### American Government

English Unlimited is a six-level (A1 to C1) goals-based course for adults. Centred on purposeful, real-life objectives, it prepares learners to use English independently for global communication. The Advanced Self-study Pack consists of a Workbook with DVD-ROM. It enables learners to consolidate and build upon work done in class. The Workbook provides extra 'Explore Writing' tasks plus a complete 'Explore Reading' syllabus, as well as 'Over to you' exercises allowing personalisation of language practice. In addition to over 300 interactive practice activities, the DVD-ROM includes authentic video, including 'made for TV' short films and documentaries, a self-recording and playback tool for pronunciation practice, animated clips offering speaking practice in everyday situations, and customisable 'QuickCheck' tests to monitor progress.

### The Spirit of Laws

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

## **Dead or Alive**

The Mises Institute is thrilled to bring back this popular guide to ridiculous economic policy from the ancient world to modern times. This outstanding history illustrates the utter futility of fighting the market process through legislation. It always uses despotic measures to yield socially catastrophic results. It covers the ancient world, the Roman Republic and Empire, Medieval Europe, the first centuries of the U.S. and Canada, the French Revolution, the 19th century, World Wars I and II, the Nazis, the Soviets, postwar rent control, and the 1970s. It also includes a very helpful conclusion spelling out the theory of wage and price controls. This book is a treasure, and super entertaining!

### **Answer Key**

Real People. Real Stories. Real Politics. Politics involves people, from many backgrounds, struggling to make their voices heard. Real people, telling their stories, reflect our ideals, choices, and collective experiences as a nation. In *American Government: Stories of a Nation*, author Scott Abernathy tunes in to these voices, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. Each chapter features real stories illustrating how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. Students learn the nuts and bolts of political science through these compelling stories. Learning concepts in context is a tested learning technique that works to help ideas stick. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. Just like the Full version, The Essentials edition is perfect for instructors who don't wish to cover the last three chapters on policy.

For less than the cost of one night at the movies you can get the knowledge you need to start living your business dreams! Don't wait. You'll wait your life away

## American Government

### Anthem

The brain There is no other part of the human anatomy that is so intriguing. How does it develop and function and why does it sometimes, tragically, degenerate? The answers are complex. In *Discovering the Brain*, science writer Sandra Ackerman cuts through the complexity to bring this vital topic to the public. The 1990s were declared the "Decade of the Brain" by former President Bush, and the neuroscience community responded with a host of new investigations and conferences. *Discovering the Brain* is based on the Institute of Medicine conference, *Decade of the Brain: Frontiers in Neuroscience and Brain Research*. *Discovering the Brain* is a "field guide" to the brain--an easy-to-read discussion of the brain's physical structure and where functions such as language and music appreciation lie. Ackerman examines How electrical and chemical signals are conveyed in the brain. The mechanisms by which we see, hear, think, and pay attention--and how a "gut feeling" actually originates in the brain. Learning and memory retention, including parallels to computer memory and what they might tell us about our own mental capacity. Development of the brain throughout the life span, with a look at the aging brain. Ackerman provides an enlightening chapter on the connection between the brain's physical condition and various mental disorders and notes what progress can realistically be made toward the

prevention and treatment of stroke and other ailments. Finally, she explores the potential for major advances during the "Decade of the Brain," with a look at medical imaging techniques--what various technologies can and cannot tell us--and how the public and private sectors can contribute to continued advances in neuroscience. This highly readable volume will provide the public and policymakers--and many scientists as well--with a helpful guide to understanding the many discoveries that are sure to be announced throughout the "Decade of the Brain."

Anthem by Ayn Rand from Coterie Classics All Coterie Classics have been formatted for ereaders and devices and include a bonus link to the free audio book. "I stand here on the summit of the mountain. I lift my head and I spread my arms. This, my body and spirit, this is the end of the quest. I wished to know the meaning of all things. I am the meaning. I wished to find a warrant for being. I need no warrant for being, and no word of sanction upon my being. I am the warrant and the sanction. Neither am I the means to any end others may wish to accomplish. I am not a tool for their use. I am not a servant of their needs. I am not a sacrifice on their alters." — Ayn Rand, Anthem Ayn Rand's dystopian novel imagines a world where the concept of self has been erased. When one man stands against the establishment, he dares to utter the word "I." This Xist Classics edition has been professionally formatted for e-readers with a linked table of contents. This eBook also contains a bonus book club leadership guide and discussion questions. We hope you'll share this book with your friends, neighbors and colleagues and can't wait to hear what you have to say about it. Xist Publishing is a digital-first publisher. Xist Publishing creates books for the touchscreen generation and is dedicated to helping everyone develop a lifetime love of reading, no matter what form it takes

## **Learning Surgery**

U.S. foreign policy is being sold; not just altered, shifted, manipulated, or influenced – sold. Every single day the agents of foreign governments work to not only monitor U.S. foreign policy, but to actively change and even create it. They meet with policymakers, donate to their campaigns, write their speeches, and even write legislation. Yet, foreign lobbying garners scant attention, and no book has

been written on the subject – until now. Ben Freeman, an expert on foreign influence in U.S. politics, goes inside the seedy underbelly of this half billion dollar foreign lobbying industry. Through exhaustive analysis he shows how foreign money infects the U.S. political process – systematically undermining U.S. foreign policy. The Foreign Policy Auction is an impassioned expose of an industry whose primary goal is bending U.S. politics to the will of foreign governments. It's a sobering realization of how foreign policy is actually made in the U.S. The Auction is open, how much will your government cost today?

