Three sisters and an unforgettable journey to tame New Zealand's Kaimanawa horses For the Love of Horses is a heartfelt story about a life familiar to many young Kiwis who love horses – the trials and tears of Pony Club, the joy of riding bareback, and the pressures of adolescence and competitive showjumping. It is also the story of an unlikely childhood dream coming true. Every year in the wilderness of the Central Plateau, wild Kaimanawa horses are rounded up and sent to the slaughterhouse. It's upsetting, but what else can be done? The Wilson sisters decide something could be done. They saw future champions behind the fiery eyes and beneath the shaggy coats. In this touching book, Kelly Wilson tells the true story of how they embarked on a courageous journey to train horses that most people believed were untrainable.

Andrew Lang (31 March 1844 - 20 July 1912) was a Scottish poet, novelist, literary critic, and contributor to the field of anthropology. He is best known as a collector of folk and fairy tales. The Andrew Lang lectures at the University of St Andrews are named after him. Lang was born in Selkirk. He was the eldest of the eight children born to John Lang, the town clerk of Selkirk, and his wife Jane Plenderleath Sellar, who was the daughter of Patrick Sellar, factor to the first duke of Sutherland. On 17 April 1875, he married Leonora Blanche Alleyne, youngest daughter of C. T. Alleyne of Clifton and Barbados. She was (or should have been) variously credited as author, collaborator, or translator of Lang's Color/Rainbow Fairy Books which he edited.

Self Observation

Just One Drop

How does a suburban pizza joint end up profiled on national magazine covers and network TV news? (Hint: The secret is not in the sauce.) When Nick Sarillo decided to open a family-friendly pizza restaurant in the suburbs of Chicago, people thought he was nuts. Having worked as a carpenter for much of his adult life, he lacked any formal experience in restaurants or in managing a small business. Everyone told him no one else would ever care about his place the way he did. They warned he'd have to work 20-hour-days and monitor every employee just to stay in business. But Sarillo saw things differently, and set out to run his business in a radically different way. Today Nick's Pizza & Pub is one of the top ten busiest independent pizza restaurants in the country, with two locations that gross about six times the revenue of the typical pizza restaurant. And in an industry where most employees leave within less than a year, Nick's annual turnover rate is less than 20 percent. How did he do it? The secret lies in Nick's purpose-driven culture, in which every employee—from the waiters to the chefs to the managers—is equipped with the tools necessary to do their jobs while also advancing the company's overall mission. The result is higher sales, a dedicated team, and a big little business that is beloved by the entire community. In *A Slice of the Pie* Sarillo tells the story of how he built his extraordinary culture and shows how anyone can follow his methods. For instance, Nick's managers engage the staff by tracking and rewarding unusual metrics, such as how many guests request a particular server or the average check amount of each carryout host. Likewise, team members of all ages and levels of experience are encouraged to express themselves, acquire new skills, and suggest ideas to help the business grow. *A Slice of the Pie* will help transform even the smallest, simplest, and most ordinary business into a successful, high-performance organization.

A Slice of the Pie

Infamy is no accident. It is a poison in our blood. It is the price of being a Borgia. Glamorous and predatory, the Borgias became Italy's most ruthless and powerful family, electrifying and terrorizing their 15th-century Renaissance world. To this day, Lucrezia Borgia, the Pope's beautiful daughter, is known as one of history's most notorious villainesses, accused of incest and luring men to doom with her arsenal of poison. Was she the heartless seductress of legend? Or was she an unsuspecting pawn in a familial web, forced to choose between loyalty and her own survival? From her pampered childhood in the palaces of Rome to her ill-fated, scandalous marriages and complex relationship with her adored father and her brothers, this is the dramatic, untold story of a papal princess whose courage led her to overcome the fate imposed on her by her Borgia blood.

