MCQs and EMQs in Surgery: A Bailey & Love Companion Guide

Pediatric Neurology

The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists.

Emergency Medicine MCQs

MCQs in Paediatrics for the MRCPCH, Part 1

Preparing to Pass the FRCA: Strategies for Exam Success equips you with the skills of effective revision and time management to maximise your success. The book takes each element of the FRCA exam and provides tips and techniques on how to approach the different types of questions, and includes worked examples with answers, so that you can undertake your revision accordingly. It will help you to target your revision so you can cover the breadth of topics in the FRCA syllabus and ensure that you structure your revision in an efficient way, as well as helping you to approach the exam and convey your knowledge through writing or speech correctly. Taking many common problems candidates face when preparing for this exam, the book covers motivation, effective studying, managing nerves, and scheduling time to study amongst other commitments.

Critical Care MCQs

More than 1,000 board-style questions build confidence, knowledge, and test-taking skills for the USMLE Step 2 CK and the pediatrics shelf exam "I really like the format of the questions. I believe they are quite an accurate representation of the questions that appear on the boards" -- Joshua Lynch, DO Lake Erie College of Osteopathic Medicine, Class of 2008 "I thought the questions were well worded. The conciseness [of the answer explanations] is one of the

benefits of this book." -- Lisa A. Nowell, MD, Pediatric Resident, PGY-2, Morgan Stanley Children's Hospital of New York Presbyterian, Columbia University There's no better way to prepare for the USMLE Step 2 CK and the pediatrics clerkship exam than LANGE: Q&A: Pediatrics. This board-format review offers outstanding coverage of high-yield topics in pediatrics and provides detailed explanations of both correct and incorrect answer choices. Everything you need to excel on the exam: Questions are presented in board-style to prepare you for what you'll see on the actual exam Answers include detailed discussion and references to key textbooks and American Academy of Pediatrics guidelines Student reviewed for the most relevant content possible A complete practice test prepares you for the real thing Valuable test-taking tips give you the edge on exam day

MCQs in Paediatrics

The must-have book for candidates preparing for the oral component of the FRCS (Tr and Orth).

Lippincott's Anesthesia Review: 1000 Questions and Answers

"The companion review to the most acclaimed book in pediatrics, Rudolph's Pediatrics Self-Assessment & Board Review, delivers more than 1,500 questions focusing on the epidemiology, pathophysiology, presenting symptoms, clinical decision making, therapeutics, and prognosis of different pediatric disorders. The questions and answers are referenced

to relevant chapter(s) and pages in Rudolph's Pediatrics, Twenty-Second Edition. More than 300 images, most in full color, to better test visual diagnosis skills"--Provided by publisher.

Pediatric Cardiology

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-s

QBase Paediatrics: Volume 1, MCQs for the MRCPCH

This practical book features more than 1000 questions and answers with illustrations for pediatric neurologists, adult neurologists, general pediatricians and students taking their initial board examination and maintenance of certification. All questions are in multiple choice format and followed by the correct answer with a full explanation and appropriate references. Chapters are sectioned by different topics in pediatric neurology, including Epilepsy, Metabolic Disorders and Movement Disorders and other topics. Timely and thorough, this is a handy and succinct resource.

QBase Paediatrics 3

Updated for its Second Edition, this question-and-answer review book offers a concise review of ophthalmology. It combines a review of basic ophthalmology with real-life clinical cases and multiple-choice questions with answers and explanations. More than 400 clinical photographs, fluorescein angiograms, and CT, MRI, and ultrasound images help readers master this visually oriented specialty. This edition has over 100 new full-color illustrations. Focusing on common diseases, the book covers all specialty rotations, plus key areas such as embryology, anatomy, pediatrics, plastics, and lenses. This edition includes new cases and information on new drugs, especially glaucoma drugs.

Pediatrics For Medical Students-MCQs

Provides 300 MCQs for candidates sitting Part B of the RCPCH examinations, using the versatile Qbase program.

Preparing to Pass the Frca

The questions used in this book have been developed and continuously updated over 15 years. 'MCQs in Paediatrics' includes questions and detailed answers submitted by paediatricians in all specialties, and covers the widest range of clinical skills and paediatric knowledge. The questions have been used in both undergraduate and postgraduate examinations at the DCH and MRCP level. All questions have been reviewed and refined following the analysis of examination results, and are designed

to test the application of knowledge rather than just the facts. The answers are accompanied by detailed explanations which allow the book to be used both for self-assessment and as a guide for further study.

