Buying Guide 2003

Ranging from the silly (a \$35 posable case that looks like a cat) to the sublime (the \$400 Klipsch iFi digital music system), iPod accessories are almost as hot as the iconic music player itself. Here to help you make sense of the explosion of cases, carriers, cables, external speakers, FM transmitters, battery chargers, and more is eye candy of another kind: a beautiful, full-color guide that lets you drool over the world of accessories available for your beloved music player. With a picture of each product and a description and analysis to go alongside, you'll discover not only just what you're looking for but items you'd never imagined existed: waterproof headphones and cases (good for depths up to 10 feet), a remote control with an FM radio built in, a international AC adapter, an iPod-docking alarm clock, and more—much more. Get this guide and start exploring!

(Berklee Press). Become a better musician through yoga. By integrating yoga into your practice routines, you will develop a more focused and concentrated mind for performance. You will be able to increase awareness of how you use your body to allow for proper posture and ease of movement while performing, helping you to avoid overuse injuries and play with greater expression. These concepts, exercises,

and practice routines present yoga from the musicians' perspective, focusing on the direct relationships between using yoga and creating music. You will learn to: * Practice meditation approaches, breathing techniques, and yoga postures that will help improve musicianship * Play using healthy posture and technique * Get more out of your practice through improved focus * Use your breath to improve your phrasing and also to ease performance anxiety * Play with deeper expression through inspiration.

Learn the A to Z of building excellent Splunk applications with the latest techniques using this comprehensive guide About This Book This is the most up-to-date book on Splunk 6.3 for developers Get ahead of being just a Splunk user and start creating custom Splunk applications as per your needs Your one-stop-solution to Splunk application development Who This Book Is For This book is for those who have some familiarity with Splunk and now want to learn how to develop an efficient Splunk application. Previous experience with Splunk, writing searches, and designing basic dashboards is expected. What You Will Learn Implement a Modular Input and a custom D3 data visualization Create a directory structure and set view permissions Create a search view and a dashboard view using advanced XML modules Enhance your application using eventtypes, tags, and macros Package a Splunk application using best practices Publish a Splunk application to the Splunk community In Detail Splunk provides a platform that allows you to search data stored on a machine, analyze it, and visualize the analyzed data to make informed decisions. The adoption of Splunk in enterprises is huge, and it has a wide range of customers right from Adobe to Dominos. Using the Splunk platform as a user is one

thing, but customizing this platform and creating applications specific to your needs takes more than basic knowledge of the platform. This book will dive into developing Splunk applications that cater to your needs of making sense of data and will let you visualize this data with the help of stunning dashboards. This book includes everything on developing a full-fledged Splunk application right from designing to implementing to publishing. We will design the fundamentals to build a Splunk application and then move on to creating one. During the course of the book, we will cover application data, objects, permissions, and more. After this, we will show you how to enhance the application, including branding, workflows, and enriched data. Views, dashboards, and web frameworks are also covered. This book will showcase everything new in the latest version of Splunk including the latest data models, alert actions, XML forms, various dashboard enhancements, and visualization options (with D3). Finally, we take a look at the latest Splunk cloud applications, advanced integrations, and development as per the latest release. Style and approach This book is an easy-to-follow guide with lots of tips and tricks to help you master all the concepts necessary to develop and deploy your Splunk applications.

The Purchaser's Guide to the Music Industries

(Book). This up-to-date book comprehensively covers all aspects of speech and music sound reinforcement. It is roughly divided into four sections: Section 1 provides the tutorial fundamentals that all audio engineers will need, discussing subjects such as fundamentals of acoustics, psychoacoustics, basic electrical theory and digital processing. Section 2 deals with the fundamental classes of hardware that the modern engineer will use, such as loudspeaker systems and components, microphones, mixers, amplifiers and signal processors. Special

attention is given to digital techniques for system control and to audio signal analysis. Section 3 deals with the basics of system design, from concept to final realization. It covers topics such as basic system type and speech intelligibility, site survey, user needs analysis and project management. Section 4 discusses individual design areas, such as sports facilities, large-scale tour sound systems, high-level music playback, systems for the theater, religious facilities, and other meeting spaces. The book is written in an accessible style, but does not lack for ample amounts of technical information. It is truly a book for the 21st century! The Senior Director of Product Development and Application for JBL Professional, John Eargle is the author of *The Handbook of Recording Engineering*, *The Microphone Book*, *Handbook of Sound System Design*, *Electroacoustical Reference Data*, *Music, Sound and Technology* and *The Loudspeaker Handbook* . A 2000 Grammy Award-winner for Best Classical Engineering, Mr. Eargle is an honorary member and past national president of the Audio Engineering Society, a faculty-member of the Aspen Audio Recording Institute, and a member of the National Academy of Recording Arts and Sciences and the Academy of Motion Picture Arts and Sciences.

The Songwriter's Market Guide to Song and Demo Submission Formats

(Ukulele). This collection features 15 classic songs arranged by ukulele master,

James Hill. In these remarkable arrangements, two distinct ukulele parts chord accompaniment and melody can be played in counterpoint at the same time by one player. The arrangements cater to both advanced beginner and experienced players and there is a warm-up section that introduces the player to the "Duets for One" concept. The book includes access to audio tracks online of all the arrangements performed by James Hill, for download or streaming, using the unique code inside the book. Songs are arranged for GCEA-tuned ukes and include: Georgia On My Mind * Summertime * Don't Get Around Much Anymore * The Glory of Love * Here Comes the Rain Again * L-O-V-E * Cheek to Cheek * Viva La Vida * and 7 more.
