### Business Today

The emphasis of Hebrews was born out of the concern of the writer for those who had been true to Christ in the past but who were now wavering. Signs of defection from the faith brought both a warning against apostasy and a fervent exhortation to press onward to spiritual maturity. The epistle argues that the death of Christ renders obsolete the Old Testament sacrificial system and presupposes thorough familiarity with that system by those to whom the epistle is addressed. This strong appeal to the Old Testament Scriptures opens up new avenues of thought for appreciation for the unity of the two Testaments. Dr. Pfeiffer's helpful commentary on this profound New Testament book systematically covers each passage while singling out difficult phrases and verses for special attention. This Everyman's Bible Commentary is based upon the scriptural text as found in the King James Version.

### Saving Margaret

This book describes the emerging point-of-care (POC) technologies that are paving the way to the next generation healthcare monitoring and management. It provides the readers with comprehensive, up-to-date information about the emerging technologies, such as smartphone-based mobile healthcare technologies, smart devices, commercial personalized POC technologies, paper-based immunoassays (IAs), lab-on-a-chip (LOC)-based IAs, and multiplex IAs. The book also provides guided insights into the POC diabetes management software and smart applications, and the statistical determination of various bioanalytical parameters. Additionally, the authors discuss the future trends in POC technologies and personalized and integrated healthcare solutions for chronic diseases, such as diabetes, stress, obesity, and cardiovascular disorders. Each POC technology is described comprehensively and analyzed critically with its characteristic features, bioanalytical principles, applications, advantages, limitations, and future trends. This book would be a very useful resource and teaching aid for professionals working in the field of POC technologies, in vitro diagnostics (IVD), mobile

healthcare, Big Data, smart technology, software, smart applications, biomedical engineering, biosensors, personalized healthcare, and other disciplines.

### **Box Like the Pros**

The 15-volume Swindoll's Living Insights New Testament Commentary series continues with *Insights on Romans*. This newly revised and expanded edition draws on Gold Medallion Award-winner Chuck Swindoll's 50 years of experience with studying and preaching God's Word. His deep insight, signature easygoing style, and humor bring a warmth and practical accessibility not often found in commentaries. Each volume combines verse-by-verse commentary, charts, maps, photos, key terms, and background articles with practical application. The newly updated volumes now include parallel presentations of the NLT and NASB before each section. This series is a must-have for pastors, teachers, and anyone else who is seeking a deeply practical resource for exploring God's Word.

### **Smarter Government Workbook**

The research featured in this volume is devoted to understanding the competitive and collaborative challenges that firms face as they manage interactions with different actors in dynamic environments, in what are coming to be referred to as business or innovation 'ecosystems'. Rapid technological change, globalization, and recent financial turbulence have brought us to a point where managers are painfully aware that 'no man [or firm] is an island.' Success in business, in both the profit and non-profit sectors, increasingly relies upon collaboration with upstream suppliers, alliance partners, and downstream complementors. This volume presents new findings of how innovation and value are created in collaborative networks, specifically 'ecosystem analysis' and the unique roles of individual actors within this system

### **Essays in Existentialism**

Council threats and Renata's deadly attack leave the Vegas pack scrambling to regroup Heartbroken over the death of her fiancé and tortured by a voice in her mind that's haunted her since childhood, Sarah McLain learns her true ancestry after attending her best friend Margaret's wedding. Can the pack save Sarah from the darkness that threatens to overwhelm her? Or will the wolf inside drive her over the edge before they can show her being a supernatural being is a good

thing? Chris Michaels is in charge of training the new latent werewolves at the O'Hearn mountain inn, now known as Woodhaven. His focus is tested when he finds out the beautiful but sad redhead, Sarah McLain, is his trainee. The connection he feels to her is strong but not magickal, and his wolf claims it foolish to listen to his human instincts. Can Chris heal her broken heart in time, or will he lose the woman he knows is perfect for him.

### **Law's Order**

Forbidden love Forbidden mates Strong and successful wolf shifter Margaret Taylor hates to admit it, but she cannot deny the pull she has toward an unlikely mate--a man she met at her best friend's wedding. The heat and magick between them is animalistic. But Margaret's past keeps her from trusting his kind, even though Scott O'Hearn is the one person--or beast--who can save her from vicious and vengeful enemies. Reluctant to relinquish her restraint, Margaret does all she can to keep him at bay. Scott O'Hearn is bound and determined to make sure Margaret's safety is his number one priority--right after her steals her heart. Scott's waited over a century for a love like this, he's not going to wait any longer. Refusing to relent, Scott is set on proving to Margaret that what they feel is real, despite their differences. But will Margaret ever see that an forbidden love can be a forever love?

