The Time in Between

A startling, subversive novel about a teenage girl who has lost everything and will burn anything. Fourteen-year-old Lucia is a young narrator whose voice will long ring in your ears. She is angry with almost everyone, especially people who tell her what to do. She follows the one rule that makes any sense to her: Don't Do Things You Aren't Proud Of. Orphaned and living with her elderly aunt in poverty in the converted garage of a large mansion, Lucia makes her way through the world with only a book, a Zippo lighter, and a pocket full of stolen licorice. Expelled from school, again, Lucia spends her days riding the bus to visit her mother in The Home. When Lucia discovers a secret Arson Club, she will do anything to be a part of it. Her own arson manifesto is a marvellous anarchist pamphlet, written with biting wit and striking intelligence. The voice of teenaged Lucia is a tour de force: a brilliant, wrenching cry from the heart and mind of a super-smart, funny girl who can't help telling us the truth, a riveting chronicle of family, misguided friendship, and loss. How to Set a Fire and Why is Jesse Ball's most accessible novel yet; after Silence Once Begun and A Cure for Suicide, the pyrotechnics on display here will

dazzle. 'I was captivated from the first line Lucia belongs with all the great child truth tellers: David Copperfield, Huck Finn, Holden Caulfield I loved her and I loved the book, every page of it.' Peter Heller, author of The Dog Stars and The Painter

A practical how-to guide with particular emphasis on SQL and performance and a hands-on understanding of how to work with this specific database management system developed by IBM, this book provides DB2 database administrators and developers with the essential information to implement, exploit, support, and maintain DB2 10.5 databases and applications. It introduces BLU Acceleration, a collection of technology innovations from the IBM Research and Development Labs that speed up reporting and analytics. Readers will also learn about DB2 10.5 enhancements in SQL, performance, high availability, manageability, monitoring and tuning, workload management, server client and drivers, packaging, and DB2 pureScale, as well as troubleshooting and problem determination. Two chapters are dedicated to application development in the areas of stored procedures and triggers, including implementation, monitoring, and tuning—information lacking in most books on those topics. The chapter on SQL tuning is unique in that it provides real-life SQL problem scenarios and practical DB2 SQL tuning solutions, techniques, methodology, and examples based on the author's extensive experience helping clients succeed with DB2.

The War Whisperer

Winner of the 2016 Realm Makers "debut" award Chosen by God. Hoping there's a way out. When Kate meets Nathan, he reveals the existence of the Guardians—men and women with God-given “superpowers.” But not all Guardians honor their calling to protect innocent lives. Some choose to prey on the innocent instead. Nathan's touch leaves Kate with a flame-shaped mark on her wrist, the sign she's been chosen as a Guardian. Suddenly she finds herself in the middle of a conflict that's been burning between the Guardians and their Fallen brethren for over a thousand years. While Kate waits for her dormant ability to emerge, she has to endure combat training with Hassan, an ex-terrorist who enjoys taking shots at her already low self-esteem. He also draws out the side of her that wants to fight back, and if Kate can find the courage to believe God is offering the life she's always wanted, Hassan might just be the one to help her start living it.

The Long Sunset

Each person confined in jails, prisons, and juvenile detention facilities must be afforded unimpeded access to needed health care. Such persons, without risk of interference or fear of reprisal, should be able to alert health care staff of a medical need, obtain a timely professional evaluation of that need, and receive treatment in the manner prescribed by a competent

