it is impossible to know every minute detail. BCPS Bullets, the Condensed BCPS Study Guide will help prepare you for the exam as well as help you maximize your study time. We covered over 100+ disease states straight from the BCPS content outline provided by BPS, and included important pearls for each condition including assessments, risk factors, most commonly used drugs of choice, must know adverse effects, miscellaneous clinical pearls, notorious drug interactions, warnings and precautions, and of course, relevant labs. I wanted to cover each disease state in 1-2 pages to try to ensure you are reviewing the most relevant content. We did go over 2 pages on some disease states, but we did our best to keep the information concise and critical for you to know in your preparation to becoming a Board Certified Pharmacotherapy Specialist. The book is over 300+ pages, but it is in bullet point format and very easy to digest multiple disease states at a sitting. There is also some white around the margins to take additional notes or highlight essential information to remember. As many of you are aware from the content outline, the BCPS exam is not all clinical. In addition to the disease states on the BCPS content outline, we've also included sections on biostatistics as well as important regulatory issues. I can assure you that there is no doubt this book will help in your preparation to becoming a BCPS pharmacist! The Board Certified Pharmacotherapy Specialist (BCPS) is a designation from the Board of Pharmacy Specialties. The contents within this study guide are not affiliated or endorsed by the Board of Pharmacy Specialties.

## **CISSP Cert Guide**

The ultimate preparation guide for the unique CEH exam. The CEH v10: Certified Ethical Hacker Version 10 Study Guide is your ideal companion for CEH v10 exam preparation. This comprehensive, in-depth review of CEH certification requirements is designed to help you internalize critical information using concise, to-the-point explanations and an easy-to-follow approach to the material. Covering all sections of the exam, the discussion highlights essential topics like intrusion detection, DDoS attacks, buffer overflows, and malware creation in detail, and puts the concepts into the context of real-world scenarios. Each chapter is mapped to the corresponding exam objective for easy reference, and the Exam Essentials feature helps you identify areas in need of further study. You also get access to online study tools including chapter review questions, full-length practice exams, hundreds of electronic flashcards, and a glossary of key terms to help you ensure full mastery of the exam material. The Certified Ethical Hacker is one-of-a-kind in the cybersecurity sphere, allowing you to delve into the mind of a hacker for a unique perspective into penetration testing. This guide is your ideal exam preparation resource, with specific coverage of all CEH objectives and plenty of practice material. Review all CEH v10 topics systematically Reinforce critical skills with hands-on exercises Learn how concepts apply in real-world scenarios Identify key proficiencies prior to the exam The CEH certification puts you in professional demand, and satisfies the Department of Defense's 8570 Directive for all Information Assurance government positions. Not only is it a highly-regarded credential, but it's also an expensive exam—making the stakes even higher on exam day. The CEH v10: Certified Ethical Hacker Version 10 Study Guide gives you the intense preparation you need to pass with flying colors.

## **NAPLEX Nuggets**

Order from rxpharmacist.com for the cheapest deal! You asked. We delivered. This review guide was thoughtfully created by seasoned pharmacists who have recently taken and passed the OR MPJE exam to assist soon to be pharmacy graduates or even the seasoned pharmacist wanting to get licensed in the state of Oregon. Based off previous customer feedback, we spent months created this guide with no detail left unchecked. It is meant to be an extensive yet simple guide to pass your board exams. This study guide will save you from weeks of frustration and help focus on key points to study for the OR MPJE exam. One of the most updated guides out there, we also include a mock 120-question OR state practice exam that highly mimics the actual OR MPJE so you can test your knowledge. In addition, we also include a 120-question federal practice exam. That's over 240 practice questions! Want more guides or need more help? Visit us at [www.rxpharmacist.com](http://www.rxpharmacist.com).