### **Structural Analysis-I, 4th Edition**

This volume provides a complete record of presentations made at Industrial Engineering, Management Science and Applications 2015 (ICIMSA 2015), and provides the reader with a snapshot of current knowledge and state-of-the-art results in industrial engineering, management science and applications. The goal of ICIMSA is to provide an excellent international forum for researchers and practitioners from both academia and industry to share cutting-edge developments in the field and to exchange and distribute the latest research and theories from the international community. The conference is held every year, making it an ideal platform for people to share their views and experiences in industrial engineering, management science and applications related fields.

## **Lotus Elise**

### **The Goodnight Trail**

Every fascinating stage of the development of the Lotus Elise, Type 111, is explored in this fully comprehensive book. From the car's conception, production, and all the way through to its marketing, every part of the story is covered in depth. This superb book also has a chapter on the car's subsequent development for the racetrack, as well as an appendix covering collectables & memorabilia. Produced with the full co-operation of Lotus Cars, who gave unparalleled access to the company's archives, as well as their employees, this book contains the reminiscences of virtually everyone involved in the concept and design of the Elise. We are taken through the car's initial production period, and subsequent development into the Series 2 model of 2001, with every variation of the car described by Jeremy Walton and superbly photographed by Lotus expert William Taylor. Walton was the only journalist invited to attend the project 111 meetings at Lotus back in 1994 and Jeremy's close involvement combined with his obvious enthusiasm for the Elise project, is reflected by the openness of all involved, revealing the real stories behind the car. Hardcover - 12" x 12" - 208 pages - 208 color

### **Four Iron in the Soul**

### **The Epistle to the Hebrews**

This potent study of breakthrough innovation and strategic transformation takes readers behind the scenes of the legendary, yet enigmatic, Nokia Corporation.

### **Death Rides a Chestnut Mare**

Four Iron in the Soul by Lawrence Donegan - the hilarious inside story of Golf In this very funny sports book, young journalist Lawrence Donegan tells the story of the summer he spent caddying for Scottish golfer Ross Drummond, ranked over 400 in the world, on the European Tour. This is the amazing story of the geniuses, the cheats, the gurus and the hangers-on that make up the golf scene. A cross between Nick Hornby and Bill Bryson, this book will be loved by readers of Fever Pitch and Notes from a Small Island. 'A joy to read. Not since Bill Bryson plotted a random route through small-town America has such a breezy idea for a book had a happier or funnier result' - Lynne Truss, The Times 'Funny, beautifully observed and it tells you things about sport in general and golf in particular that nobody else had thought to pass on' - Patrick Collins, Mail on Sunday Lawrence Donegan was born in Scotland in 1961. He went to Stirling University, and had a brief spell as a pop star - he was in the band THE BLUEBELLS, who had a big hit with the infuriatingly catchy "Young at Heart", before joining the Guardian. He lives in Glasgow.

### **Location-Based Services**

The articles by well-known international experts intend to facilitate more elaborate expositions of the research presented at the seminar, and to collect and document the results of the various discussions, including ideas and open problems that were identified. Correspondingly the book will consist of two parts. Part I will consist of extended articles describing research presented at the seminar. This will include papers on tracking, motion capture, displays, cloth simulation, and applications. Part II will consist of articles that capture the results of breakout discussions, describe visions, or advocate particular positions. This will include discussions about system latency, 3D interaction, haptic interfaces, social gaming, perceptual issues, and the fictional "Holodeck".