provider. Simply stated, no correctional officer should ever prevent, impede, or inhibit anyone from alerting a health care provider of a perceived need for health services, even though the officer may believe the request is trivial, fictitious, or undeserved. This book focuses on access to health care services by special populations in correctional institutions (women, youths, elderly, persons with dementia, and the terminally ill), which includes important information on privatization in corrections. The following topics are featured: the context, principles, balance and implications of correctional health care, including the recent detention of immigrants in the United States; the unimpeded access to care, enhancements, stress reductions, health literacy, culture, ethnicity, religion, intake health screening, medical clearance for transfer or release, medications and clinical appointments, emergency care services, special settings, copayments, and budgeting for health care services; privatization, contracts, evaluating bids, monitoring the contract, and minimizing adverse risks; special health concerns of incarcerated women, communicable disease, pregnancy-related concerns, aging, frailty, osteoporosis, mental health, cosmetic concerns, health education and job assignments; youth in corrections, hygiene, exercise, gender-specific needs of young women, informed consent, supervision of vulnerable youth, substance abuse treatment, and the community connection; special health needs and humane care and alternative care of the aging; the prevalence, person-centered care, elements of care, environment, restraints, visits, and the ethics of incarcerating persons with dementia. The book concludes with end-of-life care in prison, hospice, palliative care, and compassionate release. It will serve as an invaluable tool for correctional officers, health care providers, justice and legal professionals, social workers, mental health professionals, and counselors.

How Canadians Govern Themselves

James R. Hannibal presents a thrilling adventure through history, complete with mysteries, secret items, codes, and a touch of magic in this stunning middle grade debut. Thirteen-year-old Jack Buckles is great at finding things. Not just a missing glove or the other sock, but things normal people have long given up on ever seeing again. If only he could find his father, who has disappeared in London without a trace. But Jack's father was not who he claimed to be. It turns out that he was a member of a secret society of detectives that has served the crown for centuries—and membership into the Lost Property Office is Jack's inheritance. Now the only way Jack will ever see his father again is if he finds what the nefarious Clockmaker is after: the Ember, which holds a secret that has been kept since the Great Fire of London. Will Jack be able to find the Ember and save his father, or will his talent for finding things fall short?

Into the Fire

Logical concepts and methods are of growing importance in many areas of computer science. The proofs-as-programs paradigm and the wide acceptance of Prolog show this clearly. The logical notion of a formal proof in various constructive

systems can be viewed as a very explicit way to describe a computation procedure. Also conversely, the development of logical systems has been influenced by accumulating knowledge on rewriting and unification techniques. This volume contains a series of lectures by leading researchers giving a presentation of new ideas on the impact of the concept of a formal proof on computation theory. The subjects covered are: specification and abstract data types, proving techniques, constructive methods, linear logic, and concurrency and logic.

He began life as a throwaway child in a dying Earth its inhabitants oblivious of their self-inflicted demise. Conceived out of rape and incest, inflicted with the hated nickname of "Geronimo," and thrust into a harsh existence, the gift of his birth leads Jerome Track to reach for a freedom he didn't understand and change a world that in his later years regards him as both hero and monster. To understand his own life he begins to write. Geronimo is the first book of his autobiography.

State law has regulated condos in Jalisco since 1995, and is binding on both the condo administration and all owners. Would it surprise you to learn that many condos don't follow the Jalisco condo laws? This should concern you, because it exposes your condo to potential consequences down the road that could result in financial costs or decreased property values. **MANY CONDOS:** don't correctly collect condo fees; don't hold proper owners meetings; don't carry out proper votes at these meetings; or don't have a correct administrative structure. **WHY DOES THIS PROBLEM EXIST?** In most condos in Canada or the US, there's high compliance with provincial and state condo laws. The same does not occur in Mexico - especially amongst condos that are run by foreigners. The administration of these condos is often unaware of the details of the condo legislation - in some cases, the Board is unaware of the very existence of the law. If you're an owner, or if you're part of your condo's administration, you need to know what the law says, and what the proper procedures are. If you're considering buying a condo, you need the knowledge to find out if the condo is being run properly - before you buy into potential trouble. **THE PROBLEM . . .** The condo legislation is written in Spanish, and there's no high-quality translation designed for use by foreigner-run condo administrations. **THE SOLUTION . . .** This book contains the complete text of the Jalisco condo law translated into English. It's presented in a unique side-by-side format, with both Spanish and English paragraphs perfectly synchronised. You can always refer to the original Spanish at any time. As well as a high quality translation, there are in-line comments and notes to help clarify certain passages, issues, and legal terms. A few of the topics covered by the condo legislation, and contained in this translation: types of condominiums & how they're created; format of the condo by-laws; definition of common property; rights and duties of owners; repairs, maintenance, and improvement work; duties and authority of Administrator & Council (Board); types of owners meetings and their purpose; voting at each type of meeting -

they differ significantly; fees: - their purpose and how they should be assessed - including a requirement for reserves; Late penalties for delinquent owners; disputes between owners; and debt collection & suing a delinquent owner. This book also contains translations of other legislation related to condo management and day-to-day operation: limitations on collecting debts, income tax & IVA, property auctions, injunctions, powers of attorney & proxies, legal signatures, obligations of neighbours, co-ownership, public registration of documents, legal entities, associations, and sanctions

