Introduction to World Religions

Making Sense of God

Explains the basic beliefs, customs, and rituals of twelve different world religions, and includes information about tribal and native religions of Africa, North America, and Australia.

The Chronicles of Narnia (adult)

Finding Faith

Includes Part 1, Number 2: Books and Pamphlets, Including Serials and Contributions to Periodicals July - December)

Books in print : an author-title-series index ; BIP. 1991/92,2. Authors G - N

Anyone can master the fundamentals of game design - no technological expertise is necessary. The Art of Game Design: A Book of Lenses shows that the same basic principles of psychology that work for board games, card games and athletic games also are the keys to making top-quality videogames. Good game design happens when you view your game from many different perspectives, or lenses. While touring through the unusual territory that is game design, this book gives the reader one hundred of these lenses - one hundred sets of insightful questions to ask yourself that will help make your game better. These lenses are gathered from fields as diverse as psychology, architecture, music, visual design, film, software engineering, theme park design, mathematics, writing, puzzle design, and anthropology. Anyone who reads this book will be inspired to become a better game designer - and will understand how to do it.

Medieval and Renaissance Spirituality

A leading textbook for world religion, this new edition is designed to help students in their study and research of the world's religious traditions. Known and valued for its balanced approach and its respected board of consulting editors, this text addresses ways to study religion, provides broad coverage of diverse religions, and offers an arresting layout with rich illustrations. The second edition has new and extended primary source readings, a stronger section on the Religions of South Asia, additional maps, a new full-color, student-friendly format, and more.

Exploring World History

"[A] solid how-to book For amateur dream researchers, this is a must." WHOLE EARTH REVIEW This book goes far beyond the confines of pop dream psychology, establishing a scientifically researched framework for using lucid dreaming--that is, consciously influencing the outcome of your dreams. Based on Dr. Stephen LaBerge's extensive laboratory work at Stanford University mapping mind/body relationships during the dream state, as well as the teachings of Tibetan dream yogis and the work of other scientists, including German psychologist Paul Tholey, this practical workbook will show you how to use your dreams to: Solve problems; Gain greater confidence; improve creativity, and more. From the Paperback edition.

Yes, And

The Physics of Christianity

We are unavoidably hope-based creatures. Imagine two women given the same boring task to do eight hours a day in the same conditions - but you tell one woman she will be paid GBP15,000 for a year of this work, and you tell the other that she will be paid GBP15 million. Each woman in identical circumstances will be experiencing those circumstances in completely different ways, because what we believe about the future determines how we live in the present. In this dynamic new book, New York pastor and bestselling author Tim Keller explores the biblical understanding of hope. A profound grasp of what we are hopeful for, he argues, can re-energise and transform us personally, can help us face death, can influence our community practices with regard to sex, money and power - and even be applied globally, to renew our culture.

The Everything World's Religions Book

Explores in detail the five major religious traditions, Buddhism, Christianity, Hinduism, Islam and Christianity as well as Australian Aboriginal beliefs and spirituality.

Living Religion

Published by OpenStax College, U.S. History covers the breadth of the

chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Discovering Our Past

Spirituality, Religion, and Aging: Illuminations for Therapeutic Practice by Holly Nelson-Becker is a highly integrative book written for students, professionals in aging, ministers, and older adults themselves. Readers will gain the knowledge and skills they need to assess, engage, and address the spiritual and religious needs of older persons. Taking a fresh approach that breaks new ground in the field, the author discusses eight major world religions and covers values and ethics, theories, interventions, health and caregiving, depression and anxiety, dementia, and the end of life. Meditations and exercises throughout the book allow readers to expand and explore their personal understanding of spirituality. Referencing the latest research, the book includes assessments and skill-based tools designed to help practitioners enhance the mental health of older people.

Why Religion Matters

Text for the NSW studies of religion syllabus, focusing on five major religious traditions: Buddhism, Christianity, Hinduism, Islam and Judaism. Designed to reflect Australia's multifaith, multicultural society and to foster an awareness of the way in which religious traditions affect the lives of their followers. Includes glossaries, suggestions for further reading, and index.