Unlike traditional introductory math/stat textbooks, Probability and Statistics: The Science of Uncertainty brings a modern flavor to the course, incorporating the computer and offering an integrated approach to inference that includes the frequency approach and the Bayesian inference. From the start the book integrates simulations into its theoretical coverage, and emphasizes the use of computer-powered computation throughout. Math and science majors with just one year of calculus can use this text and experience a refreshing blend of applications and theory that goes beyond merely mastering the technicalities. The new edition includes a number of features designed to make the material more accessible and level-appropriate to the students taking this course today.

One for the keeper shelf! Rediscover the heart-stopping thrills of this classic romantic suspense, only from New York Times bestselling author Heather Graham. It was the most dangerous role of her career...and possibly the last. Playing a malicious diva on a popular daytime soap, actress Kelly Trent has garnered more than her fair share of hate mail. She doesn't believe anyone would really confuse her with her character, but when an accident on the set hits too close for the producers' comfort, Kelly is unceremoniously put on hiatus. At her agent's suggestion, she agrees to appear in a music video, thinking the time away filming in the Florida Keys might be just the thing to put her life in perspective. But with two left feet, Kelly only hopes dance instructor Doug O'Casey can work miracles. A former Miami cop, Doug still has a lawman's instinct for trouble, and the continued threats made against Kelly tell him that she is in danger. Now, as a deranged fan closes in, Doug realizes that someone close to Kelly wants more than her character killed off the show—someone wants her stone-cold dead. Originally published in 2005

Sarah In my wild, reckless past Carlos 'Beach' Rodriguez would have been my ideal man. He's handsome, experienced, rich, kind, and in complete control of his destiny. Unfortunately he's also a criminal, the President of an outlaw motorcycle club, and I've sworn off bad boys in my efforts to live my dream of being normal. He would be so much easier to resist him if he hadn't saved my life more than once and didn't treat me like his queen. Beach Gorgeous, smart, and deadly, Sarah is my ideal woman, even if she is almost young enough to be my daughter. On the surface she's one of the toughest females I've ever met, but underneath all that hard beauty and menace lies an incredibly tender heart that's been damaged in the past. Winning her love is gonna be a challenge, but I'm determined to have her as my old lady and I'll do whatever I have to in order to make that happen. That would be a hell of a lot easier to do if people weren't trying to kill us all the time.

This book is an in-depth examination of the much needed process of “self” study known as self observation. We live in an age where the “attention function” in the brain has been badly damaged by TV and computers-up to 90 percent of the public under age 35 suffers from attention-deficit disorder! This book offers the most direct, non-pharmaceutical means of healing attention dysfunction. The methods presented here are capable of restoring attention to a fully functional and powerful tool for success in life and relationships. This is also an age when humanity has lost its connection with conscience. When humanity has poisoned the Earth’s atmosphere, water, air and soil, when cancer is in epidemic proportions and is mainly an environmental illness, the author asks: What is the root cause? And he boldly answers: Failure to develop conscience! Selfobservation, he asserts, is the most ancient, scientific, and proven means to develop this crucial inner guide to awakening and a moral life. This book is for the lay-reader, both the beginner and the advanced student of self observation. No other book on the market examines this practice in such detail. There are hundreds of books on self-help and meditation, but almost none on self-study via self-observation, and none with the depth of analysis, wealth of explication, and richness of experience which this book offers. Red Hawk, author of 5 collections of poetry, was the Hodder Fellow at Princeton University (1992-93) and is currently a full professor at the University of Arkansas, Monticello. He has practiced self-observation for over 30 years, under the guidance of the Gurdjieff Society of Arkansas, meditation master Osho Rajneesh, and spiritual teacher, Lee Lozowick.