The Fairy's Return and Other Princess Tales

Pam Wedgwood has been inspiring teachers and pupils through her work in music education--as composer, teacher and performer--for more than thirty years. In this piano method book for the older beginner, she has arranged a mix of familiar classical and traditional themes interspersed with her innovative original compositions. Music theory and terminology with lots of emphasis on chords is included. This piano method book uses the British system of terminology for rhythmic values such as "crotchet" for quarter note.

Lifelike Drawing In Colored Pencil With Lee Hammond

Ever since Newbery Honor author Gail Carson Levine introduced the magical village of Snettering-on-Snoakes in the faraway Kingdom of Biddle, young readers have been laughing their way through her hilarious retellings of famous and not-so-famous fairy tales. Now, for the first time, the six beloved Princess Tales are together in one magnificent volume: The high jinks begin in The Fairy's Mistake, which pokes fun at a meddlesome fairy whose plans for good go terribly awry. In The Princess Test, the author spoofs the notion that a pea can prove a person's pedigree. Princess Sonora and the Long Sleep features a genius of a princess, a hundred years of snooze, two princes, and a flock of balding sheep! Cinderella is a boy in Cinderellis and the Glass Hill, and the glass slipper is a glass hill. In For Biddle's Sake, Parsley tries to forget her beloved prince and get used to life as a Biddlebum Toad. The road to happily-ever-after isn't easy when a baker's son and a princess fall in love in The Fairy's Return. Elements of the classics are woven into these not-so-typical retellings of "Toads and Diamonds," "The Princess and the Pea," "Sleeping Beauty," "The Princess on the Glass Hill," "Puddocky," and "The Golden Goose." The fresh and funny twists on favorite fairy tales will win the hearts and capture the imaginations of young readers everywhere.

Whether solving biblical foreskin mysteries, having his head split open by a crowbar-wielding man named Thor or getting busted for pickpocketing in a remote Mexican desert, Ryan Moehring reveals in his debut collection of stories and essays, *The Fried Twinkie Manifesto*, that his irreverent wit and capacity for uncovering nuggets of insight from the rubble of the mundane make him one of humor's most promising newcomers. While maintaining a voice unmistakably his own, Moehring evokes the wild imagination of Tom Robbins, the soul of Sedaris, and the wisdom of Vonnegut. Though readers will more often than not find themselves laughing out loud, Moehring's eye for the profound and his unyielding honesty ensure that they are just as likely to cry—or cringe.

A healer with her own demons falls for a vampire who could save her soul or condemn it to hell. Loti Dupree has lost everything that ever mattered to her. Her sense of direction, her purpose, and the love of her life. She has no idea how she's going to go on without David . . . or that she's the last of an ancient lineage of healers thought to be extinct. But 500-year-old vampire Wolf Arrighi does. Wolf has been living outside the boundaries of his own kind for centuries, avoiding the vampire world with all its egotistical pleasures and exquisite pain. And for centuries, he's been seeking her, racked with a craving only she can satisfy. But when their worlds finally collide, their passion ignites an entirely new and entirely dangerous elemental magic, attracting an ancient evil hell-bent on possessing Loti for his own selfish desires. As one by one, the people she loves become casualties in the monster's dangerous games, Loti is forced to choose between saving them all or saving the one who saved her. From Nebula Award winner Jack McDevitt comes the eighth installment in the popular The Academy series—Priscilla “Hutch” Hutchins discovers an interstellar message from a highly advanced race that could be her last chance for a mission before the program is shut down for good. Hutch has been the Academy’s best pilot for decades. She’s had numerous first contact encounters and even became a minor celebrity. But world politics have shifted from exploration to a growing fear that the program will run into an extraterrestrial race more advanced than humanity and war. Despite taking part in the recent scientific breakthrough that rejuvenates the human body and expands one’s lifespan, Hutch finds herself as a famous interstellar pilot with little to do, until a message from an alien race arrives. The message is a piece of music from an

unexplored area. Despite the fact that this alien race could pose a great danger and that this message could have taken several thousand years to travel, the program prepares the last interstellar ship for the journey. As the paranoia grows, Hutch and her crew make an early escape—but what they find at the other end of the galaxy is completely unexpected.

