helpful, user-friendly guide for thoughtful answers and clear explanations. In *When Skeptics Ask*, apologetics experts Geisler and Brooks explain how to defend the authority and inspiration of the Scripture. Readers will discover answers for objections to classic Christianity and learn to identify and respond to the misuse of Scripture by nonbelievers.

Narrative Apologetics

Peter Kreeft's *Socrates* probes the contemporary values of success, power and pleasure.

Socrates Meets Jesus

Throughout history there have been great and articulate defenders of the faith, from Augustine and Aquinas to Jonathan Edwards, G. K. Chesterton, Francis Schaeffer, and C. S. Lewis. But with new challenges comes the need for a fresh apologetic that specifically addresses the arguments levied against faith in our time of scientific atheism and skepticism. In the spirit of C. S. Lewis's *Mere Christianity*, Alister McGrath's *Mere Apologetics* seeks to equip readers to engage gracefully and intelligently with the challenges facing the faith today while drawing appropriately on the wisdom of the past. Rather than supplying the fine detail of every apologetic issue in order to win arguments, *Mere Apologetics* teaches a method that appeals not only to the mind but also to the heart and the imagination. This highly accessible, easy-to-read book is perfect for pastors, teachers, students, and lay people who want to speak clearly

and lovingly to the issues that confront people of faith today.

Your Questions, God's Answers

The New Dictionary of Christian Apologetics is a must-have resource for professors and students, pastors and laypersons--in short, for any Christian who wishes to understand or develop a rational explanation of the Christian faith in the context of today's complex and ever-changing world. Packed with hundreds of articles that cover the key topics, historic figures and contemporary global issues relating to the study and practice of Christian apologetics, this handy one-volume resource will make an invaluable addition to any Christian library. Editors Gavin McGrath and W. C. Campbell-Jack, with consulting editor C. Stephen Evans, have divided the dictionary into two parts: Part one offers a series of introductory essays that set the framework for the dictionary. These essays examine the practice and importance of Christian apologetics in light of theological, historical and cultural concerns. Part two builds on these essays to present numerous alphabetized articles on individuals, ideas, movements and disciplines that are vital to a rational explanation of the Christian faith. Both essays and articles are written by leading Christian philosophers and theologians. Together, they form an indispensable resource for Christians living in today's pluralistic age.

A comprehensive and updated version of the reference source to Catholicism presents hundreds of questions every Catholic should know the answers to and carries the imprimatur of the Vatican.

On Guard

No Catholic should pass beyond the age of 16 without being able to answer clearly, both to himself and to others, the challenges of those who do not believe in the existence of God, of Christ or the teachings of the Catholic Church. In this compact book, Fr John Laux gives both the student and the adult reader dozens of excellent, well reasoned answers to the classic objections against the Catholic Faith. He covers all the fundamental truths of the Faith. Providing both facts and sound logical reasoning for every question he considers. Every Catholic should have a firm grounding regarding the reasonableness of his beliefs, lest he fall victim to the superficial objections of the world which have been refuted over and over again for years, even for centuries. From this book, the reader will derive the confidence that there are not only answers, but excellent, thought provoking, logical answers to any and all difficulties about the Faith which may arise. Fr Laux's presentation is thus a powerful tool to help souls hold fast with firm confidence to their Faith which time and again has proved to be the bulwark of sanity in this world, as well as the inestimable Pearl of Great Price for which true believers will sacrifice anything to possess.

Combining logical argument with literary imagination, Peter Kreeft uses a dialogue between C.S. Lewis, John F. Kennedy and Aldous Huxley (all of whom died within hours of each other) to investigate the claims of Christ.

Catholics Come Home

Kreeft uses Scripture to provide God's answers to the most common and important questions young people ask about the deeper meaning of life, their own identity, overcoming failure and temptation, the mystery of God's love, and much more. But these are questions asked not just by teens - they are the same questions adults often ask, and God's answers, as found in the Bible, respond to the deepest needs of people of all ages.

The Cosmic Revolutionary's Handbook

On November 22, 1963, three great men died within a few hours of each other: C. S. Lewis, John F. Kennedy and Aldous Huxley. All three believed, in different ways, that death is not the end of human life. Suppose they were right, and suppose they met after death. How might the conversation go? Peter Kreeft imagines their discussion as a part of The Great Conversation that has been going on for centuries. Does human life have meaning? Is it possible to know about life after death? What if one could prove that Jesus was God? With Kennedy taking the role of a modern humanist, Lewis representing Christian theism and Huxley advocating Eastern pantheism, the

dialogue is lively and informative. This new edition of this classic work includes a postscript in which Kreeft describes why and how he wrote what has remained a standard of apologetic literature for a generation. He also adds an outline and index to the book as well as a never-before-published dialog in which he imagines "A World Without an Easter." Now more than ever this book offers an animated interaction that involves not only good thinking but good drama.