## **Bring Learning Alive!**

### **Why American History Is Not What They Say**

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

### **Running, Winning, Serving**

What did Alexander Hamilton ever do besides get shot in a duel by Aaron Burr? When it comes to the American government, the answer is: practically everything. Born in the West Indies, Hamilton was the illegitimate child of a Scottish nobleman who lost a fortune in sugar plantations. Orphaned as a teenager, he came to America in search of an education, a home, and the war that would at last bring him fame and honor. As George Washington's most trusted aide, Hamilton helped to win the American Revolution-but after the war, his enemies lost no time accusing him of trying to sell his country back to the British. He was the most powerful member of Washington's presidential cabinet-so why did Adams and Jefferson hate him so much? In this book, you will learn how the author of the Federalist Papers and the first Secretary of the Treasury nearly ruined his career by fighting duels, seducing women, and getting involved in America's first sex scandal. The duel that killed Alexander Hamilton is the most famous duel in American history, but you'll have to come up with your own answer to its greatest mystery: who shot first, Hamilton or Burr?

### **Locksmith Business Book**

This is one of the most important books ever written on the clandestine world of the UFO cover-up. Grant Cameron and Scott Crain do more than demonstrate the reality of an extraterrestrial presence on Earth. Through tenacious investigation and impeccable research, they shine a light into the CIA, NSA, Air Force, Navy, and

other inside groups that have managed this secret for decades. Their conclusion is inescapable and shocking: this is a secret that the insiders themselves struggle to understand and contain. "Government agencies, at various times, precieve a need to release some UFO information to the public. Some, definitely not all. How do they do it? Always via avenues that leave no one at risk. That means ensuring there is no direct connection between the agency and whomever is doing the actual releasing. It also means the necessity of mixing in some false information. It means, ultimately, to tell the truth, but tell it slant. Until there is a full disclosure of the UFO/ET reality, deniability will remain paramount to those in possession of this great secret." - By the authors, from the book's Introduction.

## **UFOs, Area 51, and Government Informants**

The novel's protagonist is a British Roman Catholic priest, Father Percy Franklin, who looks identical to the mysterious U.S. Senator Julian Felsenburgh of Vermont. The senator appears as a lone and dramatic figure promising world peace in return for blind obedience. No one quite knows who he is or where he comes from, but his voice mesmerizes. Under his leadership, war is abolished. Felsenburgh becomes the President of Europe, then of the world, by popular acclaim. Everyone is fascinated with him, yet still no one knows much about him. People are both riveted and frightened by the way he demands attention. Most follow without question. Having been a close observer of President Felsenburgh's rise, Father Franklin is called to Rome, a Hong Kong-style enclave ruled by Pope John XXVI and raised to the College of Cardinals. Meanwhile, defections among bishops and priests increase. At Cardinal Franklin's instigation, the pope abolishes the Eastern Catholic Churches and forms a new religious order, the Order of Christ Crucified. All its members, including the Pope, vow to die in the name of the faith.

In this previously unpublished manuscript, found in the Rothbard Archives, Rothbard deftly turns the tables on the supporters of big government and their mandate for control of research and development in all areas of the hard sciences. What R&D should be encouraged and funded, what inventions should be supported, and what areas should be given research grants, etc.? These decisions can only be decided by markets unburdened by government meddling and intervention. Rothbard shows that science best advances under the free market: the claims to the contrary of the centralizers are spurious. The best course of action for government is to get out of the way

## **Lord of the World**

## **Understanding US/UK Government and Politics**

Tom Clancy returns with a #1 New York Times bestseller that will remind readers why he is the acknowledged master of international intrigue and nonstop military action. It is *The Campus*. Secretly created under the administration of President Jack Ryan, its sole purpose is to eliminate terrorists and those who protect them. Officially, it has no connection to the American government—a necessity in a time when those in power consider themselves above such arcane ideals as loyalty, justice, and right or wrong. Now covert intelligence expert Jack Ryan Jr. and his compatriots at *The Campus*—joined by black ops warriors John Clark and “Ding” Chavez—have come up against their greatest foe: a sadistic killer known as the Emir. Mastermind of countless horrific attacks, the Emir has eluded capture by every law enforcement agency in the world. But his greatest devastation is yet to be unleashed as he plans a monumental strike at the heart of America. On the trail of the Emir, Jack Ryan Jr. will find himself following in his legendary father’s footsteps on a manhunt that will take him and his allies across the globe, into the shadowy arenas of political gamesmanship, and back onto U.S. soil in a race to prevent the possible fall of the West...

