From the author the classic *The Wizards of Armageddon* and Pulitzer Prize finalist comes the definitive history of American policy on nuclear war—and Presidents' actions in nuclear crises—from Truman to Trump. Fred Kaplan, hailed by *The New York Times* as "a rare combination of defense intellectual and pugnacious reporter," takes us into the White House Situation Room, the Joint Chiefs of Staff's "Tank" in the Pentagon, and the vast chambers of Strategic Command to bring us the untold stories—based on exclusive interviews and

previously classified documents—of how America's presidents and generals have thought about, threatened, broached, and just barely avoided nuclear war from the dawn of the atomic age until today. Kaplan's historical research and deep reporting will stand as the permanent record of politics. Discussing theories that have dominated nightmare scenarios from Hiroshima and Nagasaki, Kaplan presents the unthinkable in terms of mass destruction and demonstrates how the nuclear war reality will not go away, regardless of the dire consequences.

My rules for being a Manhattan billionaire's fake girlfriend No kissing. No fooling around. No falling in love. What can possibly go wrong? Note to self: When your boyfriend dumps you on your thirtieth birthday, it's probably not the smartest idea to drink so much that you wake up in the same bed as the mysterious hottie wearing the gorgeous suit who you noticed sitting across the bar. The only silver lining in my obvious lack of judgment is the promise of never seeing Mr. Suit again, not in a city the size of New York. Or so I thought, until a story I'm working on about the country's most sought-after and elusive escort lands me in the same café as Mr. Suit. So I do what any self-respecting woman of my age would do

in my shoes Try to ignore him. But he won't let me. Instead he makes a proposition that leaves me questioning whether I need to have my ears checked. Poignant, keenly observed, and irresistibly funny: a memoir about literary New York in the late nineties, a pre-digital world on the cusp of vanishing, where a young woman finds herself entangled with one of the last great figures of the century. At twenty-three, after leaving graduate school to pursue her dreams of becoming a poet, Joanna Rakoff moves to New York City and takes a job as assistant to the storied literary agent for J. D. Salinger. She spends her days in a plush, wood-paneled office, where Dictaphones and typewriters still reign and old-time agents doze at their desks after martini lunches. At night she goes home to the tiny, threadbare Williamsburg apartment she shares with her socialist boyfriend. Precariously balanced between glamour and poverty, surrounded by titanic personalities, and struggling to trust her own artistic instinct, Rakoff is tasked with answering Salinger's voluminous fan mail. But as she reads the candid, heart-wrenching letters from his readers around the world, she finds herself unable to type out the agency's decades-old form response. Instead, drawn inexorably into the emotional world of Salinger's devotees, she abandons the template and begins writing back. Over the course of the year, she finds her own voice by acting as Salinger's, on her own dangerous and liberating terms. Rakoff paints a vibrant portrait of a bright, hungry young woman navigating a heady and longed-for world, trying to square romantic aspirations with burgeoning self-awareness, the idea of a life with life itself. Charming and deeply moving, filled with electrifying glimpses of

an American literary icon, *My Salinger Year* is the coming-of-age story of a talented writer. Above all, it is a testament to the universal power of books to shape our lives and awaken our true selves. From the Hardcover edition.

Grace After Henry

In the early hours of June 26, 1948, phones began ringing across America, waking up the airmen of World War II—pilots, navigators, and mechanics—who were finally beginning normal lives with new houses, new jobs, new wives, and new babies. Some were given just forty-eight hours to report to local military

bases. The president, Harry S. Truman, was recalling them to active duty to try to save the desperate people of the western sectors of Berlin, the enemy capital many of them had bombed to rubble only three years before. Soviet dictator Joseph Stalin had ordered a blockade of the city, isolating the people of West Berlin, using hundreds of thousands of Red Army soldiers to close off all land and water access to the city. He was gambling that he could drive out the small detachments of American, British, and French occupation troops, because their only option was to stay and watch Berliners starve—or retaliate by starting World War III. The situation was impossible, Truman was told by his national security advisers, including the Joint Chiefs of Staff. His answer: "We stay in Berlin. Period." That was when the phones started ringing and local police began banging on doors to deliver telegrams to the vets. Drawing on service records and hundreds of interviews in the United States, Germany, and Great Britain, Reeves tells the stories of these civilian airmen, the successors to Stephen Ambrose's "Citizen Soldiers," ordinary Americans again called to extraordinary tasks. They did the impossible, living in barns and muddy tents, flying over Soviet-occupied territory day and night, trying to stay awake, making it up as they went along and ignoring Russian fighters and occasional anti-aircraft fire trying to drive them to hostile ground. The Berlin Airlift changed the world. It ended when Stalin backed down and lifted the blockade, but only after the bravery and sense of duty of those young heroes had bought the Allies enough time to create a new West Germany and sign the mutual defense agreement that created NATO, the

North Atlantic Treaty Organization. And then they went home again. Some of them forgot where they had parked their cars after they got the call.