## **MPJE Master: Federal Pharmacy Law Review**

## **Updates in Therapeutics 2017**

Simply put, this BCGP review from Meded101 will help you pass your exam and

become a Board Certified Geriatric Pharmacist. I've worked my entire career in geriatrics and wanted to share some of that clinical knowledge with you as well as provide you an incredibly valuable study guide. Studying for a pharmacist board certification exam can be overwhelming. It's likely been a few years since you've taken an exam and the last thing you want to do is fail! The next to last thing you want to do is to try to find 3-6 months to study for the exam. As a father with two small children, I realize how valuable time is. What was frustrating to me about preparing for the Board Certified Geriatric Pharmacist (BCGP) exam, formerly the Certified Geriatric Pharmacist (CGP) exam as well as the BCPS exam was that the study material was not to the point. I felt like I needed to read thousands of pages to be adequately prepared. Recognizing that challenge of time management as a busy professional, I wanted to create the ultimate review for the BCGP exam that won't take you months to get through. I wanted to give you the most important bullet points you need to know to best prepare for the exam. I utilized the BCGP outline to create this study guide. It breaks down nearly 80 of the most important geriatric disease states. In this breakdown I include information about the signs and symptoms, complications, risk factors, and of course the main drugs of therapy for each disease. I also break down the most important clinical pearls from the drugs of choice for each disease state. Within the medications to know breakdown for each disease state, you will find clinical pearls, important adverse effects, drug-disease and drug-drug interaction information, and essential compelling indications. While this review specifically follows the content outline for the BCGP (CGP) exam, pharmacists seeking Board Certification in Pharmacotherapy (BCPS) or those seeking Board Certification in Ambulatory Care (BCACP) may also benefit from the clinical information within this study guide. The Board Certified Geriatric Pharmacist, Board Certified Pharmacotherapy Specialist, and Board Certified Ambulatory Care Pharmacist are designations from the Board of Pharmacy Specialties (BPS). The contents contained within this study guide are not affiliated or endorsed by BPS.

## **2020-2021 Psychiatric Pharmacotherapy Review**

Numerous updates for 2020 to keep up to date with guideline changes! Atrial fibrillation, Crohn's disease, Hyperlipidemia, Ulcerative colitis, and more! Passing the NAPLEX is your door of entry into the profession of pharmacy. You need a key to get through that door. NAPLEX Nuggets - The Cliffnotes study guide is that key. Imagine that you have the best notes from your entire pharmacy school career in one spot. This is what we envisioned when this book was created. I remember what it was like to study for the NAPLEX. Overwhelming doesn't begin to describe the feeling. Where do you start? How do you prioritize and review for this gigantic exam? When I am preparing to take pharmacy exams, I have a very difficult time learning and retaining information from "wordy" review books. I find myself reading for 5-10 minutes and my mind begins to wander, retaining nothing of what I just read. After years of practice and test-taking (NAPLEX, BCPS, BCGP), I have found that I learn most efficiently by memorizing information in short important bullet points. If this is how you learn, this book was designed for you. I also have a hard time learning concepts like math and statistics from a book, so as a special BONUS, you will get access to approximately 2 FREE hours of math, statistics, and kinetics preparation. This is part of our 20+ hour NAPLEX All Access Course at Meded101.com. Reviews from our previous book NAPLEX Nuggets - Highly Testable

Medications: "This is a fantastic gem! Quick, easy to understand nuggets for each class of medication. It's a great review and well written to help me remember. Thanks!" "The greatest book ever. I've been looking for something short sweet and to the point about all drugs for a while now and this is exactly what I wanted. I love that each page is split up by class of drugs also. "Great book. This really saved my pharmacy career. I would recommend this book to anyone who is struggling in pharmacy school." "We wanted to create a more complete NAPLEX Nuggets version - The Cliffnotes is that version. In this study guide, we have covered over 120+ of the most highly testable disease states. In addition, we've also covered important topics like kinetics, dynamics, statistics, compounding, and pharmacy math. I have created bullet points (or nuggets) which will help you review more efficiently and not waste your limited study time. I truly hope this book helps ease your fears of failure and pass the NAPLEX the first time! I look forward to welcoming you to the profession of pharmacy! Eric Christianson, PharmD, BCPS, BCGPNAPLEX is a registered trademark of NABP. Meded101 and this study guide are not affiliated or endorsed by NABP or the NAPLEX Exam.