The Eight Gates of Zen

Today many school students are shielded from one of the most important concepts in modern science: evolution. In engaging and conversational style, *Teaching About Evolution and the Nature of Science* provides a well-structured framework for understanding and teaching evolution. Written for teachers, parents, and community officials as well as scientists and educators, this book describes how evolution reveals both the great diversity and similarity among the Earth's organisms; it explores how scientists approach the question of evolution; and it illustrates the nature of science as a way of knowing about the natural world. In addition, the book provides answers to frequently asked questions to help readers understand many of the issues and misconceptions about evolution. The book includes sample activities for teaching about evolution and the nature of science. For example, the book includes activities that investigate fossil footprints and population growth that teachers of science can use to introduce principles of evolution. Background information, materials, and step-by-step presentations are provided for each activity. In addition, this volume: Presents the evidence for

evolution, including how evolution can be observed today. Explains the nature of science through a variety of examples. Describes how science differs from other human endeavors and why evolution is one of the best avenues for helping students understand this distinction. Answers frequently asked questions about evolution. Teaching About Evolution and the Nature of Science builds on the 1996 National Science Education Standards released by the National Research Council--and offers detailed guidance on how to evaluate and choose instructional materials that support the standards. Comprehensive and practical, this book brings one of today's educational challenges into focus in a balanced and reasoned discussion. It will be of special interest to teachers of science, school administrators, and interested members of the community.

EI-Hi Textbooks in Print

12-week Bible study intended for those seeking to deepen their understanding of God by nurturing a thinking faith.

The Art of Game Design

It's okay to have questions about God--that's the nature of faith. Some people worry that voicing their questions will anger or offend God. Nothing could be further from the truth. God created us with intelligence and reasoning ability. He encourages us to use all our mental faculties to seek and find. In this book, come explore the answers to these commonly asked questions: Is God real? Is the Bible true? Do all roads (and all religions) lead to Heaven? How can a good God allow suffering? The God Questions will help you ask your tough questions of God and give you confidence to know that He's big enough to answer all of them! Book jacket.

Mere Christianity Study Guide

Huston Smith, the author of the classic bestseller *The World's Religions*, delivers a passionate, timely message: The human spirit is being suffocated by the dominant materialistic worldview of our times. Smith champions a society in which religion is once again treasured and authentically practiced as the vital source of human wisdom.

Experiencing the World's Religions

Journeys to the end of the world, fantastic creatures, and epic battles between good and evil -- what more could any reader ask for in one book? The book that has it all is *The Lion, the Witch and the Wardrobe*, written in 1949 by C. S. Lewis. But Lewis did not stop there. Six more books followed, and together they became known as *The Chronicles of Narnia*. For the past fifty years, *The Chronicles of Narnia* have transcended the fantasy genre to become part of the canon of classic literature. Each of the seven books is a masterpiece, drawing the reader into a world where magic meets reality, and the result is a fictional world whose scope has fascinated generations. This edition presents all seven books -- unabridged -- in one impressive volume. The books are presented here according to Lewis's preferred order, each chapter graced with an illustration by the original artist,

Pauline Baynes. This edition also contains C. S. Lewis's essay "On Three Ways of Writing for Children," in which he explains precisely how the magic of Narnia and the realm of fantasy appeal not only to children but to discerning readers of all ages. Deceptively simple and direct, The Chronicles of Narnia continue to captivate fans with adventures, characters, and truths that speak to all readers, even fifty years after the books were first published.

World History through Case Studies

The Kids Book of World Religions

Bring out the best in every student, enabling them to develop in-depth subject knowledge with this accessible and engaging Student's Book, created for the 2016 specification by a team of subject specialists and the leading Religious Studies publisher. - Helps students of all abilities fulfil their potential and increase their understanding through clear, detailed explanations of the key content and concepts - Motivates students to build and cement their knowledge and skills using a range of imaginative, innovative activities that support learning and revision - Provides a variety of quotes from sources of authority that students can draw on to enhance their responses and extend their learning - Encourages students to make links between the world religions and philosophical and ethical issues so they develop a holistic view of religion in modern Britain - Prepares students for examination with a rich bank of exam-style questions, guidance on how to improve responses and student-friendly assessment criteria - Enables you to teach unfamiliar topics and systematic studies confidently with clear explanations of Christian, Catholic Christian, Islamic and Judaic beliefs and practices, verified by faith organisations WJEC Eduqas GCSE RS Component 1: Religious, philosophical and ethical studies in the Modern World 1 Issues of Relationship 2 Issues of Life and Death 3 Issues of Good and Evil 4 Issues of Human Rights Component 2: 5 Beliefs and teachings 6 Christianity: Practices Component 3: Study of a World Faith - Islam 7 Islam: Beliefs and teachings 8 Islam: Practices Component 3: Study of a World Faith - Judaism 9 Judaism: Beliefs and teachings 10 Judaism: Practices

A Religion of One's Own

This brief introduction to Buddhism is designed to help readers understand this important religious tradition. With both nuance and balance, this text provides broad coverage of various forms of Buddhism with an arresting layout with rich colors. It offers both historical overviews and modern perspectives on Buddhist beliefs and practices. The user-friendly content is enhanced by charts of religious festivals, historic timelines, updated maps, and a useful glossary. It is ideal for courses on Buddhism and Asian religions and will be a useful, concise reference for all readers eager to know more about this important religious tradition and its place in our contemporary world.

