Guidance on risk assessment at work

The author who took readers into the strange and fascinating world of Salt Lake City escort services now returns to New York, where a young woman becomes inexplicably drawn to an accused murderer from her hometown. Grace — a single, early-thirties copy editor — drinks alone in the same bar every night and observes New York City life from the sidelines. But when a local coed is found dead, and a college student from Grace's hometown is arrested for the murder, something within her stirs. Though the media has portrayed the boy, Charles, as a spoiled rich kid who killed as revenge for a rebuffed sexual advance, Grace senses deeper layers and complications to the story. Consumed by discovering the truth behind his crime, Grace strikes up an unlikely friendship with the accused killer, becoming more and more obsessed with the case. Barely sleeping and slipping further behind at work, she inadvertently dredges up some dark parts of her own childhood, including the death of her younger sister 25 years earlier. And when Grace returns to her childhood home in Ohio, she intends to chase the mystery behind Charles's crime, but finds the mystery she is chasing is actually her own.
