Voices from the Appalachian Coalfields

What resides beneath the blankets of snow, under the ripples of water, within the whispers of the wind, and between the husks of trees all across Canada? Creatures, myths and monsters are everywhere even if we don't always see them. This is a unique and powerful collection of all-new, cross-genre tales that take the reader into real and imagined worlds, ranging from an encounter with the Metis creature Rugaru to trolls dissatisfied with modern life, to the demons who follow us from our parents' countries, and to Anishinaabe myths about the creation of creeks. Eighteen emerging and award-winning authors explore the way we think about and interact with the unnatural - showing how much the stories we create can teach us about what it means to be human.

Dirty God

Girlfriends are the best medicine. Franny, Jude, and Anna go on their annual lake camp-out in Northern California to eat and drink, skinny dip and whoop into the night when the subject turns to death. What do you want to do before you die? What will you wear to your funeral? Who will do your makeup? It gets darker back home as Jude fears she's developing her mother's dementia and starts to stash pills, research suicide and withdraw from her friends. Before the next camping trip each woman's life is turned upside down, along with her faith in the future and her friends in a year of suspicions, infidelity, the latest in California dying styles, the politics of assisted suicide along with debates on why breasts are not boobs and what wine to have with your last meal. Because, what better way to deal with the absurdity and certainty of mortality than to cry and laugh with your best friends?

Binding Arbitration

Through the corridors of the Windy City's criminal courts, single mother Libby Tucker knows exactly how far she'll go to save her cancer-stricken son's life. The undefeated defense attorney is prepared to take her fight all the way to the majors. Circumstances force Libby to plead her case at the cleats of celebrity

baseball player Banford Aidan Palowski, the man who discarded her at their college graduation. Libby has worked her backside bare for everything she's attained, while Aidan has been indulged since he slid through the birth canal and landed in a pile of Gold Coast money. But helping Libby and living up to his biological duty could jeopardize the only thing the jock worships: his baseball career. If baseball imitates life, Aidan admits his appears to be silver-plated peanuts, until an unexpected confrontation with the most spectacular prize that's ever poured from a caramel corn box blindsides him. When he learns about his son's desperate need, it pricks open the wound he's carried since he abandoned Libby and the child. All Libby wants is a little anonymous DNA, but Aidan has a magical umpire in his head who knows Libby's a fateball right to the heart. When a six-year-old sage and a hippy priestess step onto the field, there's more to settle between Libby and Aidan than heartache, redemption, and forgiveness.

Dhaka Dust

This study explores the nationalist imagination, artistic philosophy and the overtly political dimension of Remi Raji's poetry. It is an attempt to construct a sustained critical discourse on Raji's ongoing body of works. Raji is one of the major poetic voices on the Nigerian literary scene today. With the publication of his first collection, *A Harvest of Laughters*, in 1997 Raji has continued to strengthen his craft and vision through subsequent volumes: *Webs of Remembrance* (2000), *Shuttlesongs: America - a Poetic Guided Tour* (2003), *Lovesong for My Wasteland* (2005); and *Gather My Blood Rivers of Song* (2009). Evidently he has attained poetic maturity and, given the frequency of his output, is set to realise a fulfilled poetic career. His maturation thus far through these five volumes deserves a major critical assessment, and a possible prediction for the direction of his artistic vision.

Foundations of Mathematical Analysis

Destined to become a market classic, *Dynamic Hedging* is the only practical reference in exotic options hedging and arbitrage for professional traders and money managers. Watch the professionals. From central banks to brokerages to multinationals, institutional investors are flocking to a new generation of exotic and complex options contracts and derivatives. But the promise of ever larger profits also creates the potential for catastrophic trading losses. Now more than ever, the key to trading derivatives lies in implementing preventive risk management techniques that plan for and avoid these appalling downturns. Unlike other books that offer risk management for corporate treasurers, *Dynamic Hedging* targets the real-world needs of professional traders and money managers. Written by a leading options trader and derivatives risk advisor to global banks and exchanges, this book provides a practical, real-world methodology for monitoring and managing all the risks associated with portfolio management. Nassim Nicholas Taleb is the founder of Empirica Capital LLC, a hedge fund operator, and a fellow at

the Courant Institute of Mathematical Sciences of New York University. He has held a variety of senior derivative trading positions in New York and London and worked as an independent floor trader in Chicago. Dr. Taleb was inducted in February 2001 in the Derivatives Strategy Hall of Fame. He received an MBA from the Wharton School and a Ph.D. from University Paris-Dauphine.

