means revealing a secret that she vowed she'd die to keep? "Addictive. A thrilling ride you won't be able to put down until the very last page." Two of San Francisco's most powerful residents are murdered. Is their killer making a political statement? Or is it more personal? Homicide Inspector Hailey Wyatt is only just pulling her life back together after being recently widowed, when the case falls in her lap. The case has the media in a frenzy and the brass in a panic. The entire city is on high alert. The evidence makes it impossible to deny that Hailey's family is at the center of the case. Rumors in the department are that the assignment has nothing to do with her investigative ability and everything to do with her senator father-in-law. The police chief's message is clear. Solve the case. Quickly. Or else. The deeper they dig, the more questions arise, and the more troubling the case becomes. As the evidence points closer to home, Hailey's partner questions her dedication to the pursuit of justice. Because Hailey has secrets of her own. Secrets she's vowed to protect. Secrets she's willing to die for. Fans of Rachel Caine, Melinda Leigh, Karin Slaughter and James Patterson are going to love Danielle Girard. The Hemoglobins in Genetics and Evolution

From the prophetic author of the now-classic *What's the Matter with Kansas?* and *Listen, Liberal*, an eye-opening account of populism, the most important—and misunderstood—movement of our time. Rarely does a work of history contain startling implications for the present, but in *The People, No* Thomas Frank pulls off that explosive effect by showing us that everything we think we know about populism is wrong. Today “populism” is seen as a frightening thing, a term pundits use to describe the racist philosophy of Donald Trump and European extremists. But this is a mistake. The real story of populism is an account of enlightenment and liberation; it is the story of American democracy itself, of its ever-widening promise of a decent life for all. Taking us from the tumultuous 1890s, when the

File Type PDF Bissell Proheat Pet Carpet Cleaner Manual

radical left-wing Populist Party—the biggest mass movement in American history—fought Gilded Age plutocrats to the reformers' great triumphs under Franklin Roosevelt and Harry Truman, Frank reminds us how much we owe to the populist ethos. Frank also shows that elitist groups have reliably detested populism, lashing out at working-class concerns. The anti-populist vituperations by the Washington centrists of today are only the latest expression. Frank pummels the elites, revisits the movement's provocative politics, and declares true populism to be the language of promise and optimism. The People, No is a ringing affirmation of a movement that, Frank shows us, is not the problem of our times, but the solution for what ails us.

How to be a Victorian - travel back in time with the BBC's Ruth Goodman Step into the skin of your ancestors . . . We know what life was like for Victoria and Albert. But what was it like for a commoner like you or me? How did it feel to cook with coal and wash with tea leaves? Drink beer for breakfast and clean your teeth with cuttlefish? Dress in whalebone and feed opium to the baby? Catch the omnibus to work and do the laundry in your corset? Surviving everyday life came down to the gritty details, the small necessities and tricks of living . . . How To Be A Victorian by Ruth Goodman is a radical new approach to history; a journey back in time more intimate, personal and physical than anything before. It

is one told from the inside out - how our forebears interacted with the practicalities of their world - and it is a history of those things that make up the day-to-day reality of life, matters so small and seemingly mundane that people scarcely mention them in their diaries or letters. Moving through the rhythm of the day, from waking up to the sound of a knocker-upper man poking a stick at your window, to retiring for nocturnal activities, when the door finally closes on twenty four hours of life, this astonishing guide illuminates the overlapping worlds of health, sex, fashion, food, school, work and play. If you liked *A Time Traveller's Guide to Medieval England* or *1000 Years of Annoying the French*, you will love this book. Ruth Goodman is an independent scholar and historian, specialising in social and domestic history. She works with a wide range of museums and other academic institutions exploring the past of ordinary people and their activities. She has presented a number of BBC 2 television series, including *Victorian Farm*, *Edwardian Farm* and *Wartime Farm*. In each of these programs, she spent a year recreating life from a different period. As well as her involvement with the Farm series, Ruth makes frequent appearances on *The One Show* and *Coast*.

