Four specific trends are driving the DVR industry: consumer content choice, consumer content control, personalization of content libraries, and the ability to transfer content from device-to-device and person-to-person. "Digital Video Recorders" features a macro and micro views of the already established yet still burgeoning DVR industry. As part of the NAB Executive Technology Briefing series, this book gives you a wealth of market knowledge, business models, case studies, and industry insights explained in a non-technical fashion. "Digital Video Recorders" discusses the impact of the technology across many different industries and platforms, explains hardware, software and technology of set-top boxes, DVR infrastructure, on-screen guides, planning and scheduling, content security, and more. Whether you are an executive in the broadcast, telecommunications, consumer electronic, or advertising space, you will expand your knowledge on DVR impact, explore new business opportunities, and get a brief overview of the technical terms needed. You will also be able to accurately analyze and understand the trends, projections and other data, all of which will help lead to the expedited growth and development of DVR industry.

Organizing Solutions for People with ADD, 2nd Edition outlines new organizing strategies that will be of value to anyone who wants to improve their organizational skills. This revised and updated version also includes tips and techniques for keeping your latest technologies in order and for staying green and recycling with ease. Attention Deficit Disorder (ADD) and Attention Deficit Hyperactivity Disorder (ADHD) are prevalent in society today, afflicting about 4.4% of the adult population—over 13 million Americans. Four out of every five adults do not even know they have ADD. The chapters, organized by the type of room or task, consist of practical organizing solutions for people living with ADD: At work: prioritizing, time management, and organizing documents At home: paying bills on time, decluttering your house, scheduling and keeping appointments With kids: driving them to various activities, grocery shopping and meals, laundry, babysitters, organizing drawers and closets And you: organizing time for your social life, gym, and various other hobbies and activities Color photographs that capture the short attention span of the reader are featured throughout, as well as sidebars and testimonials from adults with ADD, providing numerous organizational tips, such as the importance of dividing time into minutes or moments, task completion, how to avoid procrastination, asking for help, and how not to be a pack rat. Get your life in order with this witty and sympathetic guide to organization.

In recent years, the field of information and communication technology has started to change dramatically. Carriers are threatened by high revenue losses requiring them to identify new revenue potentials beyond their core business. Targeted advertising can be one of these revenue opportunities. Christian Schlee provides a broad overview of the latest developments and trends in targeted advertising in the ICT space. The author focuses on the technological aspects of targeted advertising, but also covers business and legal aspects. He analyzes the most interesting use cases in the Web, IPTV, the mobile environment, and in converged scenarios and examines important technological key building blocks.