Nelson Pediatrics Board Review E-Book

Providing a comprehensive yet concise guide for trainee doctors, neonatal nurses and midwives, Essential Neonatal Medicine continues to be an indispensable resource that combines the depth and breadth of a textbook with the efficiency of a revision guide. Extensively updated and full-colour throughout, this edition includes new chapters on neonatal transport and palliative care, as well as further content on pathophysiology and embryology, quality improvement and risk management, infection control, and non-invasive ventilation. With an improved artwork programme and a new glossary of terms, Essential Neonatal Medicine is ideal for all trainee health professionals new to neonatology, or looking for a comprehensive aid to support them.

Essential Neonatal Medicine

Review and retain the information you need for success on the boards with Nelson Pediatrics Board Review: Certification and Recertification. This highly practical review tool follows the American Board of Pediatrics (ABP) general pediatrics content outline, with topics weighted to correlate with the exam. Must-know information is presented in a way that's easy to study and remember, and is backed by the Nelson

family of references that you know and trust for current, authoritative information in your field. Equips residents and physicians with an efficient, comprehensive system for study, designed specifically to help you perform at your best on the board exam. Presents information in a bulleted, high-yield format, with topics matching ABP content guidelines. Provides a real-world balance of necessary fundamental information and cutting-edge advances - all carefully written and reviewed by editors and contributors from the world renowned Children's Hospital of Philadelphia (CHOP). Features over 600 board-style questions with full, discursive answers online. Includes reader-friendly features that promote testing success: tables that show differences between diagnoses, genetic disorders grouped by key features in phenotypic presentation rather than in alphabetical order, and more - all designed to help you recall key information when taking exams. Provides online links to the Nelson Textbook of Pediatrics that offer a complete presentation of the content, including evidence-based treatment and management.

Postgraduate Orthopaedics

This book comprises a collection of categorized case-based questions, directed and meticulously selected to cover the most common and most important aspects of immunodeficiency diseases.

Immunodeficiency disorders of infancy and childhood such as antibody deficiencies, phagocyte defects and defects in innate immunity are addressed among others. Each chapters starts with a brief of the initial

presentation and lab data of the patient, followed by a series of 5-6 multiple choice questions (MCQs), leading the reader to the diagnosis and best of practice in a step-wise manner. This MCQ format along with precise, yet detailed answer ensures a quick, case-based, reality learning to the reader. This comprehensive MCQ series, is an essential reading material that a pediatric clinician, hematologist, immunologist, transplant specialist, or pulmonologist, can not afford to miss.

Essential Paediatric MCQs

Pediatric Allergy

Companion volume to: Mayo Clinic internal medicine board review. 10th ed. c2013.

LANGE Q&A Pediatrics, Seventh Edition

Ace your anesthesiology in-training exam, written board exam, or recertification exam with Lippincott's Anesthesia Review: 1001 Questions and Answers! This anesthesiology exam preparation resource offers you 1,001 multiple-choice questions and answers spanning all essential topics that challenge your mastery of all the information you need to know. Key Features Review every key content area thanks to 21 chapters that cover preoperative evaluation and management • airway management • anesthesia machine • patient monitoring • fluid management and blood transfusion • anesthetic pharmacology •

This new guide includes more than 1,200 questions previously published in NeoReviews from January 2007 to December 2017. Each question is followed by a short explanation of the correct answer with references, including the original article. Chapters include Cardiology Dermatology Endocrinology ENT and Ophthalmology Fluids, Electrolytes, Nutrition Gastrointestinal Genetics and Inborn Errors of Metabolism Hematology/Oncology Immunology Infectious Diseases Maternal-Fetal Medicine Neonatal Resuscitation Neurology Renal Respiratory Statistics, Research, Health Services, and Ethics

Review of Pediatrics & Neonatology

Critical Care MCQs is the perfect companion for anyone sitting exams in intensive care, as a training resource or just wanting to improve their knowledge

in this constantly developing area of medical practice. Written by critical care doctors with experience of UK and European examination formats, this book leads the reader through 450 true/false questions with referenced explanations, covering core syllabus topics and key influential papers to date. A detailed list of further resources and recommendations relevant to critical care revision is also provided to enable readers to further their knowledge and understanding. It is hoped that this book will prove invaluable for preparation and success in upcoming intensive care exams for both candidates and trainers. This book would be useful for not only candidates sitting the UK Final Fellowship of Intensive Care Medicine (FFICM) and European Diploma of Intensive Care (EDIC) exams, but also the Indian Diploma in Critical Care Medicine (IDCCM), the Diploma of the Irish Board of Intensive Care Medicine (DIBICM), the Australia and New Zealand Fellowship of the College of Intensive Care Medicine (CICM), American Board and any other country-related intensive care exams.

Paediatrics at a Glance

MCQs in Pediatrics with Explanatory Answers : RP 2008

This review guide contains approximately 700 questions, answers and explanations covering a wide range of topics in the field of pediatrics. All questions are organized according to subject matter. The guide

also includes two sample test papers.

