## **Brick City**

February, 1941, wartime Berlin: brilliant young detective Georg Heuser joins the Murder Squad in the midst of the biggest manhunt the city has ever seen. A serial killer is slaughtering women on S-Bahn trains, their battered bodies abandoned by the tracks. July 1959, peacetime West Germany: a young lawyer, Paula Siebert, is the sole woman in a unit investigating men who have committed crimes of unimaginable magnitude. Their leader has just been arrested. Siebert is sure of his guilt, but one question haunts her: how could a once-decent man have become a monster? Based on an extraordinary true story, OSTLAND is a harrowing account of the Holocaust and a thought-provoking examination of the capacity for sin that lurks in every human soul.

## **The Making of the Dalit Public in North India**

This book is not intended as a full detailed report on hypertension and related disorders, but instead focuses on particular issues in hypertension. It looks at emerging recently described forms of hypertension that are frequently encountered in clinical practice (prehypertension, white-coat and masked hypertension, hypertension in the elderly) and discusses novel aspects of target organ disease (for

example, cognitive impairment, dementia, and sexual dysfunction), and changing concepts in the management of hypertension and antihypertensive pharmacotherapy. It also looks at specific topics that are rarely discussed in books, including hypertension control in postmenopausal women on hormonal replacement therapy, Ramadan fasting, painful inflammatory disorders, and aldosterone escape. Finally, it examines newer cardiovascular risk factors (for example, uric acid, circadian blood pressure changes, blood pressure variability).

## **Skidding Into Oblivion**

Memoirs of Montparnasse is a delicious book about being young, restless, reckless, and without cares. It is also the best and liveliest of the many chronicles of 1920s Paris and the exploits of the lost generation. In 1928, nineteen-year-old John Glassco escaped Montreal and his overbearing father for the wilder shores of Montparnasse. He remained there until his money ran out and his health collapsed, and he enjoyed every minute of his stay. Remarkable for their candor and humor, Glassco's memoirs have the daft logic of a wild but utterly absorbing adventure, a tale of desire set free that is only faintly shadowed by sadness at the inevitable passage of time.

While to many, LEGO bricks are 'just a toy', to an ever-growing army of fans they provide a challenging and enjoyable modelling medium. These fans, calling themselves 'AFOLs', or Adult Fans of LEGO, have taken it upon themselves to recreate local landmarks using just the bricks that you may find at a local store. LEGO models created by adult fans, however, don't resemble those that many people created as a child. Created by masters of their medium, these fabulously detailed models may contain thousands of

pieces - or perhaps just a handful. Either way, the talented artists have an intimate knowledge of every piece and colour available. Skilfully choosing the ideal piece to recreate a well-known landmark, they may create a model indistinguishable from the real thing, or evoke the spirit of a building in just a few small pieces. In fact, landmarks and cityscapes - from the New York skyline to the Sagrada Familia, London's St Pancras and the amazing towers of Beijing and Hong Kong - have long been a source of inspiration for LEGO builders. In this book, LEGO artist Warren Elsmore takes us on a world tour and explores more than 12 global cities and their iconic structures. Each city is examined and recreated in LEGO form. Comprising amazing artwork, exploratory photographs and detailed breakdowns, Brick City looks at the essence of what makes an urban landscape recognizable.

### **Instability in Models Connected with Fluid Flows I**

This book is a detailed commentary on politics and political consciousness, participation, and mobilization among the Dalits in northern India. Based on extensive fieldwork at the village level in eastern

Uttar Pradesh, it deals with Dalit social and political history in the state from 1950 to the present. Using alternative sources—stories and narratives alive in the oral tradition and 'collective memory' of the oppressed and marginalized Dalits—Narayan documents various social upheavals that have taken place in post-Independence India. He also examines the process of politicization of Dalit communities through their internal social struggles and movements, and their emergence as a 'political public' in the State-oriented democratic political setting of contemporary India. How has the ongoing process of politicization of the Dalits developed their politics? How far does it appear as an alternative? To what extent is it similar to the politics played out by dominant parties? Does it imitate or seek break away from the methods of the upper castes? This book seeks to answer these important questions as it maps the changing nature of contemporary Indian politics. In doing so, it unfolds the multiple, suppressed, layers of Dalit consciousness in vibrant ethnographic detail, hitherto overlooked by mainstream discourse.

Two prominent translators present the first complete English-language edition of one of India's greatest works of classical literature: the Purananuru. This anthology of four hundred poems by more than 150 poets between the first and third centuries CE in old Tamil—the literary language of ancient Tamilnadu—was composed before Aryan influence had penetrated the south. It is thus a unique testament to pre-Aryan India. Beyond its importance for understanding the development of South Asia's history, culture, religion, and linguistics, the Purananuru is a great work of literature, reflecting accurately and profoundly the life of southern India 2,000 years ago. One of the few works of classical India that confronts life without the insulation of a philosophical facade and that makes no basic assumptions about karma and the afterlife, the Purananuru has universal appeal. It faces the world as a great and unsolved mystery, delving into living and dying, despair, love, poverty, and the changing nature of existence. To this hidden gem of world literature George L. Hart and Hank Heifetz add a helpful appendix, an annotated bibliography, and an excellent introduction describing the work and placing it in its social and historical context.

