More than Mustang and Cougar. Though the Mustang remains Ford's most famous muscle car, the company had been building muscle cars since it introduced the sleek Fairlane and Galaxie models with optional 390 cubic-inch big-block V-8

engines in 1961. These cars were part of Ford's Total Performance program, which tested cars in the crucible of racing at drag strips, oval circuits, European rally events, and road courses, resulting in legendary muscle cars like the Shelby Mustang, Boss 302 and 429 Mustangs, Mercury Cougar, Cyclone GT, and Spoiler. The Complete Book of Classic Ford and Mercury Muscle Cars covers all of Ford Motor Company's high-performance muscle cars from the early 1960s to 1973. It's the bible of muscle every disciple of Ford performance needs.
