### Lord of the Changing Winds

Wake up to the aroma of fresh bread wafting through your kitchen every morning! A dream? No. With your bread machine, it's a reality. Push a button or two and transform what seems like a laborious, time-consuming and skilled process into a spectacularly easy affair. So why do you need this book when bread machines come with their own recipes? Well, such recipes vary, sometimes on the high side, in the amount of yeast, salt, sugar, fat and dried milk powder they contain. Annette Yates has set about reducing these ingredients and providing recipes for making loaves that are as natural as they can be. And they are delicious too. Or you can add extra ingredients - like herbs, spices, seeds, nuts, fruit, vegetables, honey, mustard and even chocolate! - and transform simple bread into something really special. Try it and see

## **Hacker Disassembling Uncovered: Powerful Techniques To Safeguard Your Programming**

With essential dinosaur facts and stunning artwork, this is a fantastic introduction to the world of these ancient monsters. Comes with approximately 12 double-sided dinosaur magnets to use to complete the scenes.

## **The Dinosaur Magnet-Activity Book**

Going beyond the issues of analyzing and optimizing programs as well as creating the means of protecting information, this guide takes on the programming problem of, once having found holes in a program, how to go about disassembling it without its source code. Covered are the hacking methods used to analyze programs using a debugger and disassembler. These methods include virtual functions, local and global variables, branching, loops, objects and their hierarchy, and mathematical operators. Also covered are methods of fighting disassemblers, self-modifying code in operating systems, and executing code in the stack. Advanced disassembler topics such as optimizing compilers and movable code are discussed as well.

Key Note Reports contain facts, figures and analysis on individual market sectors which have been compiled into reports covering markets as diverse as Fast Foods, Industrial Fasteners, Agricultural Machinery and Women's Fashions. Each Key Note Report has been specially designed for ease of instant reference, so that the specific information required can be located.

## **Space, Stars and Slimy Aliens**

Griffins lounged all around them, inscrutable as cats, brazen as summer. They turned their heads to look at Kes out of fierce, inhuman eyes. Their feathers, ruffled by the wind that came down the mountain, looked like they had been poured out of light; their lion haunches like they had been fashioned out of gold. A white griffin, close at hand, looked like it had been made of alabaster and white marble and then lit from within by white fire. Its eyes were the pitiless blue-white of the desert sky. Little ever happens in the quiet villages of peaceful Feierabiand. The course of Kes' life seems set: she'll grow up to be an herb-woman and healer for the village of Minas Ford, never quite fitting in but always more or less accepted. And she's content with that path -- or she thinks she is. Until the day the griffins come down from the mountains, bringing with them the fiery wind of their desert and a desperate need for a healer. But what the griffins need is a healer who is not quite human . . . or a healer who can be made into something not quite human.