### **Oregon Pharmacy Law: an MPJE Study Guide**

To gain pharmacy licensure in Texas, candidates must pass two exams: a clinical exam (NAPLEX(r)) and a pharmacy law exam called the Multistate Jurisprudence Examination (MPJE(r)). While most students are compelled to focus efforts on studying for the clinical exam, the difficulty and complexity of the MPJE should not be underestimated. This test covers federal and state law and requires knowledge of specific details. Use this book to make the most of the time you have to study and score high on the Texas MPJE(r). This is one of the most important tests of your career-make sure you are prepared! A clear concise study guide, this book provides a thorough review of both state and federal pharmacy law. Compiled by an actively practicing pharmacist who has successfully passed four MPJE(r) law exams, this study guide is packed with current, essential information you will need to pass the exam. Features include-outlined strategy on how to study for the test-specific areas to concentrate on-review of selected federal and state laws-review of selected Texas State Board of Pharmacy rules-over 260 practice questions and answers

### **Goodnight Pharm: 350 Brand and Generic Drug Names with Classifications**

### **ASP Study Guide 2019-2020**

Since its original publication, Competence Assessment Tools for Health-System Pharmacies has continued to meet the changing needs of pharmacy directors and their staff. Designed as a complete human resource competence assessment program, this benchmark resource ensures pharmacies comply with the competence assessment standards of The Joint Commission®. Newly updated and revised, Competence Assessment provides practical tools to assess and document an employee's ability to perform assigned duties and meet Joint Commission

human resource requirements. Save time and increase efficiency with this essential tool that supplements and reinforces staff knowledge in key competency areas. New to the Fourth Edition: Enhanced CD-ROM allows you to easily adapt many of the forms for your own practice including the job descriptions and orientation record. • Updated resources for customizing job descriptions, including job description, competence assessment summary, and performance evaluation templates for a Pharmacy Purchasing Technician. • Inclusion of a study guide for the emergency management chapter. • New chapters on intravenous to oral therapy conversion and antibiotic streamlining. • Expanded information in the hazardous materials chapter including the requirements of the Resource Conservation and Recovery Act (RCRA) and practice recommendations from the National Institute for Occupational Safety and Health (NIOSH) and ASHP. • Updated controlled substances chapter including information about the Combat Methamphetamine Epidemic Act. • New test questions in many chapters including use of a patient case report format for tests in the clinically-oriented chapters.

### **Critical Care Study Guide**

Cancer Pharmacology and Pharmacotherapy Review is the first book devoted entirely to providing the 'must-know' facts on each cancer agent—including their pharmacokinetics, FDA-approved indications, toxicity, interactions, and other important information that is commonly found on board examinations and essential for any clinician or practitioner to review. The authors, an oncologist and two pharmacists, have developed a handy question-and-answer format to present the material in digestible bursts. As the pharmacology section continues to represent a major portion of the medical oncology exam and a key component on oncology MOC exams, this portable study guide will help prepare anyone looking to fine-tune their knowledge on cancer drugs before the test. Not to mention, with recent advancements in the field of cancer treatment, it has become more cumbersome to recall and maintain essential knowledge of every cancer therapeutic—making this book not only an exam resource but also a handy quick reference for oncologists and pharmacists alike. KEY FEATURES Conveniently organized and arranged by drug class and subtypes for easier recall and classification Includes proper dosage adjustments to account for liver and kidney dysfunction Features tables throughout that provide quick reference regarding FDA-approved medications Simplified diagrams and illustrations facilitate the pharmacokinetic processes

### **Manual for Pharmacy Technicians**

You can pass the Florida MPJE(r)! To gain pharmacy licensure in Florida, candidates must pass two exams: a clinical exam (NAPLEX(r)) and a pharmacy law exam called the Multistate Jurisprudence Examination (MPJE(r)). While most students are compelled to focus efforts on studying for the clinical exam, the difficulty and complexity of the MPJE should not be underestimated. This test covers federal and state law and requires knowledge of specific details. Use this book to make the most of the time you have to study and score high on the Florida MPJE(r). This is one of the most important tests of your career-make sure you are prepared! A clear concise study guide, this book provides a thorough review of both state and federal pharmacy law. Compiled by an actively practicing pharmacist who has

successfully passed four MPJE(r) law exams, this study guide is packed with current, essential information you will need to pass the exam. Features include -outlined strategy on how to study for the test -specific areas to concentrate on -review of selected federal and state laws -review of selected Florida State Board of Pharmacy rules - review of common questions and 35 practice questions and answers