Proposed Amemdments to the Plant Variety Protection Act

A family scandal! Georgia had imagined becoming Jarrod Maclean's wife a hundred times—until she'd found him in what seemed like a passionate embrace with his own stepmother.... Devastated by his betrayal, Georgia had convinced herself she was glad when he left town. When Jarrod returned four years later, Georgia still hadn't forgiven him—even though she sensed that he wanted her more than ever. But he insisted any relationship between them would be taboo...was there something he wasn't telling her? What really happened four years ago? The whole family seemed to be in on the secret—everyone except Georgia....

Multicultural Psychology combines research with actual real narratives to examine multicultural issues and capture the richness of diverse cultures. The text covers compelling topics such as differences in world views, communication, racial and cultural identity, development, racism, and immigration, as well as gender, sexuality, age, and ability. It presents a broad foundation for understanding the issues psychologists address when studying culture and the practical applications of theory in today's society. The personal stories and discussions of current events make the text relatable to students' lives.

Exquisite Redemption

Gardeners Chronicle, the Horticultural Trade Journal

Jennifer Adams, best friend to Jacque Pierce and Sally Morgan, spicy, out spoken, a little crazy and humanor so she thought. Jen has just found out that human DNA is not the only thing that resides in her veins, she happens to share that little pesky werewolf gene, although it isn't more than just a drop. Now that she and her friends are living in Romania with Fane's pack, she is also oh so conveniently stuck with the object of her affection, the fur ball Decebel. Drawn to each other by something they don't understand Jen finds herself frustrated by the lack of mating signs between her and said fur ball. Not only is she dealing with that not so un-frustrating problem, she now has been informed that because of that little drop of werewolf blood in her she is now required to attended a multi-pack gathering for un-mated wolves. This type of gathering hasn't taken place in over a century but with a shortage of females among the werewolf population the males are getting worried they won't ever find their true mates. Meanwhile, Decebel struggles with the emotions he is feeling towards Jen. He tries to keep his distance but there is just something about the mouthy blonde that keeps him coming back for more of her verbal abuse that he just can't seem to get enough ofgo figure.

This volume explores the potential of employing a relational paradigm for the purposes of interdisciplinary exchange. Bringing together scholars from the social sciences, philosophy and theology, it seeks to bridge the gap between subject areas by focusing on real phenomena. Although these phenomena are studied by different disciplines, the editors demonstrate that it is also possible to study them from a common relational perspective that connects the different languages, theories and perspectives which characterize each discipline, by going beyond their differences to the core of reality itself. As an experimental collection that highlights the potential that exists for cross-disciplinary work, this volume will appeal to scholars across a range of field concerned with critical realist approaches to research, collaborative work across subjects and the manner in which disciplines can offer one another new insights.

Thielicke here studies the themes of doubt and appropriation in modern Protestant thought. A leading advocate of dialectical theology, Thielicke examines the work of the great German Protestant religious philosophers from Lessing and Schliermacher through Barth and Tillich, probing these theologians' understanding of their context and how this tradition can impact our own engagement with our times. Clear, finely nuanced, historically and philosophically mature, this is a vital reflection on the history of theology and in systematic theology.

The General Stud Book containing Pedigrees of Race Horses

In the past two decades, transnational adoption has exploded in scope and significance, growing up along increasingly globalized economic relations and the development and improvement of reproductive technologies. A complex and understudied system, transnational adoption opens a window onto the relations between nations, the inequalities of the rich and the poor, and the history of race and racialization. Transnational adoption has been marked by the geographies of unequal power, as children move from poorer countries and families to wealthier ones, yet little work has been done to synthesize its complex and sometimes contradictory effects. Rather than focusing only on the United States, as much previous work on the topic does, *International Adoption* considers the perspectives of a number of sending countries as well as other receiving countries, particularly in Europe. The book also reminds us that the U.S. also sends children into international adoptions—particularly children of color. The book thus complicates the standard scholarly treatment of the subject, which tends to focus on the tensions between those who argue that transnational adoption is an outgrowth of American wealth, power, and military might (as well as a rejection of adoption from domestic foster care) and those who maintain that it is about a desire to help children in need.