Outlander

"She remains a thinker and activist who 'insists upon complexity.'" Reamy Jansen, San Francisco Chronicle*Some of Us Did Not Die brings together a rich sampling of the late poet June Jordan's prose writings. The essays in this collection, which include her last writings and span the length of her extraordinary career, reveal Jordan as an incisive analyst of the personal and public costs of remaining committed to the ideal and practice of democracy. Willing to venture into the most painful contradictions of American culture and politics, Jordan comes back with lyrical honesty, wit, and wide-ranging intelligence in these accounts of her reckoning with life as a teacher, poet, activist, and citizen.

Disarming Beauty

Respected conservative talk show host, blogger and TV commentator Dana Loesch gives her views on the history and intent of the Second Amendment and discusses what she believes gun confiscation would mean to Americans' basic rights as citizens. How many people in America today are truly well-versed in the history of the Second Amendment, and why it was included in the Bill of Rights? In *HANDS OFF MY GUN*, Dana Loesch explains why the Founding Fathers included the right to bear arms in the Bill of Rights, and argues that "gun control" regulations throughout history have been used to keep minority populations under control. She also contends that current

arguments in favor of gun control are primarily based on emotions and fear. This narrative is a must-read for every Second Amendment supporter. Dana Loesch is a determined and fierce advocate for those rights and shouts out: hands off my gun!

Disarming Words

In a book that radically challenges conventional understandings of the dynamics of cultural imperialism, Shaden M. Tageldin unravels the complex relationship between translation and seduction in the colonial context. She examines the afterlives of two occupations of Egypt—by the French in 1798 and by the British in 1882—in a rich comparative analysis of acts, fictions, and theories that translated the European into the Egyptian, the Arab, or the Muslim. Tageldin finds that the encounter with European Orientalism often invited colonized Egyptians to imagine themselves "equal" to or even "masters" of their colonizers, and thus, paradoxically,

to translate themselves toward—virtually into—the European. Moving beyond the domination/resistance binary that continues to govern understandings of colonial history, Tageldin redefines cultural imperialism as a politics of translational seduction, a politics that lures the colonized to seek power through empire rather than against it, thereby repressing its inherent inequalities. She considers, among others, the interplays of Napoleon and Hasan al-'Attar; Rifa'a al-Tahtawi, Silvestre de Sacy, and Joseph Agoub; Cromer, 'Ali Mubarak, Muhammad al-Siba'i, and Thomas Carlyle; Ibrahim 'Abd al-Qadir al-Mazini, Muhammad Husayn Haykal, and Ahmad Hasan al-Zayyat; and Salama Musa, G. Elliot Smith, Naguib Mahfouz, and Lawrence Durrell. In conversation with new work on translation, comparative literature, imperialism, and nationalism, Tageldin engages postcolonial and poststructuralist theorists from Frantz Fanon, Edward Said, and Gayatri Spivak to Jean Baudrillard, Walter Benjamin, Emile Benveniste, and Jacques Derrida.

Daring Young Men

Were World Wars I and II inevitable? Were they necessary wars? Or were they products of calamitous failures of judgment? In this monumental and provocative history, Patrick Buchanan makes the case that, if not for the blunders of British statesmen—Winston Churchill first among them—the horrors of two world wars and the Holocaust might have been avoided and the British Empire might never have collapsed into ruins. Half a century of murderous oppression of scores of millions under the iron boot of Communist tyranny might never have happened, and Europe's central role in world affairs might have been sustained for many generations. Among the British and Churchillian errors were: • The secret decision of a tiny cabal in the inner Cabinet in 1906 to take Britain straight to war against Germany, should she invade France • The vengeful Treaty of Versailles that mutilated Germany, leaving her bitter, betrayed, and receptive to the appeal of Adolf Hitler • Britain's capitulation, at Churchill's urging, to American pressure to sever the Anglo-Japanese alliance, insulting and isolating Japan, pushing her onto the path of militarism and conquest • The greatest mistake in British history: the unsolicited war guarantee to Poland of March 1939, ensuring the Second World War Certain to create controversy and

spirited argument, Churchill, Hitler, and “the Unnecessary War” is a grand and bold insight into the historic failures of judgment that ended centuries of European rule and guaranteed a future no one who lived in that vanished world could ever have envisioned.

Los Angeles Times, Publishers Weekly, Slate, Time Out New York, Vulture, Refinery 29, and many more . . . A provocative meditation on race, Claudia Rankine's long-awaited follow up to her groundbreaking book Don't Let Me Be Lonely: An American Lyric. Claudia Rankine's bold new book recounts mounting racial aggressions in ongoing encounters in twenty-first-century daily life and in the media. Some of these encounters are slights, seeming slips of the tongue, and some are intentional offensives in the classroom, at the supermarket, at home, on the tennis court with Serena Williams and the soccer field with Zinedine Zidane, online, on TV-everywhere, all the time. The accumulative stresses come to bear on a person's ability to speak, perform, and stay alive. Our addressability is tied to the state of our belonging, Rankine argues, as are our assumptions and expectations of citizenship. In essay, image, and poetry, Citizen is a powerful testament to the individual and collective effects of racism in our contemporary, often named "post-race" society.