### **The Tao of Emerson**

Scores of pastors and leaders testify: “THIS CHANGED MY LIFE AND MINISTRY.” The author considers these critical questions: In the beginning, before God created Adam (mankind), what was His original purpose and plan for him? What could have happened

in the Garden of Eden if Adam had not sinned and God's redemptive plan had not become necessary? We know that when God created Adam he received natural life, but how did God plan for Adam to receive Divine (uncreated life)? What is the difference between God's creating and begetting work? It is evident that God has given the Cross a central place in His redemptive working; what is the difference between the work of the Cross and the way of the Cross? Since God, in the fullness of time, will put on display His Divine masterpiece before all the universe, how can we fully cooperate with him if we do not understand His Ultimate Intention?

## **Women Heroes and Dalit Assertion in North India**

Can Islam be located on a map? Is Europe the center of the Christian world? Is India a Hindu nation? While decades ago these questions were often answered in the affirmative, the truth has never been that simple. Not only are adherents of particular faiths spread across the globe, but there are many variations of a particular faith practiced side by side. This has only

become more true in recent years as the pace of globalization has quickened. The essays collected here provide brief and accessible introductions to the major world religions in their global contexts. The volume begins with an introduction to the globalization of religion by Mark Juergensmeyer, and is followed by individual essays on Christianity, Islam, Judaism, Hinduism, Buddhism, and local religious societies. The book concludes with three essays reflecting on the global religious scene. Taken together, these essays provide a concise, authoritative, and highly readable introduction to the state of worldwide religion in the 21st century.

## **Killing November**

This collection considers how religious identity interplays with other forms and contexts of identity, specifically those related to sexual identity. It asks how these intersections are formed, negotiated and resisted across time and places, including the UK, Europe, North America, Australia, and the Global South. Questions around 'queer' engagements in same-sex marriages, civil partnerships and other practices (e.g. adoption) have created a number of provoking stances and policy provisions – but what remains unanswered is how people experience and situate themselves within sometimes competing, or 'contradictory', moments as 'religious queers' who may be tasked with 'queering religion'. Additionally, the presumed paradoxes of 'marriage', queer sexuality, religion and youth combine to generate a noteworthy generational absence. This leads to

questions about where 'religious queers' reside, resist and relate experiences of intersecting religious and sexual lives. In looking at interconnectedness, this collection offers international contributions which bridge the 'contradictions' in queering religion and in making visible 'religious queers.' It provides insight into older and younger people's understandings of religiosity, queer cultures, and religious groups. A small but active religious minority in the US has received much attention for its anti-gay political activity; much less attention has been paid to the more positive, supportive role that religious-based groups play in e.g. providing housing, education and political advocacy for queer youth. Queer methodologies and intersectional approaches offer a lens both theoretically and methodologically to uncover the salience of related social divisions and identities. This collection is both innovative and sensitive to 'blended' identities and their various enactments.

This volume explores cultural repression in India and ways in which it is overcome. It studies the burgeoning Dalit politics in North India and shows how Dalit women heroes (viranganas) of the 1857 Rebellion have emerged as symbols of Dalit assertion in Uttar Pradesh and are being used by the Bahujan Samaj Party (BSP) to build the image of its leader,

Mayawati. It demonstrates how myths and memories of the role of Dalits in India's freedom struggle are employed for constructing identity and reconstructed for political mobilization. Key features include: – some of the tales used to develop political consciousness at the grass-roots level; – stories picked up from among the people themselves: reinterpreted; packaged; and disseminated orally or via pamphlets; – how gods, heroes and other cultural resources of each caste are converted into political capital by giving them a visual image through calendars, statues, posters and memorials; – how the BSP creates and recreates historical material to expand its electoral base. Based on field studies and secondary information, the author outlines the politics of dissent which uses historical and cultural resources as identity markers in political mobilization. This book is invaluable for students of politics, sociology and history and all those engaged in Dalit studies.

From Francesca Zappia, the acclaimed author of *Eliza and Her Monsters!* When Zora Novak is framed for a crime she didn't commit, she must track down the true culprit and clear her name before it's too late. But in a small town obsessed with ghosts, getting people to believe the truth might prove to be impossible. *Stranger Things* meets *Buffy the Vampire Slayer* in this eerie murder mystery. "A darkly humorous, rapid-fire read in which the living are sometimes scarier than the dead."—Kirkus When someone burns down the home of the school janitor and he dies in the blaze, everyone in Addamsville, Indiana, points a finger at Zora. With everyone looking for evidence against her, her only choice is to uncover the identity of the real killer. There's one big problem—Zora has no leads. No one does. Addamsville has a history of tragedy, and thirty years ago a similar string of fires left several townspeople dead. The arsonist was never caught. Now, Zora must team up with her cousin Artemis—an annoying self-proclaimed Addamsville historian—to clear her name. But with a popular ghost-hunting television show riling up the townspeople, almost no support from her family and friends, and rumors spinning out of control, things aren't looking good. Zora will have to read between the lines of Addamsville's ghost stories before she becomes one

herself. Acclaimed author Francesca Zappia has a perfectly pitched teen voice that shines in this inventive novel. Now Entering Addamsville is perfect for fans of Brittany Cavallaro, Victoria Schwab, and The Chilling Adventures of Sabrina. Includes interior spot illustrations from the author.

In time, though, all worlds will end.
