### The Dark Mind

Drawn into an alien conflict when his ship is taken over and pitted against a dangerous ancient enemy, Colin MacIntyre takes on the task of defeating a group of immortals who have been secretly ruling the Earth.

### Midst Toil and Tribulation

Although The People's Republic of Haven believed Honor Harrington to be already dead and announced her execution, she returned from the prison planet called Hell, ready to aid the Allies' cause in the war.

### With the Lightnings

Continuing from Count to a Trillion, Menelaus Illation Montrose—Texas gunslinger, idealist, and posthuman genius—has gone into cryo-suspension following the discovery that, in 8,000 years, a powerful alien intelligence will reach Earth to assess humanity's value as slaves. Montrose intends to be alive to meet that threat, but he is awakened repeatedly throughout the centuries to confront the woes of an ever-changing and violent world, witnessing millennia of change compressed into a few years of subjective time. The result is a breathtaking vision of future history like nothing before imagined: sweeping, tumultuous, and evermore alien, as Montrose's immortal enemies and former shipmates from the starship Hermetic harness the forces of evolution and social engineering to continuously reshape the Earth in their image, seeking to create a version of man the approaching slavers will find worthy. ## **The Hermetic Millennia**

David Weber's Like a Mighty Army is the hotly anticipated seventh volume in the New York Times bestselling Safehold series. For centuries, the world of Safehold, last redoubt of the human race, lay under the unchallenged rule of the Church of God Awaiting. The Church permitted nothing new--no new inventions, no new understandings of the world. What no one knew was that the Church was an elaborate fraud--a high-tech system established by a rebel faction of Safehold's founders, meant to keep humanity hidden from the powerful alien race that had destroyed old Earth. Then awoke Merlyn Athrawes, cybernetic avatar of a warrior a thousand years dead, felled in the war in which Earth was lost. Monk, warrior, counselor to princes and kings, Merlyn has one purpose: to restart the history of the too-long-hidden human race. And now the fight is thoroughly underway. The island empire of Charis has declared its independence from the Church, and with Merlyn's help has vaulted forward into a new age of steam-powered efficiency. Fending off the wounded Church, Charis has drawn more and more of the countries of Safehold to the cause of independence and self-determination. But at a heavy cost in bloodshed and loss--a cost felt by nobody more keenly than Merlyn Athrawes. The wounded Church is regrouping. Its armies and resources are vast. The fight for humanity's future isn't over, and won't be over soon.

## **The Armageddon Inheritance**

AMERICAN FREEDOM AND JUSTICE VS. THE TYRANNIES OF THE SEVENTEENTH CENTURY The new government in central Europe, called the Confederated Principalities of Europe, was formed by an alliance between Gustavus Adolphus, King of Sweden, and the West Virginians led by Mike Stearns who were transplanted into 17th-century Germany by a mysterious

cosmic accident. The new regime is shaky. Outside its borders, the Thirty Years War continues to rage. Within, it is beset by financial crisis as well as the political and social tensions between the democratic ideals of the 20th-century Americans and the aristocracy which continues to rule the roost in the CPE as everywhere in Europe. Worst of all, the CPE has aroused the implacable hostility of Cardinal Richelieu, the effective ruler of France. Richelieu has created the League of Ostend in order to strike at the weakest link in the CPE's armor<sup>3</sup>/<sub>4</sub>its dependence on the Baltic as the lifeline between Gustav Adolf's Sweden and the rest of his realm. The greatest naval war in European history is about to erupt. Like it or not, Gustavus Adolphus will have to rely on Mike Stearns and the technical wizardry of his obstreperous Americans to save the King of Sweden from ruin. Caught in the conflagration are two American diplomatic missions abroaRebecca Stearns' mission to France and Holland, and the embassy which Mike Stearns sent to King Charles of England headed by his sister Rita and Melissa Mailey. Rebecca finds herself trapped in war-torn Amsterdam; Rita and Melissa, imprisoned in the Tower of London. And much as Mike wants to transport 20th-century values into war-torn 17th-century Europe by Sweet Reason, still he finds comfort in the fact that Julie, who once trained to be an Olympic marksman, still has her rifle . . . At the publisher's request, this title is sold without DRM (Digital Rights Management).

