How to Understand Current Events

Current Trends in the Pragmatics of Spanish provides the reader with a representative spectrum of current research in the most dynamic areas of the pragmatics

of Spanish. It brings together a collection of academic essays written by well-established as well as emerging voices in Hispanic pragmatics. The essays include applications of pragmatic concepts to sub-fields of (Spanish) linguistics (i.e., pragmatics and grammar; pragmatics and applied linguistics; pragmatics and cross- and inter-cultural communication), studies of 'traditional' topics in pragmatics (i.e., discourse markers, politeness, metaphor, humour) as well as a proposal to amalgamate the dominant pragmatic approaches, namely socio-pragmatics and cognitive pragmatics, into one comprehensive model. The essays in this collection represent both new theoretical and empirical research and as such they constitute a valuable contribution to the field of pragmatics in general and an essential reference to those researching the pragmatics of Spanish.

Americans have always put the past to political ends. The Union laid claim to the Revolution--so did the Confederacy. Civil rights leaders said they were the true sons of liberty--so did Southern segregationists. This book tells the story of the centuries-long struggle over the meaning of the nation's founding, including the battle waged by the Tea Party, Glenn Beck, Sarah Palin, and evangelical Christians to "take back America." Jill Lepore, Harvard historian and New Yorker staff writer, offers a careful and concerned look at American history according to the far right, from the "rant heard round the world," which launched the Tea Party, to the Texas School Board's adoption of a social-studies curriculum that teaches that the United States was established as a Christian nation. Along the way, she provides rare insight into the eighteenth-century struggle for independence--a history of the Revolution, from the archives. Lepore traces the roots of the far right's reactionary history

to the bicentennial in the 1970s, when no one could agree on what story a divided nation should tell about its unruly beginnings. Behind the Tea Party's Revolution, she argues, lies a nostalgic and even heartbreaking yearning for an imagined past--a time less troubled by ambiguity, strife, and uncertainty--a yearning for an America that never was. The Whites of Their Eyes reveals that the far right has embraced a narrative about America's founding that is not only a fable but is also, finally, a variety of fundamentalism--anti-intellectual, antihistorical, and dangerously antipluralist. In a new afterword, Lepore addresses both the recent shift in Tea Party rhetoric from the Revolution to the Constitution and the diminished role of scholars as political commentators over the last half century of public debate.

Festival and Special Event Management

(1) Beliefs are involuntary, and not normally subject to direct voluntary control. For instance I cannot believe at will that my trousers are on fire, or that the Dalai Lama is a living God, even if you pay me a large amount of money for believing such things. (2) Beliefs are normally shaped by evidence for what is believed, unless they are, in some sense, irrational. In general a belief is rational if it is proportioned to the degree of evidence that one has for its truth. In this sense, one

often says that "beliefs aim at truth" . This is why it is, on the face of it, irrational to believe against the evidence that one has. A subject whose beliefs are not shaped by a concern for their truth, but by what she wants to be the case, is more or less a wishful thinker or a self-deceiver. (3) Beliefs are context independent, in the sense that at one time a subject believes something or does not believe it; she does not believe it relative to one context and not relative to another. For instance if I believe that Paris is a polluted city, I cannot believe that on Monday and not on Tuesday; that would be a change of belief, or a change of mind, but not a case of believing one thing in one context and another thing in another context. If I believe something, the belief is more or 4 less pennanent across various contexts.
