Divine Freedom and the Doctrine of the Immanent Trinity

In this quick and vibrant little book, Kelly Kopic presents the nature, method and manners of theological study for newcomers to the field. He emphasizes that theology is more than a school of thought about God, but an endeavor that affects who we are. "Theology is about life," writes Kopic. "It is not a conversation our souls can afford to avoid."

Gender Matters opens the debate concerning violence in literature and the arts beyond a single national tradition and engages with multivalent aspects of both female and male gender constructs, mapping them onto depictions of violence. By defining a tight thematic focus and yet offering a broad disciplinary scope for inquiry, the present volume brings together a wide range of scholarly papers investigating a cohesive topic—gendered violence—from the perspectives of French, German, Italian, Spanish, English, and Japanese literature, history, musicology, art history, and cultural studies. It interrogates the intersection of gender and violence in the early modern period, cutting across national traditions, genres, media, and disciplines. By engaging several levels of discourse, the volume advances a holistic approach to understanding gendered violence in the early modern world. The convergence of discourses concerning literature, the arts, emerging print technologies, social and legal norms, and textual and visual practices leverages a more complex understanding of gender in this period. Through the unifying lens of gender and violence the contributions to this volume comprehensively address a wide scope of diverse issues, approaches, and geographies from late medieval Japan to the European Enlightenment. While the majority of essays focus on early modern Europe, they are broadly contextualized and informed by integrated critical approaches pertaining to issues of violence and gender.

An in-depth look at the ecology, history, and politics of land use among the Turkana pastoral people in Northern Kenya Based on sixteen years of fieldwork among the pastoral Turkana people, McCabe examines how individuals use the land and make decisions about mobility, livestock, and the use of natural resources in an environment characterized by aridity, unpredictability, insecurity, and violence. The Turkana are one of the world's most mobile peoples, but understanding why and how they move is a complex task influenced by politics, violence, historical relations among ethnic groups, and the government, as well as by the arid land they call home. As one of the original members of the South Turkana Ecosystem Project, McCabe draws on a wealth of ecological data in his analysis. His long-standing relationship with four Turkana families personalize his insights and conclusions, inviting readers into the lives of these individuals, their families, and the way they cope with their environment and political events in daily life. J. Terrence McCabe is Associate Professor of Anthropology, University of Colorado at Boulder.

numerous disciplines have taken up hip hop culture for its intellectual weight and contributions to the cultural life and self-understanding of the United States. More recently, the academic study of religion has given hip hop culture closer and more critical attention, yet this conversation is often limited to discussions of hip hop and traditional understandings of religion and a methodological hyper-focus on lyrical and textual analyses. *Religion in Hip Hop: Mapping the Terrain* provides an important step in advancing and mapping this new field of Religion and Hip Hop Studies. The volume features 14 original contributions representative of this new terrain within three sections representing major thematic issues over the past two decades. The Preface is written by one of the most prolific and founding scholars of this area of study, Michael Eric Dyson, and the inclusion of and collaboration with Bernard 'Bun B' Freeman fosters a perspective internal to Hip Hop and encourages conversation between artists and academics.

helpful editorial comments, these two leading European Catholic theologians demonstrate the continuity of the one Ratzinger and consequently shed light on the complexity of his present-day role as Pope. PAUL LAKELAND, FAIRFIELD UNIVERSITY, USA `An indispensable guide for understanding the theology of Joseph Ratzinger. Ratzinger insists that his theological opinions are distinct from his official positions as prefect and pope, but this collection shows otherwise. A very personal theology has become the official theology of the church.'---BRADFORD HINZE, FORDHAM UNIVERSITY, USA `Anyone attempting to gain serious familiarity with the theology of Joseph Ratzinger will find this book invaluable. It is not just a conventional reader but a uniquely structured, signposted guide through the terrain of Ratzinger's theology as a whole. variety of practices involved in doing theology, highlighting the virtues that guide them and the responsibilities that shape them. It also shows that the description of these practices, virtues and responsibilities is itself theological: what Christian theologians do is shaped by the wider practices and beliefs of Christianity. Written by a team of leading theologians, the Companion provides a unique resource for students and scholars of theology alike.