The M.A.X. Muscle Plan

Interview Poems by Mike and Ruth Yarrow, Photographs by Douglas Yarrow//
Voices from the Appalachian Coalfields is a powerful, compelling collection. The "found" poems of the miners and their spouses along with the photographs of mines and miners combine to bring its readers into the mining community, to feel the challenges of the work, mentally and physically, on the miners and their personal lives. The Yarrows have done a great service by compiling and editing these interviews into poems. These voices have a lot to say about mining life specifically, but also about work and love, and how we all try to balance those things in our daily lives. Their clarity and authenticity, their authority and earned wisdom, and above all, their passion, demand our attention. ~Jim Daniels, author of Eight Mile High: Stories and Apology to the Moon: Poems

Sidney Sheldon's Angel of the Dark

Concert of Voices combines poetry, fiction, drama, and essays in a wide-ranging anthology of world literature in English. The collection includes a number of established writers who despite their great reputations, have often been perceived as standing apart from the main currents of English literature (and have rarely found their way into English Department reading lists). Most selections, though, are by a remarkable range of much less established authors. In addition to the selections, the editor has provided a general introduction and a brief biographical note on each author. "The intention in Concert of Voices is both to provide an alternative text to anthologies of traditional and established writings (in which the new writings in English invariably are displaced and marginalized) and to complement these anthologies. In this regard, the word 'other'—which points up apartness and division—was found wanting and dropped from the provisional main title. Its omission draws attention to a concept (and conviction) operative in the construction of the anthology: despite historical and cultural specificities (the focus of cross-cultural and multicultural studies), commonalities and affinities exist among these writings and between writing on both sides of the hegemonic divide. The anthology, then, is not intended simply as an offering of sociological or anthropological insights into these 'different' peoples. The pieces in Concert of Voices also demonstrate that imaginative writings can evolve from a cocoon of particularities into what can be called—modifying a catch-phrase of certain other

disciplines—Literature Without Borders." - from the introduction

Sons of Isaac

NEW YORK TIMES BESTSELLER • This inspiring guide to healing and growth illuminates the richness and potential of every life, even in the face of loss and adversity—now updated with additional toolbox materials and a new preface by the author In the more than twenty-five years since she co-founded Omega Institute—now the world's largest center for spiritual retreat and personal growth—Elizabeth Lesser has been an intimate witness to the ways in which people

weather change and transition. Lesser shares tales of ordinary people who have risen from the ashes of illness, divorce, loss of a job or a loved one—stronger, wiser, and more in touch with their purpose and passion. And she draws on the world's great spiritual and psychological traditions to support us as we too learn to break open and blossom into who we were meant to be.

The Sugar Masters

Recent research has demonstrated a loss of verbalization, or grasp of the Christian language, in the emerging generations of Western Christianity. As contemporary culture rejects Christian identity more and more, subsequent generations are losing the ability to proclaim their faith well. This is particularly troubling for those on the theological campus seeking to train and disciple today's emerging adults as the next generation of ministers. *Emerging Voices* attempts to identify factors behind this phenomenon and to map out a better way forward, particularly for the theological campus. As contemporary issues such as the elimination of faith from public discourse and the ubiquitous influence of technology shape students in the years before college, what can be done to reclaim the Christian language for students tasked with preaching the gospel? This project combines a deep dive into some of the leading research regarding religion and spirituality in youth and emerging adulthood, alongside of a focused study group. In uniting these approaches, *Emerging Voices* attempts to give expression to those who most need to be heard in the coming decades of the Christian church in Western culture.