### **Cancer Pharmacology and Pharmacotherapy Review**

Clinical pharmacology is often one of the most challenging topics for healthcare professionals. This is a compilation of my favorite case scenarios, drug interactions and clinical pearls from my practice as a clinical pharmacist. This book is a perfect piece of education for pharmacists, nurse practitioners, physicians, physician assistants, and nurses who are looking to pick up clinical practice pearls about medication management. It is ideal for the new professional or student trying to gain more confidence when it comes to medication management.

### **Memorizing Pharmacology Mnemonics: Pharmacology Flashcards and Fill-ins for the Future Nurse, Doctor, Physician Assistant, and Pharmacist**

Updates for 2020! We've made edits and updates to the following sections: Asthma, Atrial Fibrillation, Beers Criteria, Chronic Kidney Disease, Crohn's, COPD, Diabetes, Migraines, Hyperlipidemia, Parkinson's, Sexual Dysfunction, Ulcerative Colitis, and Vaccines. In addition, we've created a section on the rapidly growing topic of Pharmacogenomics. If you are a pharmacist seeking to become board certified in geriatrics by passing the exam, this is a must-have study guide. We've edited our VERY popular BCPS Bullets book and created a review for the geriatric pharmacy exam based on the Board of Pharmaceutical Specialties content outline. With recent PASS rates around 40%, you have to have the right tools to pass this exam and this book will help immensely. In addition to the exam being very difficult, you are likely a busy professional with very minimal free time. I've always had a hard time staying focused while studying from large review article type study guides and have squandered hours reading while retaining very little. This book is intended to be a crash course/cheat sheet overview of the most highly testable material. I wanted to remember the really important stuff because I know it is impossible to know every minute detail. BCGP Bullets, the Condensed BCGP Study Guide will help prepare you for the exam as well as help you maximize your study time. We have covered over 100+ disease states with critical clinical pearls, like drugs of choice, drug interactions, disease state education, and geriatric-specific nuggets for certain medications. Biostatistics basics, important geriatric terminology, social, financial, and emotional considerations are also included in this book. Items like elder abuse, advanced directives, and power of attorney show up in the content outline and we have also outlined the basics of this terminology. I can assure you that there is no doubt this book will help in your preparation for becoming a BCGP certified pharmacist! The Board Certified Geriatric Pharmacist (BCGP) is a designation from the Board of Pharmacy Specialties. The contents within this study guide are not affiliated or endorsed by the Board of Pharmacy Specialties.

## **Canadian Pharmacy Exams - Pharmacist Evaluating Exam Practice, Volume 1**

### **Pharmacy Master - The Ultimate Board Certified Geriatric Pharmacist Study Guide**

The Admission Test Series prepares students for entrance examinations into college, graduate and professional school as well as candidates for professional certification and licensure. The Certified Geriatric Pharmacist (CGP) Passbook(R) prepares you by sharpening the skills and abilities necessary to succeed on your upcoming entrance exam. It provides a series of informational texts as well as hundreds of questions and answers in the areas that will likely be covered on your upcoming exam.

### **NAPLEX Practice Question Workbook**

I remember what it was like to study for the NAPLEX. Overwhelming doesn't begin to describe the feeling. Where do you start? How do you prioritize and review for this gigantic exam? When I am preparing to take pharmacy exams, I have a very difficult time learning and retaining information from massive review books. I find myself reading for 5-10 minutes and my mind begins to wander, retaining nothing of what I just read. After years of practice and test taking (NAPLEX, BCPS, CGP etc.), I have found that I learn most efficiently by memorizing information in short important bullet points. In this study guide, I have selected the most commonly used medication classes and have provided you with my most highly testable pearls on each class. In this book, I cover over 150 medication classes which includes nearly 400 medications! I have created bullet points which will help you review more efficiently and not waste your limited study time. This resource is not intended to be a package insert for every medication, but rather a way to try to prioritize your study process and understand the major "nuggets" of information that you must know to help you pass the NAPLEX. The intent is to give you a brief, incredibly helpful review of the most important medications you will likely be tested on the NAPLEX exam. I truly hope this book helps you pass the NAPLEX the first time! NAPLEX is a registered trademark of NABP. Meded101 and this study guide are not affiliated or endorsed by NABP or the NAPLEX Exam.