The essays range over such topics as theological reflections on the postmodern philosophical themes, the relations between Christian theology and culture, the contributions of philosophical hermeneutics for Christian theology, and the challenges of engaging in ministry in a postmodern context. A Little Book for New Theologians

Kelly M. Kopic meditates on how our suffering—particularly our physical suffering—relates to the Christian faith. This is not a theodicy or a book of easy answers. It is an invitation to reshape our understanding of suffering into the image of Jesus. What we discover is that in Christ and through his church, God displays his deep love and provision for his people.

Modern Theology

In the 16th century, the beginning of African enslavement in the Americas until the ratification of the Thirteenth Amendment and emancipation in 1865, Africans were hunted like animals, captured, sold, tortured, and raped. They experienced the worst kind of physical, emotional, psychological, and spiritual abuse. Given such history, isn't it likely that many of the enslaved were severely traumatized? And did the trauma and the effects of such horrific abuse end with the abolition of slavery? Emancipation was followed by one hundred more years of institutionalized subjugation through the enactment of Black Codes and Jim Crow laws, peonage, convict leasing, domestic terrorism and lynching. Today the violations continue, and when combined with the crimes of the past, they result in yet unmeasured injury. What do repeated traumas, endured generation after generation by a

The Incarnate Word contains a selection of the key writings on the doctrines of Christology produced by the theologians of Mercersburg Seminary during the middle of the nineteenth century. Despite the seminary's small stature and marginal position within American religious life, these texts represent some of the most profound wrestlings with the doctrine of the person of Christ that appeared in antebellum America, engaging the latest in German theological scholarship as well as the riches of the Christian tradition. As such, they command more than mere historical interest, providing rich conversation partners for contemporary debates in Reformed Christology, and anticipating the insights of such key twentieth-

century theologians as T. F. Torrance. The present critical edition carefully preserves the original texts, while providing extensive introductions, annotations, and bibliography to orient the modern reader and facilitate further scholarship. The Mercersburg Theology Study Series is an attempt to make available for the first time, in attractive, readable, and scholarly modern editions, the key writings of the nineteenth-century movement known as the Mercersburg Theology. An ambitious multi-year project, this aims to make an important contribution to the scholarly community and to the broader reading public, who can at last be properly introduced to this unique blend of American and European, Reformed and catholic theology.

The Heart of the Matter

The recent emergence of “two kingdoms” and “two cities” approaches to Christian social thinking are shown to have a key—and often unacknowledged—connection to Luther’s reshaping of the Augustinian paradigm. The project works for a better understanding of Luther’s own thought to help understand the convergences and divergences of Christian political theology in the twentieth century and today. In particular, Luther’s two-kingdom thinking issued forth in a strong distinction of law and gospel that was also worked out in twofold pairs of Israel and church, general and special revelation, creation and redemption, and especially the outward and inward life. The work traces this legacy through acceptance and modification by

Introducing Radical Orthodoxy

"This book is a collection of eleven essays devoted to the work of Ramon del Valle-Inclan (1866-1936). Long the recipient of critical analyses from various perspectives, Valle-Inclan's writing has nevertheless been virtually neglected in the gender-based criticism that has given rise to important studies of his contemporaries in other European literatures. This means that his diverse female characters have not been fully examined, that many scholars continue to consider him an unqualified misogynist, and that a marked effort to surmount gender constraints, present throughout his work, has not been acknowledged, much less explicated. This lack of study is intimately related to a much broader lacuna in Hispanic literature and scholarship, for the working of gender norms and their interaction with economic, religious, and political institutions inscribed in the literature of turn-of-the-century Spain have only recently begun to receive detailed

study." "The essays in this volume identify, explore, and interrogate issues of gender with respect to Valle-Inclan's writing. The results offer an altered portrait of Valle-Inclan in which attitudes attributed to him are questioned and reevaluated. In particular, studies of several strong female characters indicate that he envisioned a far more complex role for women than has formerly been recognized." "Three previously published essays were chosen to provide a grounding in work on gender and Valle-Inclan. The remaining essays were written for this volume. As an orientation for the reader and in order to assure that the collection will be of use and interest to non-Hispanists as well as specialized readers, an introduction to the collection defines the intentions of the editors, discusses the essays with respect to current criticism, and places Valle-Inclan and his writing in turn-of-the-century Spanish history and aesthetics. As a whole, the collection reads as far more than the sum of its individual essays, prompting a fuller appreciation of both Valle-Inclan and the social and cultural system to which he belongs."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Theology, professors Brittany Kim and Charlie Trimm clearly organize and explain the myriad contemporary approaches to Old Testament theology. The book begins by highlighting the flash points that have produced such a wide range of Old Testament theologies and presents a brief history of the discipline. It then explores various approaches to Old Testament theology in seven chapters, divided into three parts. Part I examines approaches that ground Old Testament theology in history. Part II surveys approaches that foreground Old Testament theme(s). Finally, Part III considers approaches that highlight different contexts for doing Old Testament theology. Each main chapter describes both common features of the approach and points of tension and then offers a test case illuminating how it has been applied to the book of Exodus. Accessible and unique, *Understanding Old Testament Theology* provides the only summary introduction of its kind to the field of Old Testament biblical theology.