Willa Cather

An anthology like this has been a long time coming. For the last fifteen years, every place we come together, whether it was The World Stage, or someones party, a birthday gathering, a childs naming ceremony, a funeral or a home-going, whether it was a cement corner or Fifth Street Dicks (Richard Fultons place) backed up by a jazz band, we have always brought words. We all knew "this anthology" needed to happen, but we were busy living and loving, making babies and building careers. And, of course, we were writing. Yet, we knew a renaissance was happening in Los Angeles, akin to the Harlem Renaissance. But we were

caught up in it, shaking, grinding our pencils down, downing endless cups of coffee at a table outside Fifth Street, trying to find the words to say it precisely the way our heart was beating the sounds out. Blurbs: "There are convergences - spatial, political, cultural and artistic - that define a people's spirit and leave an indelible mark on the world's psyche. To say that this anthology is important or a landmark moment is to state the obvious. The work in this anthology weaves a tight rope around power and proves that the particular is the universal, the historical is the eternal and the ancestral soul is the dance of art. With the delicacy of an old school album, the music here is all flame and these poets are all fire people. Surrender to the sweet burn." - Chris Abani, author of *The Virgin of Flames* and *GraceLand*. "These Shaman Poets continue to renew and resurrect the power of verse, the sacredness of truth, and the eternal dance of words on pages and stages, as poets do everywhere, in righting and re-writing the world. If there were ever a time for such courageous word weavers, it's now." - Luis J. Rodriguez, acclaimed poet and founder/editor of Tia Chucha Press. About the Editor: Shonda Buchanan, poet and journalist, is a fellow of the Sundance Institute, PEN Center USA West Emerging Voices and the California Community Foundation. An assistant professor of English at Hampton University, Shonda is currently editing a novel, a memoir, a collection of poetry and a novella.

Concert of Voices

Depicts the mansions and estates of Louisiana's River Road

Playing with Theory in Theatre Practice

Focusing on the master-slave relationship in Louisiana's antebellum sugarcane country, *The Sugar Masters* explores how a modern, capitalist mind-set among planters meshed with old-style paternalistic attitudes to create one of the South's most insidiously oppressive labor systems. As author Richard Follett vividly demonstrates, the agricultural paradise of Louisiana's thriving sugarcane fields came at an unconscionable cost to slaves. Thanks to technological and business innovations, sugar planters stood as models of capitalist entrepreneurship by midcentury. But above all, labor management was the secret to their impressive success. Follett explains how in exchange for increased productivity and efficiency they offered their slaves a range of incentives, such as greater autonomy, improved accommodations, and even financial remuneration. These material gains, however, were only short term. According to Follett, many of Louisiana's sugar elite presented their incentives with a "facade of paternal reciprocity" that seemingly bound the slaves' interests to the apparent goodwill of the masters, but in fact, the owners sought to control every aspect of the slaves' lives, from reproduction to discretionary income. Slaves responded to this display of paternalism by trying to enhance their rights under bondage, but the constant bargaining process invariably led to compromises on their part, and the grueling production pace never relented. The only respite from their masters' demands lay in fashioning their own society, including outlets for religion, leisure, and trade. Until recently, scholars have viewed planters as either paternalistic lords who eschewed marketplace values or as entrepreneurs driven to business success. Follett offers a new view of the sugar masters as embracing both the capitalist market and a social ideology based on hierarchy, honor, and paternalism. His stunning synthesis of empirical research, demographics study, and social and cultural history sets a new standard for this subject.

Why Globalization Works

Christmas Eve started out so perfectly for Maria. Snow had fallen and the streets glittered. Maria's favorite cousins were coming over and she got to help make the tamales for Christmas dinner. It was almost too good to be true when her mother left the kitchen for a moment and Maria got to try on her beautiful diamond ring . . . This is the story of a treasure thought to be lost in a batch of tamales; of a desperate and funny attempt by Maria and her cousins to eat their way out of trouble; and the warm way a family pulls together to make it a perfect Christmas after all. Also available in Spanish as ¡Qué montón de tamales!

The Complete Idiot's Guide to Green Cleaning

In *Henry James and Queer Modernity*, first published in 2003, Eric Haralson examines far-reaching changes in gender politics and the emergence of modern male homosexuality as depicted in the writings of Henry James and three authors who were greatly influenced by him: Willa Cather, Gertrude Stein and Ernest Hemingway. Haralson places emphasis on American masculinity as portrayed in fiction between 1875 and 1935, but the book also treats events in England, such as the Oscar Wilde trials, that had a major effect on American literature. He traces James's engagement with sexual politics from his first novels of the 1870s to his 'major phase' at the turn of the century. The second section of this study measures James's extraordinary impact on Cather's representation of 'queer' characters, Stein's theories of writing and authorship as a mode of resistance to modern sexual regulation, and Hemingway's very self-constitution as a manly American author.