### **Updates in Therapeutics 2015**

### **Ahfs Drug Information 2020**

This is a must-have, quick review of federal pharmacy law, regulations, and agencies. This is perfect for anyone taking a state MPJE exam. If you are like most pharmacists or pharmacy students, you enjoy taking care of patients, identifying drug therapy problems, and making a difference by using your expert knowledge about medications. Unfortunately, having a basic understanding of laws, regulations, and regulatory agencies that impact the profession is a necessary evil. If you cannot pass the state law exam (MPJE), you can't work as a pharmacist and

do all the really cool things that you've wanted to do (including pay off your student loans). MPJE Master: Federal Pharmacy Law Review was intended to simplify the process of learning pharmacy law. We've outlined critical components of federal pharmacy law that you will need to know to pass your MPJE exam. I was always the student in school that needed to highlight the most important information to remember and then I would memorize that information. Recalling information from a large textbook was always difficult for me. Rather than reading a textbook, we've supplied the information in easily digestible, bite-sized pieces. We've used bullet points to help you be able to quickly memorize important facts about each agency, regulation, law, etc. We've also created a super-helpful list of questions within the book to help you identify areas of pharmacy practice where state laws can often vary. This table is a list of questions that you can fill in as you read your respective states' laws and regulations. We've added this to ensure that you don't overlook the important differences in pharmacy laws across the United States. Whether you are a new graduate who needs to pass your law exam to begin your practice or a 20-year veteran who is moving to a new state, this review will absolutely help prepare you to pass your MPJE law exam and help you obtain your pharmacy license.

### **NAPLEX Prep 2021-2022**

Lippincott Illustrated Reviews: Pharmacology, Sixth Edition, is the updated, enhanced version of the student-favorite resource for essentials of medical pharmacology. The first-and-best resource, the Lippincott Illustrated Reviews series features clear, effective writing and hundreds of illustrations for ideal rapid review and the assimilation of complex information. Clear, sequential images present mechanisms of action and focus on showing rather than telling students how drugs work. New edition features: All NEW chapters on Drugs of Abuse, Drugs for Obesity, Antihistamines, Drugs for Urologic Disorders, Drugs for Hematopoietic Disorders, Drugs for Dermatological Disorders, and Drugs for Bone Disorders Over 380 study questions! Nearly 600 annotated, full-color illustrations visually explain complex processes! Outline format ideal for concise review and foundational learning

### **Certified Geriatric Pharmacist**

I've had feedback from students that they just want me to read them drug names and mnemonics so they can put in their earbuds before they go to bed before their board exams. I've got three five year olds, I don't have time to do the heavy lifting you all do as narrators. In Memorizing Pharmacology: A Relaxed Approach, which will sell over 6,500 audiobook copies in its first year, I only had the narrator complete 200 drug names in a seven hour book. There is a list of 350 later in the book, but I thought, who in the world would want to listen to 350 drug names in a row? So I omitted it. There was an answer to that rhetorical question, health professional students studying for a board exam that are exhausted from family, work, and school want to listen to it. This print, book, however, provides a journal for you to continue to add knowledge you pick up as you complete your pharmacology class, clinicals, or even an interesting commercial or YouTube video.