World Religions

Howard Zehr is the father of Restorative Justice and is known worldwide for his

pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

WJEC Eduqas GCSE (9-1) Religious Studies

"This book objectively challenges the link between ethics and our everyday activities. It takes ethics out of philosophy departments and puts it squarely onto the streets, into the villages, towns and cities, and connects ethics to all life on Earth. The book's primary audience is teacher trainers, college instructors, university professors and others responsible for professional development in education. It is also aimed at environmental educators who want to take their teaching more deeply into the questions that lie at the heart of sustainable living."--pub. desc.

Exploring "The World's Religions"

Expands students' understanding of their own religious history and practice by examining other religions of the world. Each religion is introduced with a brief history, and explored through each religion's scripture or major writings, beliefs and practices, and sacred spaces and times.

Exploring the Religions of Our World

Displays the theology and spirituality of the Middle Ages and Renaissance in the three major western religious traditions, Judaism, Christianity, and Islam.

How Gods Are Made

With illuminating references to Western religions and ideologies, *The Journey Within* invites readers from all backgrounds to discover the simple truths that unite us. The mysteries of the soul have evaded mystics, sages, and gurus for centuries. Humanity has long yearned to discover the answer to our existence, and many spiritual traditions have evolved to provide those answers through sacred texts that facilitate journeys of transformation and discovery. Yet, never before have all of the spiritual traditions been distilled so simply into one easy-to-follow path—a

path of love and devotion. In this long-awaited follow-up to *The Journey Home*, *The Journey Within* guides readers through the essential teachings of bhakti yoga. World-renowned spiritual leader Radhanath Swami draws from his personal experiences to demystify the ancient devotional path of bhakti, capturing its essence and explaining its simple principles for balancing our lives. His down-to-earth writing simplifies spiritual concepts and answers timeless questions in a heartfelt narrative that brings this sacred philosophy beautifully to life. What is love? What is the soul? Who is God? How can we live in the physical world without losing touch with the spiritual? In concise and approachable language, Radhanath Swami sheds light on how to answer these vital questions and offers solutions to life's challenges with the simplest of resources. Reach beyond the material world and journey within to discover the beauty of the true self.

God and the Gay Christian

Exploring the World of Lucid Dreaming

Have you ever wondered why there are so many religions in the world? Each one claims to be true, and attempts to affirm it by tales of miracles and books of wisdom. But they can't all be right, can they? In this book, Daniel Clausen shows the origins of false religion and idolatry through the Bible, logic, and his personal experiences as a former occultist and cult leader, where he gained a real and active demonic backing, resulting in a loyal, but deceived following. Read on, and discover the truth of HOW GODS ARE MADE.

Living Religion

This innovative textbook demystifies the subject of world history through a diverse range of case studies. Each chapter looks at an event, person, or place commonly included in comprehensive textbooks, from prehistory to the present and from across the globe – from the Kennewick Man to gladiators and modern-day soccer and globalization – and digs deeper, examining why historians disagree on the subject and why their debates remain relevant today. By taking the approach of 'unwrapping the textbook,' David Eaton reveals how historians think, making it clear that the past is not nearly as tidy as most textbooks suggest. Provocative questions like whether ancient Greece was shaped by contact with Egypt provide an entry point into how history professors may sharply disagree on even basic narratives, and how historical interpretations can be influenced by contemporary concerns. By illuminating these historiographical debates, and linking them to key skills required by historians, *World History through Case Studies* shows how the study of history is relevant to a new generation of students and teachers.

The Little Book of Restorative Justice

Finding Faith aims to help spiritual seekers progress through their spiritual search by confronting questions -- in non-Christian language -- about God, the nature of faith, truth, and religious life.