The 30-Day Thyroid Reset Plan

In 2005, Father Julián Carrón became the leader of the global ecclesial movement Communion and Liberation, following the death of the movement's founder, Father Luigi Giussani. Disarming Beauty is the English translation of an engaging and thought-provoking collection of essays by one of the principal

Catholic leaders and intellectuals in the world today. Adapted from talks given by Fr. Carrón, these essays have been thoroughly reworked by the author to offer an organic presentation of a decade-long journey. They present the content of his elaboration of the gospel message in light of the tradition of Fr. Giussani, the teachings of the popes, and the urgent needs of contemporary people. Carrón offers a broad diagnosis of challenges in society and then introduces their implications in contexts such as families, schools, workplaces, and political communities. In a dialogue with his listeners, he inspires and encourages them to lay out a new path for the Catholic church and the world. Throughout his essays, Carrón addresses the most pressing questions facing theologians today and provides insights that will interest everyone, from the most devout to the firm nonbeliever. Grappling with the interaction of Christian faith and modern culture, Carrón treats in very real and concrete ways what is essential to maintaining and developing Christian faith, and he invites an ongoing conversation about the meaning of faith, truth, and freedom.

Homage to Catalonia is George Orwell's account of the Spanish Civil War. It was the last and most mature of Orwell's documentary books.

Disarming Strangers

In June 1994 the United States went to the brink of war with North Korea. With economic sanctions impending, President Bill Clinton approved the dispatch of substantial reinforcements to Korea, and plans were prepared for attacking the North's nuclear weapons complex. The turning point came in an extraordinary private diplomatic initiative by former

President Jimmy Carter and others to reverse the dangerous American course and open the way to a diplomatic settlement of the nuclear crisis. Few Americans know the full details behind this story or perhaps realize the devastating impact it could have had on the nation's post-Cold War foreign policy. In this lively and authoritative book, Leon Sigal offers an inside look at how the Korean nuclear crisis originated, escalated, and was ultimately defused. He begins by exploring a web of intelligence failures by the United States and intransigence within South Korea and the International Atomic Energy Agency. Sigal pays particular attention to an American mindset that prefers coercion to cooperation in dealing with aggressive nations. Drawing upon in-depth interviews with policymakers from the countries involved, he discloses the details of the buildup to confrontation, American refusal to engage in diplomatic give-and-take, the Carter mission, and the diplomatic deal of October 1994. In the post-Cold War era, the United States is less willing and able than before to expend unlimited resources abroad; as a result it will need to act less unilaterally and more in concert with other nations. What will become of an American foreign policy that prefers coercion when conciliation is more likely to serve its national interests? Using the events that nearly led the United States into a second Korean War, Sigal explores the need for policy change when it comes to addressing the challenge of nuclear proliferation and avoiding conflict with nations like Russia, Iran, and Iraq. What the Cuban missile crisis was to fifty years of superpower conflict, the North Korean nuclear crisis is to the coming era.

Tongue Fu!

How does a group that operates terror cells and espouses violence become a ruling political party? How is the world to understand and respond to Hamas, the militant Islamist organization that Palestinian voters brought to power in the stunning election of January 2006? This important book provides the most fully researched assessment of Hamas ever written. Matthew Levitt, a counterterrorism expert with extensive field experience in Israel, the West Bank, and Gaza, draws aside the veil of legitimacy behind which Hamas hides. He presents concrete, detailed evidence from an extensive array of international intelligence materials, including recently declassified CIA, FBI, and Department of Homeland Security reports. Levitt demolishes the notion that Hamas' military, political, and social wings are distinct from one another and catalogues the alarming extent to which the organization's political and social welfare leaders support terror. He exposes Hamas as a unitary organization committed to a militant Islamist ideology, urges the international community to take heed, and offers well-considered ideas for countering the significant threat Hamas poses.

In a study that will radically shift our understanding of Civil War literature, Elizabeth Young shows that American women writers have been profoundly influenced by the Civil War and that, in turn, their works have contributed powerfully to conceptions of the war and its aftermath. Offering fascinating reassessments of works by white writers such as Harriet Beecher Stowe, Louisa May Alcott, and Margaret Mitchell and African-American writers including Elizabeth Keckley, Frances Harper, and Margaret Walker, Young also highlights crucial but lesser-known texts such as the memoirs of women who masqueraded as soldiers. In each case she explores the interdependence of gender with issues of race, sexuality, region, and nation. Combining literary analysis, cultural history, and feminist theory, *Disarming the Nation* argues that the Civil War functioned in women's writings to connect female bodies with the body politic. Women writers used the idea of "civil war" as a metaphor to represent struggles between and within women—including struggles against the cultural prescriptions of "civility." At the same time, these writers also reimagined the nation itself, foregrounding women in their visions of America at war and in peace. In a substantial afterword, Young shows how contemporary black and white women—including those who crossdress in Civil War reenactments—continue to reshape the meanings of the war in ways startlingly similar to their nineteenth-century counterparts. Learned, witty, and accessible,
