With new, full-color photos and design, expanded information, and updates on technological advances in finishing, The New Wood Finishing Book is a must-have reference. If you finish wood, you'll want to own the updated and completely revised version of the highly acclaimed The Woodfinishing Book. Michael Dresdner, a nationally known finishing expert with over 20 years of experience in the field, focuses on finishes that amateur woodworkers and finishers use -- not fussy, unattainable finishes. He successfully demystifies the art and science of finishing with clear and up-to-date information, including coverage of spray finishing and the new generation of water-based finishes. Insightful Q&As provide answers to the most common finishing questions, and amusing "finishing tales" show the lighter side of finishing challenges. The original book is considered the definitive resource on finishing. But this new edition is even better.

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler.