Christian Apologetics

The Christian worldview proposes answers to the most enduring human questions. But are those answers reliable? In this systematic text, Douglas Groothuis makes a comprehensive apologetic case for Christian theism—proceeding from a defense of objective truth to a presentation of the key arguments for God from natural theology to a case for the credibility of Jesus, the incarnation and the resurrection. Throughout, Groothuis considers alternative views and how they fare intellectually.

Between Allah & Jesus

Evangelicals are beginning to provide analyses of our postmodern society, but little has been done to suggest an effective apologetic strategy for reaching a culture that is pluralistic, consumer-oriented, and infatuated with managerial and therapeutic approaches to life. This, then, is the first book to address that vital task. In these pages some of evangelicalism's most stimulating thinkers consider three possible apologetic responses to postmodernity. William Lane Craig argues that traditional evidentialist apologetics remains viable and preferable. Roger

Lundin, Nicola Creegan and James Sire find the postmodern critique of Christianity and Western culture more challenging, but reject central features of it. Philip Kenneson, Brian Walsh and J. Richard Middleton, on the other hand, argue that key aspects of postmodernity can be appropriated to defend orthodox Christianity. An essential feature are trenchant chapters by Ronald Clifton Potter, Dennis Hollinger and Douglas Webster considering issues facing the local church in light of postmodernity. The volumes editors and John Stackhouse also add important introductory essays that orient the reader to postmodernity and various apologetic strategies. All this makes for a book indispensable for theologians, a wide range of students and reflective pastors.

When Skeptics Ask

The Bible is a narrative--the story of God's creation, humankind's fall, and God's plan of redemption. And it is filled with countless smaller stories that teach us about people, history, and the nature of God. It's no surprise that God would choose to reveal himself to us in story--after all, he hardwired us for story. Despite this, we so often attempt to share our faith with others not through story but through systems, arguments, and talking points--methods that appeal only to our mind and neglect our imagination and our emotions. In this groundbreaking book, scholar and author Alister McGrath lays a foundation for narrative apologetics. Exploring four major biblical narratives, enduring stories from our culture such as Tolkien's

The Lord of the Rings and Lewis's The Chronicles of Narnia, and personal narratives from people such as Augustine of Hippo and Chuck Colson, McGrath shows how we can both understand and share our faith in terms of story.

How to Talk to a Skeptic

Kreeft considers all the fundamental elements of Christianity and Catholicism, explaining, defending and showing their relevance to our life and the world's yearnings. Here is a book to help you understand your faith more fully and to explain it to others more winningly. Like every religion, this faith has three aspects, corresponding to the three parts of the soul and filling the innate needs of all three parts. Kreeft uses these three divisions as the basic outline for his Christian apologetics. First, every religion has some beliefs, whether expressed in creeds or not, something for the intellect to know. Second, every religion has some duty or deed, some practice of program, some moral or ethical code, something for the will to choose. Finally, every religion has some liturgy, some worship, some "church", something for the body and the concrete imagination and the aesthetic sense to work at. Creed, Code and Cult; Words, Works and Worship, are a most useful way of outlining any religious faith, including the Catholic Faith of Christians.

Catholic Q and A

"Life, in the end, has only one tragedy: not to have

been a saint." – Léon Bloy The ever-popular and prolific Peter Kreeft says that the most important question he has written about is how one becomes holy; or to put it another way, how one becomes a saint. This question is central to all the great religions, Kreeft demonstrates, for striving toward holiness, moving toward perfect love, is the whole purpose of life. Kreeft admits that he is only a beginner on the climb to holiness, and it is to novices like him that he has written this engaging and encouraging book. Using the insights and experiences of saints and great spiritual writers throughout history, Kreeft shows what holiness is and how it can be achieved. He especially draws upon the spiritual classic *Abandonment to Divine Providence* by Jean-Pierre de Caussade, S.J. The core of Caussade's timeless gem is that God reveals himself to all of us through the daily events of our lives. The surest way toward spiritual growth, therefore, is by perceiving and accepting the merciful will of God in every situation. Kreeft stresses the simplicity of his approach to holiness, which focuses mainly on the virtue of love. Sanctity is love, he asserts, and only that can give us what we all long for—deep and lasting joy.