THE WAR is just beginning. Although Madison successfully saved Mathias and her father, Silas escaped. Overcome with conflict between reuniting with Mathias and the relationship she inadvertently built with Alan, Madison retreats into her own thoughts. Should she make a life with the white-haired boy she worked so hard to save? Or with the one who's been capturing her heart? If that isn't bad enough, she also feels lost on how to connect with a father she's never known. Madison's relationship struggles are cut short when she and her allies receive a phone call. Just hours after Silas stole Mathias's gift and shimmered away, Haven has been attacked. There are casualties. But could he have gotten all the way to America so quickly? As tensions rise on all fronts, one thing is clear - they may have won a battle, but the War has just begun. Eventide is the fourth novel in K.A. Poe's Forevermore series. ### **Train to Adopt**

What does economics have to do with law? Suppose legislators propose that armed robbers receive life imprisonment. Editorial pages applaud them for getting tough on crime. Constitutional lawyers raise the issue of cruel and unusual punishment. Legal philosophers ponder questions of justness. An economist, on the other hand, observes that making the punishment for armed robbery the same as that for murder encourages muggers to kill their victims. This is the cut-to-the-chase quality that makes economics not only applicable to the interpretation of law, but beneficial to its crafting. Drawing on numerous commonsense examples, in addition to his extensive knowledge of Chicago-school economics, David D. Friedman offers a spirited defense of the economic view of law. He clarifies the relationship between law and economics in clear prose that is friendly to students,

lawyers, and lay readers without sacrificing the intellectual heft of the ideas presented. Friedman is the ideal spokesman for an approach to law that is controversial not because it overturns the conclusions of traditional legal scholars--it can be used to advocate a surprising variety of political positions, including both sides of such contentious issues as capital punishment--but rather because it alters the very nature of their arguments. For example, rather than viewing landlord-tenant law as a matter of favoring landlords over tenants or tenants over landlords, an economic analysis makes clear that a bad law injures both groups in the long run. And unlike traditional legal doctrines, economics offers a unified approach, one that applies the same fundamental ideas to understand and evaluate legal rules in contract, property, crime, tort, and every other category of law, whether in modern day America or other times and places--and systems of non-legal rules, such as social norms, as well. This book will undoubtedly raise the discourse on the increasingly important topic of the economics of law, giving both supporters and critics of the economic perspective a place to organize their ideas.

## **Effective Training Manuals**

Art continues to prove itself a sound, not to mention exhilarating and satisfying investment, and The International Art Markets shows the huge scope for diversification within that market. Despite the financial crisis of 2007/8 and its after effects, international trade in art and collectibles has grown over 55% from \$29bn in 2009 to \$45bn in 2013. That now includes major art trading countries from the recently developed and developing world. In 43 chapters, written by 58 mostly locally-based experts from the art trade, it covers 21 countries from Europe, 12 from Asia and Australasia, five from South America, four from the Middle East and Africa, and two from North America. Each chapter provides the following essential information you need to understand the market in each country: art market history including taste, fashion, value, artists, art types, subjects, sales, prices and records; market structure and performance, including auctioneers, dealers, trade associations, museums, exhibitions, fairs, training and education; and tax and regulation. Comprehensive, informed and packed with valuable information, The International Art Markets will be the first point of reference for art collectors and investors and anyone who wants to understand the enormous breadth and complexity of the world's art markets. To complement this book, some of the individual countries featured in the text are accompanied by additional online material on the historical background of their particular market. To access this material, email: [kpinfo@koganpage.com](mailto:kpinfo@koganpage.com)

## **Mobile TV**

Location-based Services (LBSs) are mobile services for providing information that has been created, compiled, selected or filtered under consideration of the users' current locations or those of other persons or mobile devices. Typical examples are restaurant finders, buddy trackers, navigation services or applications in the areas of mobile marketing and mobile gaming. The attractiveness of LBSs is due to the fact that users are not required to enter location information manually but are automatically pinpointed and tracked. This book explains the fundamentals and operation of LBSs and gives a thorough introduction to the key technologies and organizational procedures, offering comprehensive coverage of positioning methods, location protocols and service platforms, alongside an overview of interfaces, languages, APIs and middleware with examples demonstrating their usage. Explanation and comparison of all protocols and architectures for location services In-depth coverage of satellite, cellular and local positioning All embracing introduction to 3GPP positioning methods, such as Cell-Id, E-OTD, U-TdoA, OTDoA-IPDL and Assisted GPS Explains the operation of enhanced emergency services such as E-911 Identifies unsolved research issues and challenges in the area of LBSs This comprehensive guide will be invaluable to undergraduate and postgraduate students and lecturers in the area of telecommunications. It will also be a useful resource to developers and researchers seeking to expand their knowledge in this field.