Teaching About Evolution and the Nature of Science

Catalog of Copyright Entries. Third Series

A highly respected physicist demonstrates that the essential beliefs of Christianity are wholly consistent with the laws of physics. Frank Tipler takes an exciting new approach to the age-old dispute about the relationship between science and religion in *The Physics of Christianity*. In reviewing centuries of writings and discussions, Tipler realized that in all the debate about science versus religion, there was no serious scientific research into central Christian claims and beliefs. So Tipler embarked on just such a scientific inquiry. *The Physics of Christianity* presents the fascinating results of his pioneering study. Tipler begins by outlining the basic concepts of physics for the lay reader and brings to light the underlying connections between physics and theology. In a compelling example, he illustrates how the God depicted by Jews and Christians, the Uncaused First Cause, is completely consistent with the Cosmological Singularity, an entity whose existence is required by physical law. His discussion of the scientific possibility of miracles provides an impressive, credible scientific foundation for many of Christianity's most astonishing claims, including the Virgin Birth, the Resurrection, and the Incarnation. He even includes specific outlines for practical experiments that can help prove the validity of the "miracles" at the heart of Christianity. Tipler's thoroughly rational approach and fully accessible style sets *The Physics of Christianity* apart from other books dealing with conflicts between science and religion. It will appeal not only to Christian readers, but also to anyone interested in an issue that triggers heated and divisive intellectual and cultural debates.

A Brief Introduction to Buddhism

U.S. History

The God Questions Gift Edition

The perfect companion to Huston Smith's *The World's Religions* -- a classroom-tested workbook for the understanding of humankind's wisdom traditions.

The Journey Within

This accessible introduction to the philosophy and practice of Zen Buddhism includes a program of study that encompasses practically every aspect of life. The American Zen teacher John Daido Looi shows us that Zen practice should include not only meditation, the study of Zen literature and liturgy, and moral and ethical action, but should also manifest in work, artistic, and everyday activities. The Eight Gates are: 1. Zazen, a type of meditation described as "sitting Zen" 2. Face-to-face meetings between teacher and student 3. Academic study of the sutras related to Zen training, other schools of Buddhism, Buddhist history, psychology, and philosophy 4. Zen rites and rituals and their meaning 5. The moral and ethical

requirements set in the Buddhist Precepts 6. Art practice as an extension of Zen practice 7. Body practice as an extension of Zen practice 8. Work as an active function of zazen Beautifully illustrated with Loori's own photographs, this edition also includes a new introduction and an updated reading list.

Environmental Education, Ethics & Action

Yes, and is an excellent daily prayer resource for fans of Richard Rohr's work, and those who are looking for an alternate way to live out their faith--a way centered in the open-minded search for spiritual relevance of a transforming nature. This perennial book features daily meditations, each written by Rohr and adapted or excerpted from his many written and recorded works.

The Universal Christ

Thomas Moore explores the myriad possibilities of creating a personal spiritual style, either inside or outside formal religion. Two decades ago, Moore's *Care of the Soul* touched a chord with millions yearning to integrate spirituality into their lives. He now recounts the benefits of contemplative living that he learned during his monastic years, but also the more imaginative spirituality that he later embraced. Moore weaves experiences of everyday people with the wisdom of philosophers, writers and artists who have infused their lives with transcendence.

World Religions

Reinterpretations of key Bible texts related to sexual orientation, written by a Harvard student, present an accessible case for a modern Christian conservative acceptance of sexual diversity.

Spirituality, Religion, and Aging

NEW YORK TIMES BESTSELLER • From one of the world's most influential spiritual thinkers, a long-awaited book exploring what it means that Jesus was called "Christ," and how this forgotten truth can restore hope and meaning to our lives. "Anyone who strives to put their faith into action will find encouragement and inspiration in the pages of this book."—Melinda Gates In his decades as a globally recognized teacher, Richard Rohr has helped millions realize what is at stake in matters of faith and spirituality. Yet Rohr has never written on the most perennially talked about topic in Christianity: Jesus. Most know who Jesus was, but who was Christ? Is the word simply Jesus's last name? Too often, Rohr writes, our understandings have been limited by culture, religious debate, and the human tendency to put ourselves at the center. Drawing on scripture, history, and spiritual practice, Rohr articulates a transformative view of Jesus Christ as a portrait of God's constant, unfolding work in the world. "God loves things by becoming them," he writes, and Jesus's life was meant to declare that humanity has never been separate from God—except by its own negative choice. When we recover this fundamental truth, faith becomes less about proving Jesus was God, and more about learning to recognize the Creator's presence all around us, and in everyone we meet. Thought-provoking, practical, and full of deep hope and vision, *The*

Universal Christ is a landmark book from one of our most beloved spiritual writers, and an invitation to contemplate how God liberates and loves all that is.

Introduction to World Religions

An easy-to-use and comprehensive guide that explores the intriguing dogma and rituals, cultural convictions, and often-checkered backgrounds and histories of the world's religions.