### **History Alive!**

## **English Unlimited Advanced Self-study Pack (Workbook with DVD-ROM)**

*Understanding US/UK Government and Politics* is a further volume in the *Understanding Politics* series. Clear and accessible in style, it offers invaluable insights into the similarities and differences between British and American politics. These are summarized in useful boxes at the end of each chapter, where there are also details of relevant websites and likely examination questions. The book begins by examining the setting against which government and politics operates in Britain and the United States, noting aspects of the history and social structure of each country before exploring the concept of political culture. The underlying ideas and values of British and American people are compared, and the book goes on to analyse the constitution and the protection of rights, before considering the executive, legislative and judicial branches of government in detail.

## **Across Five Aprils**

When you're running for local office for the first time, there are plenty of mistakes you can make. The good thing is that you're not the first person ever to face the challenges of running for office - even though sometimes it might seem like it. In this book, Craig W. Turner collects stories, advice, warnings and best practices from local candidates from around the country who have been there and done that. They've already seen what you're about to see, and they've generously shared their experiences for the benefit of you and other first-time candidates for

local office. This is no poli-sci class. This is "in the trenches" life experience. Everyone interviewed for this book as part of The Campaign Coach Podcast, has run and won at least one election. Some are now retired, some have moved on to higher office, and some are still serving in the capacity we discussed in their interview. In these pages, you will find insights that no guidebook or online course can give you - they will inspire you, and scare you, and motivate you and smack you in the face with a reality check. But, they will also make you a stronger candidate. Whether it's talking with voters, fundraising, understanding local government policy, promoting your candidacy or even knowing how to best serve your community, learning from these people's experiences - and avoiding mistakes that they've already made for you - will give you a leg up on any opponent.

## **Municipal Review**

The unforgettable story of young Jethro Creighton who comes of age during the turbulent years of the Civil War. "An intriguing and beautifully written book, a prize to those who take the time to read it, whatever their ages."—The New York Times "This is a beautifully written book, filled with bloodshed, hate, and tears, but also with love, loyalty, and compassion, with unforgettable characters, and with ideas and implications that have meaning for young people today."—Chicago Tribune "A powerfully moving story about the Creighton family of Southern Illinois and their personal struggles in the War Between the States."—Chicago Daily News "Drawing from family records and from stories told by her grandfather, the author has, in an uncommonly fine narrative, created living characters and vividly reconstructed a crucial period of history."—ALA Booklist "An impressive book both as a historically authenticated Civil War novel and as a beautifully written family storyThe realistic treatment of the intricate emotional conflicts within a border-state family is superb. The details of battles and campaigns are deftly integrated into letters and conversations, and the characters are completely convincing."—University of Chicago Center for Children's Books From the Paperback edition.

## **Alive Magazine**

#1 New York Times bestseller for 13 consecutive weeks! "As long as humanity speaks of virtue and dreams of freedom, the life and writings of Whittaker Chambers will ennoble and inspire." - PRESIDENT RONALD REAGAN "One of the dozen or so indispensable books of the century" - GEORGE F. WILL "Witness changed my worldview, my philosophical perceptions, and, without exaggeration, my life." - ROBERT D. NOVAK, from his Foreward "Chambers has written one of the really significant American autobiographies. When some future Plutarch writes his American Live, he will find in Chambers penetrating and terrible insights into America in the early twentieth century." - ARTHUR SCHLESINGER JR. "Chambers had a gift for language.to call Chambers an activist or Witness a political event is to say Dostoevsky was a criminologist or Crime and Punishment a morality tract." - WASHINGTON POST "Chambers was not just the witness against Alger Hiss, but was also one of th articulators of the modern conservative philosophy, a philosophy that has something to do with restoring the spiritual values of politics." - SAM TANENHAUS, author of Whittaker Chambers "One of the few indispensable autobiographies ever written by an American - and one of the best written, too." - HILTON KRAMER, The New Criterion First published in 1952, Witness is the true

story of Soviet spies in America and the trial that captivated a nation. Part literary effort, part philosophical treatise, this intriguing autobiography recounts the famous Alger Hiss case and reveals much more. Chambers' worldview and his belief that "man without mysticism is a monster" went on to help make political conservatism a national force. Regnery History's Cold War Classics edition is the most comprehensive version of *Witness* ever published, featuring forewords collected from all previous editions, including discussions from luminaries William F. Buckley Jr., Robert D. Novak, Milton Hindus, and Alfred S. Regnery.
