In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, and biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

Do You Mind If I Cancel?

Winner of the 2001 National Book Award for Fiction Nominated for the National Book Critics Circle Award An American Library Association Notable Book Jonathan Franzen's third novel, *The Corrections*, is a great work of art and a grandly

entertaining overture to our new century: a bold, comic, tragic, deeply moving family drama that stretches from the Midwest at mid-century to Wall Street and Eastern Europe in the age of greed and globalism. Franzen brings an old-time America of freight trains and civic duty, of Cub Scouts and Christmas cookies and sexual inhibitions, into brilliant collision with the modern absurdities of brain science, home surveillance, hands-off parenting, do-it-yourself mental healthcare, and the anti-gravity New Economy. With *The Corrections*, Franzen emerges as one of our premier interpreters of American society and the American soul. Enid Lambert is terribly, terribly anxious. Although she would never admit it to her neighbors or her three grown children, her husband, Alfred, is losing his grip on reality. Maybe it's the medication that Alfred takes for his Parkinson's disease, or maybe it's his negative attitude, but he spends his days brooding in the basement and committing shadowy, unspeakable acts. More and more often, he doesn't seem to understand a word Enid says. Trouble is also brewing in the lives of Enid's children. Her older son, Gary, a banker in Philadelphia, has turned cruel and materialistic and is trying to force his parents out of their old house and into a tiny apartment. The middle child, Chip, has suddenly and for no good reason quit his exciting job as a professor at D----- College and moved to New York City, where he seems to be pursuing a "transgressive" lifestyle and writing some sort of screenplay. Meanwhile the baby of the family, Denise, has escaped her disastrous marriage only to pour her youth and beauty down the drain of an affair with a married man--or so Gary hints. Enid, who loves to have fun, can still look forward to a final family Christmas and to the ten-day Nordic Pleasurelines Luxury Fall Color Cruise that she and Alfred are about to embark on. But even these few remaining joys are threatened by her husband's growing confusion and unsteadiness. As Alfred enters his final decline, the Lamberts must face the failures, secrets, and long-buried hurts that haunt them as a family if they are to make the corrections that each desperately needs.

Taking Sides

A Beat Most Anticipated Graphic Novel of Fall 2020 From two bestselling, prizewinning, and critically acclaimed contemporary chroniclers of San Francisco comes a rich, illustrated, idiosyncratic portrait of this great city. Gary Kamiya's *Cool Gray City of Love: 49 Views of San Francisco* was a #1 bestseller and an award winner. Now he joins forces with celebrated, bestselling artist Paul Madonna to take a fresh look at this one-of-a-kind city. Marrying image and text in a way no book about this city has done before, Kamiya's captivating narratives accompany Madonna's masterful pen-and-ink drawings, breathing life into San Francisco sites both iconic and obscure. Paul Madonna's atmospheric images will awe: be amazed by his astonishing wide-angle drawing for a jaw-dropping new perspective on the "crookedest street in the world." And Kamiya's engaging prose, accompanying each image, offers fascinating vignettes of this incredible city: witness his story of "Dumpville," the bizarre community that sprang up in the 19th century on top of a massive garbage dump. Handsome and irresistible--much like the city it chronicles--*Spirits of San Francisco* is both a visual feast and a detailed, personal, loving, informed portrait of a beloved city.

Petty Crimes

Washington Post national investigative reporter Carol Leonnig and White House bureau chief Philip Rucker, both Pulitzer Prize winners, provide the definitive insider narrative of Donald Trump's unique presidency with shocking new reporting and insight into its implications. "I alone can fix it." So went Donald J. Trump's march to the presidency on July 21, 2016, when he accepted the Republican presidential nomination in Cleveland, promising to restore what he described as a fallen nation. Yet over the subsequent years, as he has undertaken the actual work of the commander in chief, it has been hard to see beyond the daily chaos of scandal, investigation, and constant bluster. It would be all too easy to mistake Trump's first term for one of pure and uninhibited chaos, but there were patterns to his behavior and that of his associates. The universal value of the Trump administration is loyalty - not to the country, but to the president himself - and Trump's North Star has been the perpetuation of his own power, even when it meant imperiling our shaky and mistrustful democracy. Leonnig and Rucker, with deep and unmatched sources throughout Washington, D.C., tell of rages and frenzies but also moments of courage and perseverance. Relying on scores of exclusive new interviews with some of the most senior members of the Trump administration and other firsthand witnesses, the authors reveal the forty-fifth president up close, taking readers inside Robert Mueller's Russia investigation as well as the president's own hap-hazard but ultimately successful legal defense. Here for the first time certain officials who have felt honor-bound not to publicly criticize a sitting president or to divulge what they witnessed in a position of trust tell the truth for the benefit of history. This peerless and gripping narrative reveals President Trump at his most unvarnished and exposes how decision making in his administration has been driven by a reflexive logic of self-preservation and self-aggrandizement - but a logic nonetheless. This is the story of how an unparalleled president has scrambled to survive and tested the strength of America's democracy and its common heart as a nation.

How I Trade for a Living

In a prose that is so beautiful it is poetry, we see the world of growing up and going somewhere through the dust and heat of Fresno's industrial side and beyond: It is a boy's coming of age in the barrio, parochial school, attending church, public summer school, and trying to fall out of love so he can join in a Little League baseball team. His is a clarity that rings constantly through the warmth and wry reality of these sometimes humorous, sometimes tragic, always human remembrances.

