"Leave it to Stan Lee to save his very best for last. A Trick of Light is as heartfelt and emotional as it is original and exciting. What a movie this one will make."—James Patterson "For lovers of Stan Lee this is nothing short of a publishing event! (And, honestly, who the hell doesn't love Stan Lee?) Beguiling, cinematic, operatic, A Trick of Light is a bracing espresso first thing in the morning and the thrum of a familiar love deep at night."—Gary Shteyngart, author of Absurdistan and Lake Success

HOW TO BE YOUR OWN LITERARY AGENT is the most practical and thorough guide to book publishing for writers. Richard Curtis, a top literary agent for more than twenty-five years, provides a comprehensive overview of the publishing process, from submissions to contract negotiations to subsidiary rights to marketing and beyond. In this completely revised and expanded edition, Curtis takes into account the enormous changes in the publishing world over the past ten years. Included are new sections on what the electronic revolution means to you, and how to take advantage of it; the new breed of literary agents: how to find them and interest them in your work; how you can have a say in your book's design, cover art, jacket copy, and promotion; what author and agent organizations can do for you; how book chains and the superstores affect your chances of getting published; and why the American Booksellers Association convention is important to you. Saving Fiona

The amazing, true story of Fiona, a baby hippo born prematurely at the Cincinnati Zoo, the team of scientists and caregivers who nursed her to health, and the vast community in Cincinnati and beyond who rallied around her. Includes full-color behind-the-scenes photographs throughout. On a cold January day in 2017, nearly two months before due date, Nile hippopotamus Bibi gave her keepers at the Cincinnati Zoo & Botanical Garden a big (little) surprise—a tiny newborn hippo, no bigger than a football. The first premature hippo born and raised in captivity, baby Fiona was an underdog from the start: she couldn't

nurse, she couldn't stay hydrated, and she wasn't thriving. But the staff at the zoo knew they could save her. It would take creative thinking and teamwork. They would have to study the makeup of hippo milk for the first time ever and reach out to medical colleagues, including a team at the local Children's Hospital with superior vein-finding skills, to ensure that Fiona would begin to gain weight and become healthy. When Fiona began to thrive, her star began to rise, and soon she became an internet sensation, her picture and videos garnering thousands and thousands of likes and fans on Instagram and Facebook. Now a Fiona appearance at the Zoo mimics a Beatles concert. What made this little, now big, hippo such a big hit with people all over the world? And what's in store for her and her family in the future?
