No Daffodils, No Clouds, like Tom Lyford's earlier poetry books, is a compendium of baby boomer Americana. The table of contents listing, with everything from "Brat Packs" and "Idiots' Guide to Wormholes" to "A Terrible Thing to Waste" and "Poem Nazis," reads like the big board of Alex Trebeck's Jeopardy categories. Allow Tom Lyford to personally introduce you to his unwitting mentors Janis Joplin, Bob Dylan, Tom Waits, Leonard Cohen, Stephen King, J. D. Salinger, and Ray Bradbury. Accept the tokens he offers for passage back through the Twilight Zone turnstile to relive those sights and sounds and smells of your '50s and '60s drive-in movie theater and roller skating pavilion. Contemplate his long view as to where we've been, and where we're headed. But you'll discover no

Buddha is the Center of Gravity

Many have wondered if there is a key ingredient to living a full and happy life. For decades now, scientists and psychologists alike have been studying the strengths and virtues that enable individuals and communities to thrive. The positive psychology movement was founded on the belief that people

want to lead meaningful and fulfilling lives, to cultivate what is best within themselves, and to enhance their experiences of love, work, and play. At the same time, acceptance and commitment therapy (ACT)—a mindfulness-based, values-oriented behavioral therapy that has many parallels to Buddhism, yet is not religious in any way—has been focused on helping people achieve their greatest human potential. Created only years apart, ACT and positive psychology both promote human flourishing, and they often share overlapping themes and applications, particularly when it comes to setting goals, psychological strengths, mindfulness, and the clarification of what matters most—our values and our search for meaning in life. Despite these similarities, however, the two different therapeutic models are rarely discussed in relation to one another. What if unifying these theories could lead to faster, more profound and enduring improvements to the human condition? Edited by leading researchers in the field of positive psychology, *Mindfulness, Acceptance, and Positive Psychology* is the first professional book to successfully integrate key elements of ACT and positive psychology to promote healthy functioning in clients. By gaining an understanding of "the seven foundations of well-being," professionals will walk away with concrete, modernized strategies to use when working with clients. Throughout the book, the editors focus on how ACT, mindfulness therapies, and positive psychology can best be utilized by professionals in various settings, from prisons and Fortune 500 business organizations to parents and schools. With contributions by Steven C. Hayes, the founder of ACT, as well as other well-known

Lessons from the Monk I Married offers up ten of the most powerful lessons about life, love, and spirituality that Katherine Jenkins has gathered during her marriage to former Buddhist monk Seong Yoon Lee. A seeker in the truest sense of the word, Jenkins went to Korea on a whim, hoping to find the answers to her deepest, most pressing questions about how to find peace and her purpose in life. During her first months there, she sought out a remote temple, where she unknowingly crossed paths with an unassuming Buddhist monk. Months later, they met again by chance—and fell in love. Though their courtship was long, mostly secretive, and fraught with logistical and spiritual considerations, Jenkins and Lee were ultimately married in Korea in 2003. Through their relationship, Jenkins discovered the most important lesson of all: No one holds the keys to peace and happiness—you have walk your own path and find your own wisdom through your own experiences. More than the improbable story of a girl from Seattle who found peace of mind (and love) with a Buddhist monk, Lessons from the Monk I Married is an approachable guide to the most elemental spiritual questions of our day.

For the last forty years critical theories in Europe have been positing critiques of western society without fully embracing Buddhist traditions. In Dr. Kaye's opinion that is a terrible mistake, and he attempts a fusion between eastern and western social critique by focusing on concepts such as nothingness (Sunyata), instant enlightenment (Satori and Nirvana), bio-power, space-time and nihilism. The entire purpose of the book is to see if Buddhism and Critical Theory can create pathways out of actual oppressions due to 'clinging of mind' which Buddhism says is the cause of suffering (Dukkha).
