The emphasis of MANAGERIAL ACCOUNTING, 6e is on teaching students to use accounting information to best manage an organization. In a practice Hilton pioneered in the first edition, each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. Known for balanced examples of Service, Retail, Nonprofit and Manufacturing companies, Hilton offers a clear, engaging writing style that has been praised by instructors and students alike. As in previous editions, there is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting and performance evaluation.

Financial Accounting

Understanding Financial Statements 5th Edition is designed to serve a wide range of readers and purposes, including a text or supplementary text for courses in financial statement analysis, accounting, finance, and business management;

study material for short courses on financial statements in continuing education and executive development programs; a self-study guide or course material for bank credit analysis training programs; and a reference book for investors or those who make decisions based on the analysis of financial statements. This new edition incorporates all new requirements and changes in accounting reporting and standards and many proposed changes that may affect financial reporting in the future. Each chapter is followed by self-tests with solutions, study questions, and problems. A glossary of key terms is also provided.

Intermediate Financial Management

This well-received book, now in its ninth edition, provides a comprehensive analysis of the fundamental concepts of financial management and management accounting. The elegantly combined presentation of the various aspects of financial management and management accounting is a highlight of this text. Focusing on the core areas of financial management—basic concepts of finance, sources of finance, capital structure theories and planning, dividend policies, investment decisions, portfolio management and working capital management—as well as the areas of management accounting—changes in financial position, financial statement analysis and inter-firm comparison, budgetary control and standard costing, and cost information and management decisions—the book also delves on the contemporary topics, such as, financial environment, corporate

governance and international financial management, in detail. In addition, it contains a number of case studies on various areas of finance and management accounting. The current edition has been thoroughly revised keeping in view contemporary developments in the literature and applicable provisions of the Companies Act, 2013. Apart from updating the case studies, new cases have been added to support the relevance and quality of discussion. Intended primarily for postgraduate students of commerce (M.Com) and management (MBA with finance specialization), the book will also be highly useful for undergraduate students of Commerce and Management, students of professional courses, such as, CA and ICWA, as well as professionals in the fields of financial management and management accounting. The present treatise has been recommended by many Colleges, Management Institutes and Universities in India for their respective postgraduate and undergraduate commerce and management courses.

Company Accounting

The book highlights the modern, analytical approach to corporate finance decision-making. Its aim is:

- to help readers develop a thorough understanding of the theories and concepts underlying financial management in a systematic way
- to make the subject of finance interesting to learn, simple to comprehend and relevant in practice
- to help readers appreciate the logic for making better financial decisions

The book has excellent pedagogical tools like Excel applications,

Illustrative problems, Real-life examples, Cases, and Practical projects, and distinctly differentiates itself from other textbooks in terms of coverage, presentation, and equal focus on theory and practice. The text comprehensively covers MBA, M Com, CA, CFA, ICWA and other postgraduate and professional courses.

1. Excel applications: Proficiency with spreadsheets and Excel is a great advantage to financial analysts and managers and a necessity for all the postgraduate students of management, commerce and accounting courses. With this in mind, at appropriate places, Excel Applications have been created showing how spreadsheets with the help of Excel could be used to solve finance problems and take decisions. These have also been identified in the Contents.
2. Web links for financial data: Students must know how to access financial data and information on the Internet. With this in mind, a list of useful web links has been created and put in the bundled CD to help readers retrieve useful financial information.
3. Illustrative problems: Finance decisions involve solving problems using theoretical concepts. The book contains solved illustrations showing readers how concepts could be used to solve problems and take decisions.
4. Real-life examples: The book contains a large number of real-life cases and examples to illustrate the practical applications of finance theories and concepts.
5. Cases: Most chapters include mini cases that reflect the applications of the conceptual material in the chapters.
6. Key concepts: For the benefit of readers, the key concepts of each chapter have been listed at the end of the chapter.
7. Practical project: Most chapters have a 'Practical Project' each, where students are helped to apply their

knowledge to real company situations NEW TO THIS EDITION Many chapters have been updated. New concepts, like consumption beta, simulation in capital budgeting, and three-factor model, have been added. A number of new real-life examples of companies and cases have also been included.

Garrison - Your guide through the challenging waters of managerial accounting. For centuries, the lighthouse has stood as a beacon of guidance for mariners at sea. More than an aid to navigation, the lighthouse symbolizes safety, permanence, reliability, and the comforts of the familiar. For this reason, we have chosen to illustrate the Canadian eighth edition of Managerial Accounting by Garrison, Chesley, Carroll and Webb with an image that encapsulates the greatest strengths of this market leading text. Garrison is your guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform

within their organizations—plan operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Managerial Accounting 8ce focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.

The Demo Docs System of instruction replicates the classroom experience by

providing more “I get it” moments outside of class. We’ve talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: & Students understand (or “get it”) right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. & On top of this, you can end up getting behind in the course as well, in order to keep everyone on track. & The Demo Docs system helps to recreate the “I get it” moments outside of class-keeping both you and the students on track.