Mrcp Part 1 Paediatric Mcq Practice Exams

- All concepts of ECG, from basics to advanced have been covered
- All 2017 updates for the management of various diseases have been extensively covered
- EEG concepts have been simplified for conceptual understanding

- Latest updates from CMDT 2018 have been covered throughout the text

Multiple Choice Questions in Paediatric Surgery

This collection of authentic MRCP Part 1 Paediatric practice papers reflects the true content of the Royal College examination. Each exam contains a representative selection of questions on general medicine and on paediatric specialties. There are 360 MCQs based on an analysis of past questions, all with correct answers and detailed explanatory teaching notes. Six practice exams containing questions on paediatrics and general medicine, similar to the official Royal College examination.

Rudolphs Pediatrics Self-Assessment and Board Review

There is a great shortage of MCQs book in Paediatric

surgery. To fulfil that need, Dr Muhammad Khalid Syed has prepared this MCQs book. This book provides in depth knowledge of paediatric surgery. For each question readers are asked to select the one best answer. In majority of questions, it is asked to select the false option out of five possible choices. The purpose of this is to provide an abundance of correct information directly rather than writing much details in answer. The topics covered in this book include the Abdomen with inguinal area and genitalia, urology, thoracic surgery, head & neck and soft tissue lesions, orthopaedic, trauma, oncology and vascular and lymphatics. In the end there are MCQs related to anatomy required in paediatric surgery. This book will increase your score, for all paediatric surgical examination, General surgical examination (to cover portion of paediatric surgery) and paediatric medicine examination (to covers the differential diagnosis of surgical conditions).

Pediatric Board Certification and Recertification Multiple Choice Questions and Answers

Complete practice papers of 60 MCQs particularly geared towards the MRCP Part 1 and for candidates in the adult medicine option, especially in the basic science areas. Detailed answers are accompanied by revision notes. The inclusion of an index allows revision by subject as well.

Multiple Choice Questions in Pediatric Dentistry

Pediatric Immunology

A revision aid for radiology trainees world-wide studying for their professional examinations in the field.

COMPLETE REVIEW OF MEDICINE FOR NBE

This book contains over 300 MCQs with explanatory answers organised into 10 sections and these questions attempts to reflect the wide range of topics in the current syllabus of MRCPCH Part 1 examination. It assists paediatricians everywhere in their preparation for the MRCPCH examination.

Review Questions in Ophthalmology

MCQ Companion to Applied Radiological Anatomy

SGN. The book Pediatrics For Medical Students-MCQs covers objective questions with answers.

Single Best Answer MCQs in Anaesthesia

This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in

Training (SRT).

MCQs in PEDIATRICS With Explanatory Answers

This book presents over 600 questions covering general pediatrics, that provide stimulating material, useful for undergraduate as well as postgraduate students.

Absolute Pediatric Neurology

An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice – from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and toxicology.

As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs 'on call'. Plus, this emergency medicine text is accompanied by an app – a separate product containing 180 randomised multiple-choice questions on all the topics within the book.

MCQs in Pediatrics

This book provides 300 MCQs for the MRCPCH, together with referenced explanatory notes. The free QBase CD-ROM included with the book considerably enhances its versatility and utility and makes this package much more than just a book of MCQs. The CD-ROM can be installed in seconds and gives the reader an incredible range of options. Not only can the reader practice the set exams, but the program will mark these exams, allow the reader to customize exams to focus in on areas requiring further revision, shuffle the question stems (A-E) to prevent the candidate from memorising 'patterns' of answers and advise on examination strategy. It also has the facility to print out and store test results and provide helpful notes on each question. The CD-ROM also now gives a subject-based as well as an overall analysis of each exam.

Case Based Pediatrics for Medical Students and Residents

Paediatrics at a Glance provides an introduction to paediatrics and the problems encountered in child

health as they present in primary, community and secondary care, from birth through to adolescence. Thoroughly updated to reflect changes in understanding of childhood illness over the last 5 years, the 4th edition of this best-selling textbook diagrammatically summarises the main differential diagnoses for each presenting symptom, while accompanying text covers important disorders and conditions as well as management information.

Paediatrics at a Glance:

- Is an accessible, user-friendly guide to the entire paediatric curriculum
- Features expanded coverage of psychological issues and ethics in child health
- Includes more on advances in genetics, screening and therapy of childhood illness
- Contains new videos of procedures and concepts on the companion website
- Includes a brand new chapter on Palliative Care - an emerging area in the specialty
- Features full colour artwork throughout
- Includes a companion website at www.ataglanceseries.com/paediatrics featuring interactive self-assessment case studies, MCQs, videos of the procedures and concepts covered in the book, and links to online resources

Paediatrics at a Glance is the ideal companion for anyone about to start a paediatric attachment or module and will appeal to medical students, junior doctors and GP trainees as well as nursing students and other health professionals.
