Yet many Christians treat the existence of angels lightly or fail to consider them at all. In *Angels Are Real* Judith MacNutt pulls back the curtain on this intriguing topic, recounting inspiring, true-life stories and miraculous interactions, revealing what the Bible says about these heavenly beings, and offering insight into the spiritual realm. She draws on solid scriptural support to explore · what angels look like · what they do · why they are important in believers' lives · the heavenly hierarchy · what fallen angels are · and more. *Angels Are Real* is an accessible, comprehensive, encouraging guide for Christians. This is Volume 2 of *Dangerous Language*. This book examines the rise of the international language Esperanto, launched in 1887 as a proposed solution to national conflicts and a path to a more tolerant world. The chapters in this volume examine the position of Esperanto in Eastern Europe during the Cold War; in particular it explores Stalin's final years and the gradual re-emergence of the Esperanto movement. At first, its revival was limited to the satellite countries, especially Bulgaria and Poland, but, with Stalinism's gradual retreat, Esperanto organizations reappeared in most East European countries and eventually in the Soviet Union itself. The progress was uneven, and its details reveal the stresses and strains that became apparent as the solidarity of the Soviet bloc declined. This book will appeal to a wide readership, including linguists, historians, political scientists and others interested in the history of the twentieth century from the unusual perspective of language. This volume is complemented by the sister volume *Dangerous Language — Esperanto under Hitler and Stalin* which

offers a concentration on the creation and early emergence of Esperanto as an international language.

The extremely wealthy father of eight daughters protagonist Ndi, says yes, to the first question; no, to the second; and in the third questions he says, through dogged pursuance of looking for a male heir by any means; but his lone son whom he unknowingly begot in a remote village in his early life and whom he accidentally stumbled upon and adopted as his heir in

his odyssey of looking for a male heir through a series of marriages, says no, to the first question; yes, to the second and to the third question, he says fate is the umpire; and succeeds in convincing his father that he is right.

National Dental Boards (NDB) / Part II

Women's writing in Cameroon has so far been dominated by Francophone writers. The short stories in this collection represent the yearnings and vision of an Anglophone woman, who writes both as a Cameroonian and as a woman whose life has been shaped by the minority status her people occupy within the nation-state. The stories in *Your Madness,*

Not Mine are about postcolonial Cameroon, but especially about Cameroonian women, who probe their day-to-day experiences of survival and empowerment as they deal with gender oppression: from patriarchal expectations to the malaise of maldevelopment, unemployment, and the attraction of the West for young Cameroonians. Makuchi has given us powerful portraits of the people of postcolonial Africa in the so-called global village who too often go unseen and unheard.