## **We Few**

The Church of God Awaiting's triumph over Charis was inevitable. Despite its prosperity, the Charis was a single, small island realm. It boasted less than two percent of the total population of Safehold. How could it possibly resist total destruction? The Church had every reason to be confident of a swift, crushing victory, an object lesson to other rebels. But Charis had something far more powerful than simple numbers. It had a king, a crown prince, and a navy prepared to die where they stood in its defense. It had the Brethren of Saint Zherneau, who knew the truth about Safehold's founding. Who knew that the Church of God Awaiting was a monstrous lie. And it had Merlin Athrawes, last survivor of long-vanished Earth. Merlin, the cybernetic avatar of a woman dead over a thousand years, who was determined to break the Church's grip upon the human mind and soul. So after eight years of war, it is not Charis but the Church that stands upon the brink of defeat. But the Church still commands immense resources, and - faced with the unthinkable - it's decided that it, too, must embrace the forbidden technology which has carried Charis so far. In the end, it is simple, for only one can survive. The lines are drawn, the navies and armies have been raised, and all of Safehold is poised for the final battle between those who believe in freedom and those who would crush it forever.

## **By Heresies Distressed**

S. M. Stirling presents his first Novel of the Change, the start of the New York Times bestselling postapocalyptic saga set in a world where all technology has been rendered useless. The Change occurred when an electrical storm centered over the

island of Nantucket produced a blinding white flash that rendered all electronic devices and fuels inoperable—and plunged the world into a dark age humanity was unprepared to face Michael Pound was flying over Idaho en route to the holiday home of his passengers when the plane's engines inexplicably died, forcing a less than perfect landing in the wilderness. And as Michael leads his charges to safety, he begins to realize that the engine failure was not an isolated incident. Juniper McKenzie was singing and playing guitar in a pub when her small Oregon town was thrust into darkness. Now, taking refuge in her family's cabin with her daughter and a growing circle of friends, Juniper is determined to create a farming community to benefit the survivors of this crisis. But even as people band together to help one another, others are building armies for conquest

## **There Will be Dragons, Second Edition**

With humankind reduced to a single colony on the distant world of Safehold by a ruthless alien enemy, the human rulers of the planet will do anything to preserve the remnants of their industrial civilization, including building a religion designed to hide the colony by keeping its society medieval, until the awakening of an android signals a chance for humankind to regain its place. 150,000 first printing.

## **Man-Kzin Wars XIII**

Left stranded on the barbarian planet Marduk with a group of Royal Marines, Prince Roger MacClintock and his followers set out to recapture an interstellar empire from enemies who have branded Roger a traitor and outlaw.

MUTINY For Lt. Commander Colin MacIntyre, it began as a routine training flight over the Moon. For Dahak, a self-aware Imperial battleship, it began millennia ago when that powerful artificial intelligence underwent a mutiny in the face of the enemy. The mutiny was never resolved-Dahak was forced to maroon not just the mutineers but the entire crew on prehistoric Earth. Dahak has been helplessly waiting as the descendants of the loyal crew regressed while the mutineers maintained control of technology that kept them alive as the millennia passed. But now Dahak's sensors indicate that the enemy that devastated the Imperium so long ago has returned-and Earth is in their path. For the sake of the planet, Dahak must mobilize its defenses. And that it cannot do until the mutineers are put down. So Dahak has picked Colin MacIntyre to be its new captain. Now MacIntyre must mobilize humanity to destroy the mutineers once and for all-or Earth will become a cinder in the path of galactic conquest. ## **Uncompromising Honor**

The launch of a new science fiction adventure series--by the New York Times-best selling author of the Safehold series and the Honor Harrington series The Galactic Hegemony has been around a long time, and it likes stability--the kind of stability that member species like the aggressive, carnivorous Shongairi tend to disturb. So when the Hegemony Survey Force encountered a world whose so-called "sentients"--"humans," they called themselves--were almost as bad as the Shongairi themselves, it seemed reasonable to use the Shongairi to neutralize them before they could become a second threat to galactic peace. And if the Shongairi took a few knocks in the process, all the better. Now, Earth is conquered. The Shongairi have arrived in force, and humanity's cities lie in radioactive ruins. In mere minutes, more than half the human race has died. Master Sergeant Stephen Buchevsky, who thought he was being rotated home from his latest tour in Afghanistan, finds himself instead prowling the back country of the Balkans, dodging alien patrols and trying to organize scattered survivors without getting killed. And in the southeastern US, firearms instructor and former Marine Dave Dvorak finds himself at the center of a growing network of resistance--putting his extended family at lethal risk, but what else can you do? On the face of it, Buchevsky's and Dvorak's chances look bleak, as do prospects for the rest of the surviving human race. But it may well be that Shongairi and the Hegemony alike have underestimated the inhabitants of that strange planet called Earth in David Weber's Out of the Dark. ## **The Safehold Series, Volume I**

