Public Speaking

Crises happen. When they do, organizations must learn to effectively communicate with their internal and external stakeholders, as well as the public, in order to salvage their reputation and achieve long-term positive effects. Ineffective communication during times of crisis can indelibly stain an organization's reputation in the eyes of both the public and the members of the organization. The subject of crisis communication has evolved from a public relations paradigm of reactive image control to an examination of both internal and external communication, which requires proactive as well as reactive planning. There are many challenges in this text, for crisis communication involves more than case analysis; students must examine theories and then apply these principles. This text prepares students by: Providing a theoretical framework for understanding crisis communication Examining the recommendations of academics and practitioners Reviewing cases that required efficient communication during crises Describing the steps and stages for crisis communication planning Crisis Communication is a highly readable blend of theory and practice that provides students with a solid foundation for effective crisis communication.

Public speaking can be terrifying. For David Nihill, the idea of standing in front of an audience was scarier than cliff jumping into a thorny pit of spiders and mothers-in-law. Without a parachute or advanced weaponry. Something had to change. In what doesn't sound like the best plan ever, David decided to overcome his fears by pretending to be an accomplished comedian called "Irish Dave" for one full year, crashing as many comedy clubs, festivals, and shows as possible. One part of the plan was at least logical: he was already Irish and already called Dave. In one year, David went from being deathly afraid of public speaking to hosting a business conference, regularly performing stand-up comedy and winning storytelling competitions in front of packed houses. And he did it by learning from some of the best public speakers in the world: stand-up comedians. *Do You Talk Funny?: 7 Comedy Habits to Become a Better (and Funnier) Public Speaker* shows how the key principles of stand-up comedy can be applied to your speaking engagements and presentations to make you funnier, more interesting, and better looking. (Or at least two of the three.) Whether you are preparing for a business presentation, giving a wedding toast, defending your thesis, raising money from investors, or simply want to take on something you're afraid of, this book will take you from sweaty to stage-ready. You'll learn how to: - Craft a story and content that your audience will want to listen to - Find the funniest parts of your material and how to get to them faster - Deal with stage fright - Master the two most important parts of your performance: timing and delivery Ten percent of the author's proceeds from this book will go to Arash Bayatmakou via Help Hope Live until he is fully back on his feet and thereafter to one of the many facing the same challenges after suffering a severe spinal cord injury.