A literary classic from one of Canada's greatest storytellers, *A Mixture of Frailties* is the vivid and moving conclusion to the *Salterton Trilogy*. *A Mixture of Frailties* is Robertson Davies's first extended engagement with one of the great neuroses of Canadian culture: the former colony's artistic relationship with Europe, and particularly with Britain. Davies begins his story with the funeral of Louisa Bridgetower. The substantial income from her estate is to be used to send an unmarried young woman to Europe to pursue an education in the arts. Mrs. Bridgetower's executors end up selecting Monica Gall, an almost entirely unschooled singer whose sole experience comes from performing with the Heart and Hope Gospel Quartet, a rough outfit sponsored by a small fundamentalist group. Monica soon finds herself in England, a pupil of some of Britain's most remarkable teachers and composers, and she gradually blossoms from a Canadian rube into a cosmopolitan soprano with a unique--and tragicomic--career. *A Mixture of*

Frailties is so much more than the story of Monica Gall's life in London and her education as a singer. It is an account of her education as a human being. The result is a vivid, comic, and frequently moving novel.

The Wellness Mama 5-Step Lifestyle Detox

This book explores the legacy of the Latin American Social Medicine and Collective Health (LASM-CH) movements and other key approaches—including human rights activism and popular opposition to neoliberal governance—that have each distinguished the struggle for collective health in Latin America during the twentieth and now into the twenty-first century. At a time when global health has been pushed to adopt increasingly conservative agendas in the wake of global financial crisis and amidst the rise of radical-right populist politics, attention to the legacies of Latin America's epistemological innovations and social movement action are especially warranted. This collection addresses three crosscutting themes: First, how LASM-CH perspectives have taken root as an element of international cooperation and solidarity in the health arena in the region and beyond, into the twenty-first century. Second, how LASM-CH perspectives have been incorporated and restyled into major contemporary health system reforms in the region. Third, how

elements of the LASM-CH legacy mark contemporary health social movements in the region, alongside additional key influences on collective action for health at present. Working at the nexus of activism, policy, and health equity, this multidisciplinary collection offers new perspective on struggles for justice in twenty-first-century Latin America. The chapters in this book were originally published as a special issue of the journal, *Global Public Health*.

The Pioneer Woman. Shortly after getting married, Merissa Alink and her husband found themselves with nothing in their pantry but a package of spaghetti and some breadcrumbs. Their life had hit rock bottom, and it was only after a touching act of charity that they were able to get on their feet again. Inspired by this gesture of kindness as well as the beloved Little House on the Prairie books, Merissa found that a life of self-sufficiency and simplicity could be charming and blissful. She set out to live an entirely made-from-scratch life, the “Little House” way, and as a result, she slashed her household budget by nearly half—saving thousands of dollars a year. She started to write about homesteading, homemaking, and cooking from scratch, and over the next few years developed the recipes and DIY projects that would one day become part of her now beloved website, LittleHouseLiving.com. As whole foods became staples of the family diet, Merissa realized the dangers of putting overly processed ingredients not only into our bodies, but on or near them as well. In addition to countless delicious, home-cooked meals, she developed natural, easy-to-make recipes for everything from sunscreen to taco seasoning mix, lemon poppy hand scrub to furniture polish. With their simple ingredients, these recipes are allergen friendly and many are gluten-free. With over 130 practical, simple DIY recipes, gorgeous full-color photographs, and Merissa’s trademark charm in personal stories and tips,

The brilliant debut from a rising star of the picture book world, tipped as 'one to watch' by The Bookseller magazine. Isobel's grandma has lost her glasses and she can't see a thing without them. While Isobel and Gran are in the garden searching for the specs, they come across a cat. A very big cat. A very big and friendly cat. The big cat moves in with them, much to the disgust of all gran's other cats. He might be good fun, but he takes up lots of space and eats every scrap of food. Eventually the new cat's mum and dad turn up, looking for their missing son. And they just happen to have found gran's glasses too. The tiger family are delighted to be reunited - and gran now sees that she's been sharing her house with a tiger! A heartwarming and surreal romp, packed with jokes and funny details and with an underlying message of acceptance. Emma's bright colours and brilliant characterisation gives the book the look of a classic from the 1970s or earlier, but with a very modern sense of humour and sensibility.

How does
