The Teacher's Sourcebook for Cooperative Learning

Part of the popular LPN Threads series, Introduction to Maternity ; Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. " provides clinical information and insights in a concise, structured and informative way that encourages critical thinking." Reviewed by Kim Shrieves on behalf of Nursing Times, April 2015 Concise, yet comprehensive, content is presented within the scope of practice for the LVN/LPN, but with sufficient depth to facilitate students in a ladder program allowing them to be successful with the ADN program requirements for the specialties. Step-by-step procedure lists throughout the text help you master important maternity and pediatric nursing processes with Skills Performance Checklists available on the Evolve website. Nursing Care Plans with Critical Thinking Questions reinforce the

nursing process and strengthen problem-solving skills as applied to maternity nursing. Logical organization of content from simple-to-complex and health-to-illness makes locating and accessing information easy. Key terms with phonetic pronunciations and text page references help improve terminology and language skills of English-as-a-Second-Language (ESL) students and students with limited proficiency in English, before they enter clinical practice. Health Promotion boxes emphasize the importance of family-centered care, health promotion and illness prevention, women's health issues, and growth and development of child and parent to help you understand and teach wellness and disease prevention to patients in your care. Nutrition content highlights the importance of proper nutrition for women before, during, and after pregnancy (for those who are breastfeeding), as well as critical information about the nutrition needs and problems of newborns, infants, and children. Nursing Tips throughout provide pertinent information applicable in the clinical setting that reinforces what you have just learned while building on previously learned information. NEW! Unfolding case studies with illustrations follow first-time parents Tess and Luis throughout the stages of pregnancy and birth of their twins, with a series of critical thinking questions. NEW! Updated NCLEX exam-style review questions have been revised to a higher cognitive level to better reflect the NCLEX examination. NEW! Expanded coverage of bioterrorism and natural disasters better reflects the evolving role of the nurse in disaster situations. NEW! Enhanced appendix includes Pediatric Lab Values for quick and easy reference.

Part of the popular LPN Threads series, Introduction to Maternity & Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX® test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. Cultural Considerations boxes and a Cultural Assessment Data Collection Tool help in developing individualized plans of care. Updated health promotion content includes Health Promotion boxes focusing on preventive strategies for achieving prenatal wellness, health during pregnancy, postnatal health, and pediatric illness prevention and wellness -- including the complete immunization schedules for all ages. Nursing Tips provide information applying to the clinical setting. Objectives are listed in each chapter opener. Key terms include phonetic pronunciations and text page references at the beginning of each chapter. Nursing Care Plans with critical thinking questions help you

understand how a care plan is developed, how to evaluate care of a patient, and how to apply critical thinking skills. A companion Evolve website includes animations, videos, answers to review questions and answer guidelines for critical thinking questions, an English/Spanish audio glossary, critical thinking case studies, and additional review questions for the NCLEX examination.

Third Grade Brain Teasers

What do you believe about women's roles in church leadership? Should women lead groups that include men? Should women preach? Should women be ordained? More importantly, why do you believe what you believe? Plenty of books exist telling women what to think; precious few help women think for themselves, particularly about theological issues. *Women, Leadership, and the Bible* helps women learn to interpret the Bible and discern for themselves answers to their questions about women's roles in the church, along with any other issue they may face in life. In straightforward, plain language, Dr. Natalie Eastman introduces women to a five-step, easy-to-follow process for studying the Bible and interpreting

what they study. [NOTE to designer: if there is not enough space on the back cover then cut the following section in italics] This book encourages women that they can think for themselves and can analyze significant theological issues, despite any hesitations they may have, any conflict surrounding an issue, or any lack of theological training. By the time readers finish this book, they will have a biblically defensible, theologically reasoned, and thoroughly discerned understanding of what they believe Scripture says about women's roles and how that understanding could play out within the church. No longer will they feel as though they have nothing to contribute when the subject of women's roles--or any other of life's theological questions--arises.

Cold Case Research Resources for Unidentified, Missing, and Cold Homicide Cases

Based on a philosophy of active learning, this innovative text uses unfolding case studies as a compelling vehicle for learning fundamental nursing content. Unlike traditional vignettes, these case studies evolve over time as real-life situations, better enabling students to develop the skills they need to problem solve, actively engage, and use critical thinking techniques in new situations. The unfolding case study method also assists in the development of skills that are important for nursing students about to embark on the NCLEX-RN. The text incorporates all types of NCLEX-style questions into the unfolding case studies to facilitate exam preparation. This method offers a unique study opportunity that integrates all fundamental concepts and skills application with practice and professional role responsibilities. The patient care content areas that are needed for NCLEX-RN success--safe and effective care, health promotion, physiological and psychological

integrity--are interwoven into an engaging format. References at the end of each chapter provide guidance for additional study as needed. Electronic and web resources provide quick access to valuable web-delivered information that will be useful in a clinical setting. eBook versions of this text will take the reader directly to the web resource. Key Features: Integrates core nursing concepts and content into unfolding case studies Provides engaging test review preparation for course success and NCLEX-RN test success Offers students a refreshing new study option and relief from endless Q&A format offered by other content review books Develops critical thinking skills to help students "think like a nurse" Incorporates all types of NCLEX-style questions into unfolding case studies
