Bankruptcy Law: Principles, Policies, and Practice, Fourth Edition puts bankruptcy law in context, illuminating the evolution of the Bankruptcy Code with an exploration of current and historical non-bankruptcy remedies. The book continually approaches each topic through the goals of creditors and debtors, exploring how each is served in various parts of the Code. Extensive questions and

numerous problems focus student attention on the mechanics of the bankruptcy process. But they do so through the lens of history and policy, and they explain why the law is the way it is. The authors' aim in designing the casebook was to provide a very accessible medium for introducing students to bankruptcy law in a sophisticated manner. As the title indicates, the emphasis is on the relationship between the core principles essential to an understanding of the law, the policies animating those principles, and the challenges presented by the effectuation of those principles and policies in bankruptcy practice. In its methodology, *Bankruptcy Law: Principles, Policies, and Practice* relies on a variety of expository tools—textual discussion, comprehension questions, problems, cases and thought / discussion questions—all with a careful eye toward building upon previous materials and concepts. The Insolvency Review

"Modern society has eliminated the inhumane debtors' prisons for handling the insolvent debtor and in their stead have enacted benign modern laws in the area of bankruptcy. Unscrupulous merchants now use these benign laws for fraudulent purposes." Based on case studies in Argentina, Brazil, Mexico, and Venezuela, this is the first publication to provide recommendations about the important legal and institutional issues that are involved in bankruptcy reform in a critical region of the

global economy. The authors note that effective bankruptcy policy balances several requirements for the conduct of a stable, successful economy. For example, it might be in the greatest interests to all parties if a company is given an opportunity to restructure and make use of the scarce resources remaining in its possession. On the other hand, inefficient firms, especially those that have long survived only on state subsidies, may need to fail in order to free space in the market for more efficient, better-managed companies. Finally, there are the needs to enforce loan contracts and provide an equitable system of debt collection.

Federal Procedure

Collier Family Law and the Bankruptcy Code

With the enactment of the Bankruptcy Abuse Prevention Consumer Protection Act of 2005 (BAPCPA) after 8 years of repeated attempts by Congress to completely revise the Bankruptcy Code, it became evident that the last Edition of this Book in 2002 had to be revised to reflect the monumental and far reaching changes brought about by this Legislation. This work is designed to give the reader a complete landscape of the revised bankruptcy jurisprudence. It does not cover the new Chapter 15, entitled "Ancillary and Other Cross-Border Cases" which also includes the Model Law on Cross-Border Insolvency. The new Chapter 15 replaced the former Section 304 of the Bankruptcy Code. In the event there are significant developments in the field of Cross-Border insolvencies, the subject might be explored later either in the form of a supplement to this work or by the treatment of this complex subject in a separate publication. While BAPCPA only became partially operative in April 2005, it is now fully operational since October 17, 2005. In addition to the revisions to the Bankruptcy Code by BAPCPA, since the last revision of this work, there has been a significant body of case law developed by the Supreme Court and by the Courts of Appeal, giving rise to an opportunity to update the cases cited in this work.
