The close-knit, personal nature of small rural communities results in school and community operating as a single integrated social structure. Useful rural school improvement strategies must, therefore, address needs that are recognized by both the local school and the community and must operate in a style congruent with the local setting. Although outside ideas and resources may contribute greatly to successful plans to improve rural schools, a high level of local involvement is essential in determining the specifics of those plans. This is clearly demonstrated by the thirteen case studies presented in this book, in which the strategies that have been effective over time in resolving rural school problems are distinguished by a high degree of local participation. The cases—chosen to provide good examples of particular strategies and also to represent the diversity that characterizes rural America—cover centrally designed, heavily funded programs as

well as small-scale, locally initiated efforts in such areas as teacher training, the introduction of new curricula, and community participation in education decision making and political action. The final chapters analyze the case studies in practical terms and recommend policy and practice for future rural school improvement.

Social mobility--the chance, through education, to achieve greater success compared to one's parents--is one of the most compelling issues of our time. In *Moving*, renowned professor, government adviser, and global change agent Andy Hargreaves shares candid, poignant and occasionally hilarious personal

## Where To Download Educational Solutions Northwest

experiences of social mobility. Deeply revealing, emotionally direct, and intellectually insightful, the book begins in 1950s Northwest England and takes readers up to Hargreaves's university education in the late 1960s and early 1970s. Hargreaves openly shares how class movement has affected him throughout life, links his narrative to classic and contemporary research and realities, and calls on society to reverse the increasing levels of social immobility and inequity worldwide. Use this resource to inspire your work in increasing learning for every student: Learn, through the author's research and firsthand account, how issues surrounding mobility, equity, and education in the 20th century are still reflected in 21st-century life. Understand the obstacles of socially mobile students as they negotiate schoolwork, poverty, cultural collisions, and personal hardship. Witness how Hargreaves's experiences of testing, selection, ADHD, inspiring and uninspiring teaching, whole-child inclusion, and elitist exclusion are still alive and well in education today. Study three alternative scenarios for the future of social mobility that highlight the best ways to address both mobility and equity and to deal with the strains experienced by students who succeed in becoming mobile. Contents: Preface and Acknowledgments Table of Contents About the Author Chapter 1: Move On Up Chapter 2: No One Likes Us; We Don't Care Chapter 3: How the Light Gets Chapter 4: End of Eden Chapter 5: Worlds Apart Chapter 6: Higher Loves Chapter 7: The Full Monty Chapter 8: The Bigger Picture Index Endnotes

Rely on *Enriching the Learning* to help your school community answer critical question 4 of the Professional Learning Community at Work(R) process: How will we extend the learning for students who have demonstrated proficiency? The book's wide range of student enrichment strategies, templates, and tools is designed to fully prepare collaborative teams to plan and execute engaging extensions for any subject area or grade level. Lesson extensions and student engagement strategies for teaching proficient students in a PLC: Develop an understanding of the fourth question of a Professional Learning Community (PLC) at Work and why it is the most poorly addressed of the foundational PLC questions. Understand the importance of engaging proficient students in extended lessons and continuing their education. Learn how to differentiate instruction, enrich the curriculum, and build lesson extensions that will push proficient students to extend their abilities. Become familiar with three different extension models (skill extensions, interest extensions, and social extensions) and numerous strategies for implementation that integrate student voice and choice. Utilize the reproducible extension-planning templates and completed examples to build your own lesson extensions for personalized learning. The goals of the second volume of the AHDR – Arctic Human Development Report: Regional Processes and Global Linkages – are to provide an update to the first AHDR (2004) in terms of an assessment of the state of Arctic human development; to highlight the major trends and changes unfolding related to the various issues and thematic areas of human development in the Arctic over the past decade; and, based on this assessment, to identify policy relevant conclusions and key gaps in knowledge, new and emerging Arctic success stories. The production of AHDR-II on

## Where To Download Educational Solutions Northwest

the tenth anniversary of the first AHDR makes it possible to move beyond the baseline assessment to make valuable comparisons and contrasts across a decade of persistent and rapid change in the North. It addresses critical issues and emerging challenges in Arctic living conditions, quality of life in the North, global change impacts and adaptation, and Indigenous livelihoods. The assessment contributes to our understanding of the interplay and consequences of physical and social change processes affecting Arctic residents' quality of life, at both the regional and global scales. It shows that the Arctic is not a homogenous region. Impacts of globalization and environmental change differ within and between regions, between Indigenous and non-Indigenous northerners, between genders and along other axes.

A practical guide for achieving equitable outcomes From Equity Talk to Equity Walk offers practical guidance on the design and application of campus change strategies for achieving equitable outcomes. Drawing from campus-based research projects sponsored by the Association of American Colleges and Universities and the Center for Urban Education at the University of Southern California, this invaluable resource provides real-world steps that reinforce primary elements for examining equity in student achievement, while challenging educators to specifically focus on racial equity as a critical lens for institutional and systemic change. Colleges and universities have placed greater emphasis on education equity in recent years. Acknowledging the changing realities and increasing demands placed on contemporary postsecondary education, this book meets educators where they are and offers an effective design framework for what it means to move beyond equity being a buzzword in higher education. Central concepts and key points are illustrated through campus examples. This indispensable guide presents academic administrators and staff with advice on building an equity-minded campus culture, aligning strategic priorities and institutional missions to advance equity, understanding equity-minded data analysis, developing campus strategies for making excellence inclusive, and moving from a first-generation equity educator to an equity-minded practitioner. From Equity Talk to Equity Walk: A Guide for Campus-Based Leadership and Practice is a vital wealth of information for college and university presidents and provosts, academic and student affairs professionals, faculty, and practitioners