The Skirt

Real stories. Real teens. Real consequences. A murder in a small Long Island town reveals the dark secrets lurking behind the seemingly peaceful façade in this latest installment of the Simon True series. On June 19, 1984, seventeen-year-old Ricky Kasso murdered Gary Lauwers in what local police and the international press dubbed a "Satanic Sacrifice." The murder became the subject of several popular songs, and television specials addressed the issue of whether or not America's teens were practicing Satanism. Even Congress got in on the act, debating Satanic symbolism in songs by performers like AC/DC and Ozzy Osbourne. "The country is in crisis!" screamed the pundits. After all, it was the height of the Reagan era and Nancy Reagan's "just say no" campaign was everywhere. But what this case revealed were bigger problems lurking at the heart of suburban America. Ricky Kasso wasn't a bad kid, but he was lost. To feel better, he started smoking pot, moving on from that to PCP and LSD. He ended up living on the streets and

thinking he had nothing to lose. Gary Lauwers went from being a victim of bullying to using drugs to fit in, and finally robbery—but then he made the mistake of stealing from Ricky, and from that moment on, his fate was sealed. A few months later, Gary went into the woods behind the park with Ricky and two other boys. Only three of them came out. The subsequent police investigation and accompanying media circus turned the village upside down. It shattered the image of an idyllic small town, changed the way neighbors viewed each other, and recast the War on Drugs.

Living Up the Street

Experiencing first love, dealing with crushes and mending broken hearts are some of the topics of love and life captured in these beautiful poems, told from the point of view of young adults of both sexes and diverse ethnicities. Reprint.

Partly Cloudy

In this new collection of poems, Gary Soto once again displays his impressive poetic range- funny, sad, urbane, nave. He digs deeply into his California hometown of Fresno and explores the wonder of the everyday in an ever-shifting world. In Soto's poems, precocious Berkeley dogs practice feng shui, raisins march out of a factory under the nose of the night watchman, and shirts are ironed "with the steam of Mother's hate." In the darker second part of the collection, Soto offers 12 "film treatments for David Lynch." What skin-crawling delight Lynch could conjure with the tightwad furniture salesman who meets his death in a pool "blue as toilet wash." Then, back from the brink, Soto presents in the final section a single long poem as graceful and meditative as anything he's written to date. One Kind of Faith confirms Gary Soto's immense talent and will bring his voice to an even wider audience.

The Pop-Up Book of Phobias

A timely new edition of a pioneering work in Latino literature, National Book Award nominee Gary Soto's first collection (originally published in 1977) draws on California's fertile San Joaquin Valley, the people, the place, and the hard agricultural work done there by immigrants. In these poems, joy and anger, violence and hope are placed in both the metaphorical and very real circumstances of the Valley. Rooted in personal experiences—of the poet as a young man, his friends, family, and neighbors—the poems are spare but expansive, with Soto's voice as important as ever. This welcome new edition has been expanded with a crucial selection of complementary poems (some previously unpublished) and a new introduction by the author.

This early-20th-century battle centers on one man: Tom Anderson, the undisputed czar of the city's Storyville vice district, who fights desperately to keep his empire intact as it faces onslaughts from all sides. Surrounding him are the stories of flamboyant prostitutes, crusading moral reformers, dissolute jazzmen, ruthless Mafiosi, venal politicians, and one extremely violent serial killer, all battling for primacy in a wild and wicked city unlike any other in the world.

The Acid King

Nonwhite and white, rich and poor, born to an unwed mother or weathering divorce, over half of all children in the current generation will live in a single-parent family--and these children simply will not fare as well as their peers who live with both parents. This is the clear and urgent message of this powerful book. Based on four national surveys and drawing on more than a decade of research, *Growing Up with a Single Parent* sharply demonstrates the connection between family structure and a child's prospects for success. What are the chances that the child of a single parent will graduate from high school, go on to college, find and keep a job? Will she become a teenage mother? Will he be out of school and out of work? These are the questions the authors pursue across the spectrum of race, gender, and class. Children whose parents live apart, the authors find, are twice as likely to drop out of high school as those in two-parent families, one and a half times as likely to be idle in young adulthood, twice as likely to become single parents themselves. This study shows how divorce--particularly an attendant drop in income, parental involvement, and access to community resources--diminishes children's chances for well-being. The authors provide answers to other practical questions that many single parents may ask: Does the gender of the child or the custodial parent affect these outcomes? Does having a stepparent, a grandmother, or a nonmarital partner in the household help or hurt? Do children who stay in the same community after divorce fare better? Their data reveal that some of the advantages often associated with being white are really a function of family structure, and that some of the advantages associated with having educated parents evaporate when those parents separate. In a concluding chapter, McLanahan and Sandefur offer clear recommendations for rethinking our current policies. Single parents are here to stay, and their worsening situation is tearing at the fabric of our society. It is imperative, the authors show, that we shift more of the costs of raising children from mothers to fathers and from parents to society at large. Likewise, we must develop universal assistance programs that benefit low-income two-parent families as well as single mothers. Startling in its findings and trenchant in its analysis, *Growing Up with a Single Parent* will serve to inform both the personal decisions and governmental policies that affect our children's--and our nation's--future.