What would happen if Socrates--yes, the Socrates of ancient Athens--suddenly showed up on the campus of a major university and enrolled in its divinity school? Kreeft, Christian philosopher and longtime admirer of the historic Socrates, imagines the result. In this drama Socrates meets such fellow students as Bertha Broadmind, Thomas Keptic and Molly Mooney. Throughout, Kreeft weaves an intriguing web as he brings Socrates closer and closer to a meeting with Jesus. Here is a startling and provocative portrayal of reason in search of truth. In a new introduction to this revised edition, Kreeft also highlights the inspiration for this book and the key questions of truth and faith it addresses.

Christian Apologetics in the Postmodern World

"I've been a philosopher for all my adult life and the three most profound books of philosophy that I have ever read are Ecclesiastes, Job, and Song of Songs." These are the opening lines of Kreeft's Three Philosophies of Life. He reflects that there are ultimately only three philosophies of life and each one is represented by one of these books of the Bible—life is vanity; life is suffering; life is love. In these three books Kreeft shows how we have Dante's great epic The Divine Comedy played out, from Hell to Purgatory to Heaven. But it is an epic played out in our hearts and lives, here and now. Just as there is movement in Dante's epic, so there is movement in these books, from Ecclesiastes to Job, from Job to Song of Songs. Love is the final answer to Ecclesiastes' quest, the alternative to vanity, and the true meaning of life. Finally, Kreeft sees in these books the epitome of the theological virtues of faith, hope and love and "an

What would happen if Christians and a Muslim at a university talked and disagreed, but really tried to understand each other? What would they learn? That is the intriguing question Peter Kreeft seeks to answer in these imaginative conversations at Boston College. An articulate and engaging Muslim student named 'Isa challenges the Christian students and professors he meets on issues ranging from prayer and worship to evolution and abortion, from war and politics to the nature of spiritual struggle and spiritual submission. While Kreeft believes Christians should not learn extremism or unitarian theology from Muslims, he does believe that if we really listened we could learn much about devoted religious practice and ethics. Here is a book to open your understanding of one of the key forces shaping our world today. It's a book that just could make you a better Christian.

Peter Kreeft believes that Baise Pascal is the first post-medieval apologist. The Harvest Handbook™ of Apologetics

Modern Christians have been bombarded by objections launched against the Christian faith from popular secular authors, bloggers, and stars from the entertainment industry. The church is quickly beginning to acknowledge the need for apologetics due to the number of youth and adults alike leaving the faith. But how does one respond to these objections? For the laity of the church, this is especially difficult, as many are left without the proper training to know how to answer these objections. In *The Layman's Manual on Christian Apologetics*, the essentials of apologetics are taken from the ivory towers of academia and are made available to those who have not obtained seminary training or for those thinking about attending seminary. In this book, three major areas of apologetics are covered. The first unit engages the nature of truth and what can be known. The second unit deals with the existence of God and issues involving God's existence. The last unit tackles historical objections to the resurrection of Jesus and early Christianity. *The Layman's Manual on Christian Apologetics* delivers heavy apologetic issues with the

"We have reduced all virtues to one: being nice. And, we measure Jesus by our standard instead of measuring our standard by Him." For the Christian, explains author Peter Kreeft, being virtuous is not a means to the end of pleasure, comfort and happiness. Virtue, he reminds us, is a word that means "manly strength." But how do we know when we are being meek--or just cowardly? When is our anger righteous--and when is it a sin? What is the difference between being virtuous--and merely ethical? Back to Virtue clears up these and countless other questions that beset Christians today. Kreeft not only summarizes scriptural and theological wisdom on leading a holy life, he contrasts Christian virtue with other ethical systems. He applies traditional moral

theology to present-day dilemmas such as abortion and nuclear armament. Kreeft restores to us what was once common knowledge: the Seven Deadly Sins have an antidote in the Beatitudes. By setting up a close contrast between the two sets of behaviors, Kreeft offers proven guidance in the often bewildering process of discerning right from wrong as we move into the questionable mores of the twenty-first century. He provides a road map of virtue, a map for our earthly pilgrimage synthesized from the accumulated wisdom of centuries of Christians, from Paul and the early Church Fathers through C.S. Lewis.