a discussion of teaching Christian ethics in the contemporary academy, Brock takes up environmental questions, political and medical ethics, the modern city and Christian responsibility to it, energy use, the information age, agriculture, political consensus and coercion, and many other issues. The reader is thus offered a broad and incisive discussion of many contemporary topics in a brief, illuminating, but never superficial manner. The book's unusual conversational style allows strikingly clear, creative, and concrete theological connections to emerge in the spaces between moral questions rarely thought of as linked. As the title suggests, the running theme of the interviews is being bound to Christ and placed into the contemporary world. Brock's theological readings of contemporary cultural trends are vigorous, unapologetic, and insightful, and they offer delightful surprises as well as fertile new ways through the sterile impasses of many issues currently being debated in the public square. This book provides an excellent starting point for those interested in fresh theological insights into contemporary ethical questions and an accessible introduction to Brock's previous works.

practice. The book draws extensively on a three-year study with ten non-traditional students in higher education and their experience of academic writing. Using case study material - including literacy history interviews, extended discussions with students about their writing of discipline specific essays, and extracts from essays - Lillis identifies the following as three significant dimensions to academic writing: * Access to higher education and to its language and literacy representational resources * Regulation of meaning making in academic writing * Desire for participation in higher education and for choices over ways of meaning in academic writing. Student Writing: access, regulation, desire raises questions about why academics write as they do, who benefits from such writing, which meanings are valued and how, on what terms 'outsiders' get to be 'insiders' and at what costs.

In *Impasse of the Angels*, Stefania Pandolfo takes the critical engagement of anthropology to its limit by presenting the relationship between observer and observed as one of interacting equals and mutually constituting subjects. Narrating, debating, and imagining, real characters take center stage and, through their act of speech, invent a people rather than stand for it. Exploring what it means to be a subject in the historical and poetic imagination of a Moroccan society, *Impasse of the Angels* listens to dissonant and often idiosyncratic voices elaborate the fractures, wounds, and contradictions of the Maghribi postcolonial present. Passionate and lyric, ironic and tragic, it is a transformative narrative experiment traveling the boundary of ethnography and fiction.

Divine Freedom and the Doctrine of the Immanent Trinity is widely acclaimed by scholars in the field of Christian systematic theology. Molnar's quest to place the doctrine of the immanent Trinity on the agenda of the Christian doctrine of God has proven to be a signal contribution to the debate in contemporary Christian theology. The material in this second edition has been thoroughly updated: it contains a new preface and a new introduction, as well as a revised bibliography.

Molnar re-visits here his discussion of the Logos Asarkos, the theologies of Karl Rahner and Wolfhart Pannenberg. He sheds new light on Rahner's and Torrance's discussions of the Resurrection; and incorporates modern discussions by contemporary theologians to offer new insights into Eberhard Jüngel's thinking.

Union with Christ is the first extensive work on the Christology of Swiss theologian Adolf Schlatter (1852-1938). It offers fresh insights not only to readers interested in Adolf Schlatter's theology in particular, but also to students and professionals from the historical and dogmatic disciplines in general. The first part of the book sets the scene by tracing the biographical context of Schlatter's christological thinking. It explores Schlatter's evaluation of Kantianism, of the revival movement, of Ritschl and the Ritschl school, and of dialectical theologians, particularly Karl Barth. Based on this analysis, the second part of the work examines the dogmatic shape of Schlatter's relational Christology in more detail. From the perspective of Schlatter's theological triad of seeing-act, thinking-act, and life-act, it investigates his relational account of Jesus Christ against the backdrop of a distinct Trinitarian framework. According to Schlatter, Jesus reveals his divinity on the cross as he is
