Dark Carnival

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family.

It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.

In Hawaii, FBI agent Karen Vail pursues a killer without a profile, in this thriller by the USA Today–bestselling author of *The Darkness of Evil*. When Det. Adam Russell of the Honolulu PD encounters the body of a woman in her sixties—the second in recent days to inexplicably die of what seem like natural causes—he reaches out to Karen Vail, the renowned FBI profiler, who hops on the next plane. But even for someone as fluent in the language of murder as Vail, this case is hard to read. How were these women asphyxiated with no signs of trauma? How can she gather clues or collect evidence when the killer seems to strike during the briefest casual encounters? Is this the behavior of a male or a female perpetrator? And perhaps most terrifying of all, if the deaths appear so natural at first glance, how many

victims have already been overlooked? Now, as something cold and dark lurks under the sunny warmth of this island paradise, Vail must stop a serial killer as elusive as the breeze . . . “Karen Vail is one tough character.” —Kathy Reichs, *New York Times*-bestselling author “Jacobson should be mandatory reading for the James Patterson crowd.” —*Library Journal* “A unique and imaginative plot filled with witty dialogue and page-turning intrigue.” —Catherine Coulter, *New York Times*-bestselling author

The Blind Side: Evolution of a Game

The Wisdom of Crowds

Addie Greyborne is preparing for the holidays at her bookstore in seaside New England—but a winter storm is coming, in more ways than one . . . Addie’s getting into the spirit for the upcoming Charity Auction—especially since she’s got an 1843 copy of Charles Dickens’s *A Christmas Carol* to donate. Her former colleagues at

the Boston Public Library have confirmed that its worth runs toward the high five figures, which should help with the new pediatric wing. Her mood darkens, though, when a visitor from the past appears—Jonathan Hemingway, the father of her late fiancé. His presence stirs up sad memories for Addie, but also has her fuming when Jonathan, true to his womanizing ways, runs off for a lunchtime liaison with Teresa Lang, who's in charge of the auction. Soon after, Addie heads to Teresa's office at the hospital—and finds the poor woman's dead body. What she doesn't find is her valuable first edition. What sort of Scrooge would steal from sick children and commit murder in the process? As a Nor'easter bears down and a mystery emerges about Jonathan's past, Addie must find out if she can appraise people's motives and characters as well as she can appraise rare books . . .

You Know How to Love

“An absolutely mesmerizing read. . . . Tana French is simply this: a truly great writer.” —Gillian Flynn Read the New York Times bestseller by Tana French, author of the forthcoming novel *The Searcher* and “the most important crime novelist to emerge in the past 10 years” (*The Washington Post*). A year ago a boy was found murdered at a girls’ boarding school, and the case was never solved. Detective Stephen Moran has been waiting for his chance to join Dublin’s Murder Squad when sixteen-year-old Holly Mackey arrives in his office with a photo of the boy with the caption: “I KNOW WHO KILLED HIM.” Stephen joins with Detective Antoinette Conway to reopen the case—beneath the watchful eye of Holly’s father, fellow detective Frank Mackey. With the clues leading back to Holly’s close-knit group of friends, to their rival clique, and to the tangle of relationships that bound them all to the murdered boy, the private underworld of teenage girls turns out to be more mysterious and more dangerous than the detectives imagined.

The Rainmaker

Murder in the First Edition

The Bird Way

Uncle Dynamite

From the New York Times bestselling author of *The Genius of Birds*, a radical investigation into the bird way of being, and the recent scientific research that is dramatically shifting our understanding of birds -- how they live and how they think. "There is the mammal way and there is the bird way." But the bird way is much more than a unique pattern of brain wiring, and lately, scientists have taken a new look at bird behaviors they have, for years, dismissed as anomalies or mysteries -- What they are finding is upending the traditional view of how birds conduct their lives, how they communicate, forage, court, breed, survive. They are also revealing the remarkable intelligence underlying these activities, abilities we once considered uniquely our own: deception, manipulation, cheating, kidnapping,

infanticide, but also ingenious communication between species, cooperation, collaboration, altruism, culture, and play. Some of these extraordinary behaviors are biological conundrums that seem to push the edges of, well, birdness: a mother bird that kills her own infant sons, and another that selflessly tends to the young of other birds as if they were her own; a bird that collaborates in an extraordinary way with one species--ours--but parasitizes another in gruesome fashion; birds that give gifts and birds that steal; birds that dance or drum, that paint their creations or paint themselves; birds that build walls of sound to keep out intruders and birds that summon playmates with a special call--and may hold the secret to our own penchant for playfulness and the evolution of laughter. Drawing on personal observations, the latest science, and her bird-related travel around the world, from the tropical rainforests of eastern Australia and the remote woodlands of northern Japan, to the rolling hills of lower Austria and the islands of Alaska's Kachemak Bay, Jennifer Ackerman shows there is clearly no single bird way of being. In every respect, in plumage, form, song, flight, lifestyle, niche, and behavior, birds vary. It is what we love about them. As E.O Wilson once said, when you have seen one bird, you have not seen them all.