Dynamic Hedging

A powerful case for the global market economy The debate on globalization has reached a level of intensity that inhibits comprehension and obscures the issues. In this book a highly distinguished international economist scrupulously explains how globalization works as a concept and how it operates in reality. Martin Wolf confronts the charges against globalization, delivers a devastating critique of each, and offers a realistic scenario for economic internationalism in the future. Wolf begins by outlining the history of the global economy in the twentieth century and explaining the mechanics of world trade. He dissects the agenda of globalization's critics, and rebuts the arguments that it undermines sovereignty, weakens democracy, intensifies inequality, privileges the multinational corporation, and devastates the environment. The author persuasively defends the principles of international economic integration, arguing that the biggest obstacle to global economic progress has been the failure not of the market but of politics and government, in rich countries as well as poor. He examines the threat that terrorism poses and maps the way to a global market economy that can work for everyone.

From breakout author Monica Murphy comes the exhilarating conclusion to Drew and Fable's story—the star-crossed young romance that began in *One Week Girlfriend*. Lost. Everything in my life can be summed up by that one sickening word. My football coach blames me for our season-ending losses. So does the rest of the team. I wasted two whole months drowning in my own despair, like a complete loser. And I lost my girlfriend—Fable Maguire, the only girl who ever mattered—because I was afraid that being with me would only hurt her. But now I realize that I'm the one who's truly lost without her. And even though she acts like she's moved on and everything's fine, I know she still thinks about me just as much as I think about her. I know her too well. She's so damn vulnerable, all I want to do is be there to help her . . . to hold her . . . to love her. I just need her to give me one more chance. We may be lost without each other, but together, we're destined to find a love that lasts forever. **BONUS:** This edition includes an excerpt from Monica Murphy's *Three Broken Promises*.

Memories of the Old Plantation Home

Introduction to Computer Security is appropriate for use in computer-security courses that are taught at the undergraduate level and that have as their sole prerequisites an introductory computer science sequence. It is also suitable for anyone interested in a very accessible introduction to computer security. A Computer Security textbook for a new generation of IT professionals Unlike most other computer security textbooks available today, Introduction to Computer Security, does NOT focus on the mathematical and computational foundations of security, and it does not assume an extensive background in computer science. Instead it looks at the systems, technology, management, and policy side of security, and offers students fundamental security concepts and a working knowledge of threats and countermeasures with "just-enough" background in computer science. The result is a presentation of the material that is accessible to students of all levels. Teaching and Learning Experience This program will provide a better teaching and learning experience-for you and your students. It will help: Provide an Accessible Introduction to the General-knowledge Reader: Only basic prerequisite knowledge in computing is required to use this book. Teach General Principles of Computer Security from an Applied Viewpoint: As specific computer security topics are covered, the material on computing fundamentals needed to understand these topics is supplied. Prepare Students for Careers in a Variety of Fields: A practical introduction encourages students to think about security of software applications early. Engage Students with Creative, Hands-on Projects: An excellent collection of programming projects stimulate the student's creativity by challenging them to either break security or protect a system against attacks. Circe's Lament

Dealing openly and seriously with Cather's lesbianism, the book explores the importance of female friendships in Cather's life and work and assesses the impact that her need to conceal her sexual identity had on the creative process. Concentrating on Cather's childhood, adolescence, young womanhood, and lengthy apprenticeship, O'Brien paints the portrait of the artist as a young woman and reveals the complex interplay between Willa Cather's life and her work.

Neuroanatomy Through Clinical Cases

Through a collection of original essays and case studies, this innovative book explores theory as an accessible, although complex, tool for theatre practitioners and students. These chapters invite readers to (re)imagine theory as a site of possibility or framework that can shape theatre making, emerge from practice, and foster new ways of seeing, creating, and reflecting. Focusing on the productive tensions and issues that surround creative practice and intellectual processes, the contributing authors present central concepts and questions that frame the role of theory in the theatre. Ultimately, this diverse and exciting collection offers inspiring ideas, raises new questions, and introduces ways to build theoretically-minded, dynamic production work.
