### The New Irish Jurist and Local Government Review

Throughout the centuries, translations of the Bible have steadily improved. In general, each new translation inherits from previous ones and opens the way for later ones. While a new translation derives help from its predecessors, it should go further. The Recovery Version of the New Testament, following the precedent set by the major authoritative English versions and taking these versions as reference, not only incorporates lessons learned from an examination of others' practices but also attempts to avoid biases and inaccurate judgments. This version, frequently guided by other versions, attempts to provide the best utterance for the revelation in the divine Word, that it may be expressed in the English language with the greatest accuracy. Translating the Bible depends not only on an adequate comprehension of the original language but also on a proper understanding of the divine revelation in the holy Word. Throughout the centuries the

understanding of the divine revelation possessed by the saints has always been based upon the light they received, and this understanding has progressed steadily. The consummation of this understanding forms the basis of this translation and its footnotes. Hence, this translation and the accompanying footnotes could be called the “crystallization” of the understanding of the divine revelation which the saints everywhere have attained to in the past two thousand years. It is our hope that the Recovery Version will carry on the heritage that it has received and will pave the way for future generations. As with any New Testament translation, the determination of the original Greek text, based upon the available manuscripts, forms the basis for the text of the Recovery Version of the New Testament. The Recovery Version follows, for the most part, the Nestle-Aland Greek text as found in *Novum Testamentum Graece* (26th edition). However, in determining the original form of any verse, the translators of the Recovery Version gave careful consideration to the larger context of chapter and book and to similar portions of the New Testament. The most recently discovered manuscripts or the manuscripts of oldest date are not necessarily the most accurate or reliable; hence, the determination of the text for this version was based largely upon the principle stated above. Departures from the Nestle-Aland text are sometimes indicated in the footnotes. Italicized words in the verses indicate supplied words, not found in the Greek text. Quotation marks are used to indicate close quotation from the Old Testament. The Recovery Version embodies extensive research into the meaning of the original text and attempts to express this meaning with English that is to the point, easy to understand, and readable. In those places where it is difficult to express the exact meaning of the original Greek, explanatory footnotes have been supplied. The subject provided at the beginning of each book and the outline of each book take the historical facts as their base and express the spiritual meaning in each book. The footnotes stress the revelation of the truth, the spiritual light, and the supply of life more than history, geography, and persons. The cross-references lead not only to other verses with the same expressions and facts but also to other matters related to the spiritual revelation in the divine Word.

Habeas Corpus is the process by which state prisoners—particularly those on death row—appeal to federal courts to have their convictions overturned. Its proper role in our criminal justice system has always been hotly contested, especially in the wake of 1996 legislation curtailing the ability of prisoners to appeal their sentences. In this timely volume, Eric M. Freedman reexamines four of the Supreme Court’s most important habeas corpus rulings: one by Chief Justice John Marshall in 1807 concerning Aaron Burr’s conspiracy, two arising from the traumatic national events of the 1915 Leo Frank case and the 1923 cases growing out of murderous race riots in Elaine County, Arkansas, and one case from 1953 that dramatized some of the ugliest features of the Southern justice of the period. In each instance, Freeman uncovers new original sources and

tells the stories of the cases through such documents as the Justices' draft opinions and the memos of law clerk William H. Rehnquist. In bracing and accessible language, Freedman then presents an interpretation that rewrites the conventional view. Building on these results, he challenges legalistic limits on habeas corpus and demonstrates how a vigorous writ is central to implementing the fundamental conceptions of individual liberty and constrained government power that underlie the Constitution.

Designed for the pastor and Bible teacher, the Zondervan Exegetical Commentary on the New Testament examines the biblical text in its original environment. Notable evangelical scholars carefully attend to grammatical detail, literary context, rhetorical flow, theological nuance, and historical setting in their interpretation. Critical scholarship informs each step, but does not dominate the commentary, allowing readers to concentrate on the biblical author's message as it unfolds. While primarily designed for those with a basic knowledge of biblical Greek, all who strive to understand and teach the New Testament will find this series beneficial. The general editor for this enterprising series is Clinton E. Arnold. The following focused sections help readers understand the text: Literary Context: Explains how each passage functions within the book. Main Idea: Summarizes the central message of the passage. Translation in Graphic Layout: Presents a translation through a diagram that helps readers visualize the flow of thought within the text. Exegetical Outline: Gives the overall structure of the passage. Explanation of the Text: Provides interpretive insights into the background and meaning of the text. Theology in Application: Discusses how the message of the text fits within the book itself and in a broader biblical-theological context, suggesting applications for the church today.