## **Paediatric Drug Handling**

The NAPLEX Practice Question Workbook provides over 1,000 comprehensive practice questions to prepare for the demanding North American Pharmacist Licensure Examination (NAPLEX). Master exam topics with intensive practice in the areas you'll find on the test. All questions are test-level difficulty and focused solely on helping you pass. Whether you're challenging the exam for the first time or trying again after an unsuccessful attempt, you will learn the critical skills needed to master the exam. This innovative workbook includes:

- Full-length 250 question practice exam, including multiple-response, constructed-response, and ordered-response questions
- Over 100 pharmaceutical calculation questions including ratios and conversions, alligation, total parenteral nutrition, and measurements for accurate drug doses
- Over 100 sterile & non-sterile compounding questions
- Detailed solutions to all practice questions to help you pinpoint your strengths and weaknesses and identify areas in need of further study

Included are practice exams for the following topics:

- Cardiovascular Disorders
- Infectious Diseases
- Immunologic
- Hematologic & Oncologic Disorders
- Neurologic & Psychiatric Disorders
- Endocrine Disorders
- Gastrointestinal Disorders
- Respiratory Disorders
- Renal & Urologic Disorders
- Bone & Joint Disorders
- Ophthalmic, Otic & Dermatologic Disorders
- Women's Health
- Nutrition Support & Critical Care
- Over-the-Counter Medications & Dietary Supplements

## **CA Pharmacy Law**

The APhA Complete Review for Pharmacy fully revises the previous edition. This indispensable study guide contains the information most relevant to the NAPLEX summarized in abbreviated bullet format.

## **BCGP Bullets**

Whether you are interpreting the medical literature to optimize patient care, improve health outcomes, or generate hypothesis for research, an understanding of biostatistics is essential for success. Despite exposure to biostatistics in undergraduate and professional education, pharmacists tend to be less confident in their knowledge of biostatistics and their ability to interpret the medical literature than in their clinical skills. This book was developed to bolster the pharmacist's knowledge and confidence for using biostatistical tools for interpreting the literature. With material drawn from ACCP's renowned Pharmacotherapy Self-Assessment Program (PSAP) and the live pharmacotherapy preparatory course Updates in Therapeutics, editor Robert DiCenzo, Pharm.D., FCCP, BCPS, has designed this review to support pharmacists' preparation for the Pharmacotherapy and Ambulatory Care Board of Pharmacy Specialties (BPS) examinations.

Canadian Pharmacy Exams - Pharmacist Evaluating Exam Practice is designed as a self-study tool to help the student seeking pharmacy licensure in Canada test his/her exam readiness, identify areas of strength and weakness to optimize learning. The book is divided according to four key areas listed below and contains over 600 exam-type questions and answers developed to meet the Evaluating Exam learning objectives. The number of practice questions in each section reflects its relevance (weight) as per the Pharmacy Examining Board of Canada (PEBC(r)): 25% Biomedical Sciences, 35% Pharmaceutical Sciences, 30% Pharmacy Practice and 10% Behavioural, Social and Administrative Pharmacy Sciences. All Canadian content including pharmacy practice laws and regulations. Finally, answers are supplemented by numerous comments and explanations to ensure further understanding and learning of new concepts. Additionally, the book includes an extensive set of 14 medication tables that provide quick reference clinical information.

### **Clinical Pharmacist's Guide to Biostatistics and Literature Evaluation**

Critical care medicine is a dynamic and exciting arena where complex pathophysiologic states require extensive knowledge and up-to-date clinical information. An extensive knowledge of basic pathophysiology, as well as awareness of the appropriate diagnostic tests and treatments that are used to optimize care in the critically ill is essential. Since our first edition 7 years ago, new information crucial to the care and understanding of the critically ill patient has rapidly accumulated. Because this knowledge base crosses many different disciplines, a comprehensive multidisciplinary approach presenting the information is essential, similar to the multidisciplinary approach that is used to care for the critically ill patient. We have strived to provide this content in an easily digestible format that uses a variety of teaching tools to facilitate understanding of the presented concepts and to enhance information retention. To meet the demand to provide comprehensive and diverse education in order to understand the pathogenesis and optimum care of a variety of critical illnesses, we have substantially revised the prior topics in the first edition with updated information. We have also markedly expanded the number of topics covered to include acute lung injury and the acute respiratory distress syndrome, an expanded discussion of the physiology and operation of mechanical ventilation, obstetrical care in the ICU,

neurosurgical emergencies, acute coronary syndromes, cardiac arrhythmias, role of whole body rehabilitation in the ICU, ethical conduct of human research in the ICU, and nursing care of the ICU patient.