The Lost Property Office

When I woke up in the mornings and opened my eyes, all I could see was the street and hard times; no one to turn to and nowhere to really go but to the dump or fishing or stealing, and most days, I did all three. I had no one to look up to so I made my own way. Sometimes, one day would be easier than another, but every day was a bit of hell. Every day, I got an "ass beating" about something I did or something I did not do. I had no say about anything. I was always wrong in my father's and mother's eyes and the more they beat me, the meaner I got with them and with everybody else. My sisters hardly ever got beaten. I got all the beatings for the family, so I really got in a f--- it kind of attitude. I began to look for the beatings every day. My life was really in bad shape.

In search of love, absolution, or forgiveness, Charles Boatman leaves the Fraser Valley of British Columbia and returns mysteriously to Vietnam, the country where he fought twenty-nine years earlier as a young, reluctant soldier. But his new encounters seem irreconcilable with his memories. When he disappears, his daughter Ada, and her brother, Jon, travel to

Vietnam, to the streets of Danang and beyond, to search for him. Their quest takes them into the heart of a country that is at once incomprehensible, impassive, and beautiful. Chasing her father's shadow for weeks, following slim leads, Ada feels increasingly hopeless. Yet while Jon slips into the urban nightlife to avoid what he most fears, Ada finds herself growing closer to her missing father — and strong enough to forgive him and bear the heartbreaking truth of his long-kept secret. Bergen's marvellously drawn characters include Lieutenant Dat, the police officer who tries to seduce Ada by withholding information; the boy Yen, an orphan, who follows Ada and claims to be her guide; Jack Gouds, an American expatriate and self-styled missionary; his strong-willed and unhappy wife, Elaine, whose desperate encounters with Charles in the days before his disappearance will always haunt her; and Hoang Vu, the artist and philosopher who will teach Ada about the complexity of love and betrayal. We also come to learn about the reclusive author Dang Tho, whose famous wartime novel pulls at Charles in ways he can't explain. Moving between father and daughter, the present and the past, *The Time in Between* is a luminous, unforgettable novel about one family, two cultures, and a profound emotional journey in search of elusive answers.

How Money Works

Japan's jazz community—both musicians and audience—has been begrudgingly recognized in the United States for its talent, knowledge, and level of appreciation. Underpinning this tentative admiration, however, has been a tacit agreement that, for cultural reasons, Japanese jazz “can't swing.” In *Blue Nippon* E. Taylor Atkins shows how, strangely, Japan's own attitude toward jazz is founded on this same ambivalence about its authenticity. Engagingly told through the voices of many musicians, *Blue Nippon* explores the true and legitimate nature of Japanese jazz. Atkins peers into 1920s dancehalls to examine the Japanese Jazz Age and reveal the origins of urban modernism with its new set of social mores, gender relations, and consumer practices. He shows how the interwar jazz period then became a troubling symbol of Japan's intimacy with the West—but how, even during the Pacific war, the roots of jazz had taken hold too deeply for the “total jazz ban” that some nationalists desired. While the allied occupation was a setback in the search for an indigenous jazz sound, Japanese musicians again sought American validation. Atkins closes out his cultural history with an examination of the contemporary jazz scene that rose up out of Japan's spectacular economic prominence in the 1960s and 1970s but then leveled off by the 1990s, as tensions over authenticity and identity persisted. With its depiction of jazz as a transforming

global phenomenon, Blue Nippon will make enjoyable reading not only for jazz fans worldwide but also for ethnomusicologists, and students of cultural studies, Asian studies, and modernism.
