Sir William Temple, diplomat, statesman, and writer, retired to his garden in the 1680s and wrote what has become one of the key texts, not only of gardening, but also of the English aesthetic. It was he who introduced the idea of the charm of irregularity, and who gave it the allegedly Chinese name sharawaggi. The English style of landscape gardening can be traced in a direct line to this essay, which has not been in print for over 95 years.

Self coaching is about feeling better. It really is that simple. Everything we do in our lives is because we want to feel better. When we give-it feels good. When we help others-it feels good. When we accomplish something-it feels good. Whenever we feel bad-we are usually seeking a way to feel good. The reason we want to feel good, is because it is our true nature. Alignment with our spirit-our true essence-the God within us feels good. It feels peaceful, joyous, honest, abundant and free. Through coaching ourselves we can feel good much more of the time. By coaching ourselves we find what is not working in our lives. We find that trying to change the external circumstances to change how we feel is impossible. We learn that fighting our emotions or trying to deny them only makes them bigger. We find that our thinking is the most important thing we can pay attention to in order to feel better now. By taking a peek into our own minds we can find the cause of all our suffering. We can see how we block our joy with outdated and untruthful thoughts

and beliefs. By just being in this place of awareness we have aligned with our true nature and can observe the patterns of our lives. Hiring a coach can be an amazing experience. Having someone who is already "outside" of your mind give you a different perspective to consider is often the first step in change. But ultimately, it is the process of shifting your own perception with your own awareness that will create non-dependent freedom. This is why I feel so strongly about learning how to apply these simple self coaching tools in your own life and on your own mind. If you are willing to do the work now-it becomes a way of being. You will step into a life that is lived with awareness and consciousness because each time you feel any negative emotion you see it as a signal to coach yourself and realign with the true essence of you. Self coaching 101 teaches you the basics of how to do this. And the basics are enough.

Dino Chomp!

Forty years after its 1969 debut, racing fans still regard the Porsche 917 with awe as one of the greatest sports cars ever built. In PORSCHE 917 X 17: THE CARS AND DRIVERS IN STUDIO, renowned automotive photographer and director Jeff Zwart follows up his award-winning book, 'Porsche Rennsport', with exquisitely rendered images of 17 of the most beautiful and historic 917s. Highlights include the first Porsche to win Le Mans overall, the 917K shared by Richard Attwood and Hans Hermann; the Gulf-Wyer 917K shared by Pedro Rodriguez and Jackie Oliver in

1971; and the notorious "Pink Pig" - a 917/20 that was raced just once by Willi Kauhsen in 1971. Using dramatic angles and controlled lighting, Zwart provides a fresh perspective on these iconic cars. He reveals each 917's distinctive characteristics and patina, and shows artful technical details from inside the cockpit, chassis, and engine compartments. These photographs are accompanied by engaging portraits and vivid recollections from 15 Porsche drivers - including Derek Bell, Vic Elford, Brian Redman, and Hurley Haywood - who look back on the anticipation, fear, and excitement they felt driving the 917. With its heavy matte art paper, spot varnish, metallic silver ink, and cloth-covered slipcase, the book's high-quality production is as lavish as Zwart's photography. Of all the recently published 917 books this one stands alone in offering Porscheophiles an all-new take on the cars and drivers.

Immerse yourself in this complete guide on Lamborghini's ultimate performance cars. Nearly 50 years ago, upstart high-end sports car manufacturer Lamborghini set the performance car world on its ear with its stunning supercar, the Miura. Wrapped in a svelte Marcello Gandini - designed body and powered by a 350-horsepower V-12, the Miura instantly made every other car look antiquated. In 1974, Lamborghini again shocked the automotive world with the mad Countach (an Italian expression one might utter at the sight of a beautiful woman), another Gandini masterpiece. Wide, low, and menacing, the original Countach completely recalibrated the supercar template. The Diablo replaced the Countach in 1990 and was the last of the Lamborghini supercars under the auspices of the "original" company. Audi acquired the company in 1997 and would bring significant German efficiency to bear, turning out supercars to a new template: the Murielago in 2001, the Gallardo in 2003, the Reventon in 2008, the Aventador in 2011, and, most recently, the appropriately named Huracan. Each one is an ultimate car. Many were collector vehicles from the moment they rolled off the production line. Beneath their stunning bodywork lie chassis and powerplants bristling with the best technology of their respective eras. Lamborghini's latest supercars zip from 0 to 60 miles per hour in under 3 seconds and hit top speeds in excess of 220 miles per hour. Their prices are equally staggering. Lamborghini Supercars 50 Years is devoted exclusively to all of Lamborghini's ultimate performance cars. No enthusiast of these world-class sports cars will want to miss it!

Often overlooked by the staunchest Porsche enthusiasts, the 914 nevertheless continues to grow in popularity among club racers, entry-level collectors, and those who simply want a fun and relatively cheap sports car. This book covers 914 restorations and modifications, whether the goal is a restored stocker, modified street car, or a club racer. A history of the model traces the evolution of the Volkswagen-Porsche collaboration through the mid-1970s, while explaining what to look for when buying a 914 and what to do with it once purchased. Chapters are devoted to repair and restoration and modifications of body and trim, interiors, lighting and electrical, suspension, brakes, engines, fuel systems, transmission, wheels and tires, and detailing for concours participation.

Not So Nice Guy

It was no small leap for Porsche from its giant-killing Spyders to the powerful Type 917 that swept all before it. The gap was bridged by its 900-series sports-racing cars, here depicted in rare original photography from the Ludvigsen Library. Karl Ludvigsen has personally selected both dramatic action images and intimate technical details of the 904, 906, 907, 908 and 910, which with their air-cooled flat-six and flat-eight engines brought Porsche to the fore in both international sports-car racing and the European Hillclimb Championship, which Porsche won in 1966 and 1968. These were the years of spare-no-expense building of fresh cars for every race, funded secretly by Volkswagen, with exotic titanium and beryllium components. Led technically by the thrusting Ferdinand Piëch, Porsche built the ultra-light 908/03 expressly to win both the Targa Florio and Nürburgring — which it did. Porsche expert Karl Ludvigsen introduces this must-have pictorial panorama for all fans of the white racers from Zuffenhausen.

The great success that Porsche enjoyed with its first 550 Spyders spurred its small but effective racing cadre to a more ambitious design with its 1956 Type 550A. It's stiffer space frame was inside the 550A that Umberto Maglioli drove single-handed to win the 1956 Targa Florio -- Porsches greatest victory yet. Experiments in 56 with an even smaller racer, the Type 645, ended with a disastrous crash. Not for nothing was it nicknamed "Mickey Mouse". In 1957 Porsche created the immortal RSK, a race and hillclimb winner. The RS60 arrives in 1960 to meet new rules, winning Sebring outright. It evolved into the RS61 and then the Type 718, using the Grand Prix eight-cylinder engine. Races and hillclimbs throughout the world were mastered by these agile silver cars through 1964, depicted in magnificent images from the Ludvigsen Library.
