editing it's likely you will miss a lot of its features. And unlike Photoshop you won't have an endless choice of books to learn from. Which is where "Essential Affinity Photo" comes to the rescue. In this comprehensive yet easy to follow book, Landscape Photographer Robin Whalley explains the core features of Affinity Photo Desktop. Written in his unique, easy to understand style, Robin explains logically the essential techniques you need to know to learn Affinity Photo. Follow this book and its examples and you will soon be editing images as though you have been using the software for years. The book is arranged into a series of lessons that focus in on the essential image editing skills. Each lesson builds on the previous one, minimising repetition and saving you valuable time. You will learn about: - Different Affinity Photo Personas, what these do and how to navigate them. - The Develop Persona, using it to convert a Raw photo file into a high-quality image. - How layers form the backbone of the Photo Persona and how to use them to improve your editing. - Different Adjustment layers, filters and live filters you can apply, to fine tune and improve your photography. - How to convert your images to black and white as well as important techniques such as Dodging and Burning. - Creating and using layer masks to precisely target your adjustments to specific areas of an image. - Harnessing the power of the Export Persona. - And lots more. Throughout the book there are examples and exercises for you to follow. The author provides the images for these on his website, allowing you to follow along on your own computer. You won't need to wade through hundreds of pages to find answers. This is a comprehensive and concise guide to help you learn Affinity

## The PC and Gadget Help Desk

In an era of digital capture, digital darkrooms, and online galleries, serious

photographers still have a deep respect for the photographic print. There is a profound difference between posting your image to a website and printing and sharing your photographic work. For many, the photographic print is the only way to complete the photographic process that begins with the image's capture. In *Fine Art Inkjet Printing: The Craft and the Art of the Fine Digital Print*, photographers learn all they need to know to be able to create beautiful prints worthy of building a print portfolio, selling to clients, or hanging in a home or gallery.

Author Jim Nickelson—photographer, master printer, and educator—guides you through the entire process step by step, beginning with the principles of creating a fine print. In *Fine Art Inkjet Printing*, you'll learn all about:

- Hardware considerations, including Epson and Canon printers
- The color management process, from camera to software (Adobe Lightroom and Photoshop) to your printer's color profiles
- The best ways to capture images for maximum post-processing flexibility
- Both global and local adjustments in Lightroom and Photoshop
- Sharpening and noise reduction for printing
- Creating black-and-white conversions for optimal printing results
- Soft-proofing
- Print settings for both hardware and software
- Different paper options, including surfaces, substrates, brightness, color, thickness, and optical brightening agents (OBAs)
- Finishing and protecting your print (flattening, drying and outgassing, trimming, signing, and using protective sprays)
- Printer

Things only get weirder when she wakes up to find the deceased standing over her hospital bed, insisting she help him track down the terrorists who blew up his plane. Professor Takeshi Shimodo doesn't know what to believe when smart-mouthed Hannah appears on his doorstep, claiming to be haunted by the ghost of his best friend. Yet she exhibits some extraordinary psychic abilities. And her determination to find justice for the crash victims, in spite of her fragile health, touches his heart. Takeshi's acupressure techniques are meant to calm Hannah's erratic heartbeat, but the longer they are together, the more his magic fingers have the opposite effect. Soon, their passion flares hotter than any lightning strike. But now the terrorist they seek is hunting them. And the FBI is suspicious Hannah knows just a little too much.