In New York Times-bestselling science fiction epic Out of the Dark, Earth beat back an alien invasion. Now we've got to make sure they don't come back, in Into the Light. The Shongairi conquered Earth. In mere minutes, half the human race died, and our cities lay in shattered ruins. But the Shongairi didn't expect the survivors' tenacity. And, crucially, they didn't know that Earth harbored two species of intelligent, tool-using bipeds. One of them was us. The other, long-lived and lethal, was hiding in the mountains of eastern Europe, the subject of fantasy and legend. When they emerged and made alliance with humankind, the invading aliens didn't stand a chance. Now Earth is once again ours. Aided by the advanced tech the

aliens left behind, we're rebuilding as fast as we can. Meanwhile, a select few of our blood-drinking immortals are on their way to the Shongairi homeworld, having commandeered one of the alien starshipsthe planet-busting kind. ## **The Killing of Worlds**

Humanity pushed its way to the stars - and encountered the Gbaba, a ruthless alien race that nearly wiped us out. Earth and her colonies are now smoldering ruins, and the few survivors have fled to distant, Earth-like Safehold, to try to rebuild. But the Gbaba can detect the emissions of an industrial civilization, so the human rulers of Safehold have taken extraordinary measures: with mind control and hidden high technology, they've built a religion in which every Safeholdian believes, a religion designed to keep Safehold society medieval forever. 800 years pass. In a hidden chamber on Safehold, an android from the far human past awakens. This "rebirth" was set in motion centuries before, by a faction that opposed shackling humanity with a concocted religion. Via automated recordings, "Nimue" - or, rather, the android with the memories of Lieutenant Commander Nimue Alban - is told her fate: she will emerge into Safeholdian society, suitably disguised, and begin the process of provoking the technological progress which the Church of God Awaiting has worked for centuries to prevent. Nothing about this will be easy. To better deal with a medieval society, "Nimue" takes a new gender and a new name, "Merlin." His formidable powers and access to caches of hidden high technology will need to be carefully concealed. And he'll need to find a base of operations, a Safeholdian country that's just a little more freewheeling, a little less orthodox, a little more open to the new. And thus Merlin comes to Charis, a mid-sized kingdom with a talent for naval warfare. He plans to make the acquaintance of King Haarahld and Crown Prince Cayleb, and maybe, just maybe, kick off a new era of invention. Which is bound to draw the attention of the Churchand, inevitably, lead to war. It's going to be a long, long process. And David Weber's epic Off Armageddon Reef is can't-miss sci-fi. veil of peace has fallen over human colonies, the quiet will not last. ## **A Hymn Before Battle**

A science-fiction epic from the New York Times bestselling author Here is the saga of humanity reduced, by an implacable alien enemy, to inhabiting a single colony on the distant world of Safehold. To avoid drawing the attention of the enemy through the busy signals of an industrial civilization, the human rulers of Safehold have taken an extraordinary measure. With mind control and hidden high technology, they have built a religion in which every Safeholdian believes, one designed to keep Safehold society medieval and unnoticed forever. After disagreement about the wisdom and justice of this course, the dissenters were ruthlessly eliminated. Centuries have passed and now, in a hidden chamber on Safehold, an android initiates a rebirth set in motion centuries before. A rebirth that will provide the only remaining humans with their last chance to learn the truth and to rejoin the universe. It is destined to be a tremendous undertaking, unfolding a story of deception and ignorance, freedom and tyranny, and the liberating power of the truth.

## **Mutineer's Moon**

There he was in his sailboat in the middle of the Atlantic, all alone and loving it. Well, there was a US Navy carrier group on his southern horizon, but he was a Navy guy himself, so he didn't mind. Then came the UFOs, hurtling in from the Outer Black to overfly the carriers at Mach 17. Their impossible aerobatics were bad enough<sup>3/4</sup>but then they started shooting at each other. And at the Navy. With nukes. Little ones at first, but winding up with a 500 megatonner at 90 miles that fried every piece of electronics within line-of-sight. Richard Ashton thought he was just a ringside observer to these now over-the-horizon events. Until the crippled alien lifeboat came drifting down and homed in on his sailboat; suddenly he has his hands full of an unconscious, critically wounded and impossibly human alien warrior who also happens to be a gorgeous female. ago, the human race fought its first great war against an alien race-and lost. A tiny population of human beings fled to distant Safehold. Centuries later, their descendants have forgotten their history; for them, life has been an eternal Middle Ages, ruled by the Church of God Awaiting, whose secret purpose is to prevent the re-emergence of industrial civilization. But not all of Safehold's founders were on board with this plan. Those dissidents left behind their own secret legacies. One of those is Merlyn Athrawes, cybernetic avatar of one of Earth's long-dead defenders, now reawakened after a thousand years to restart human progress and reclaim our place in the universe. Merlyn has intervened in the small Safeholdian realm of Charis, seeding it with ideas and innovations and helping it to rise to challenge the hegemony of the Church. It's been a long and bloody fight, but aided by a stream of inventions--breach-loading rifles, signal rockets, claymore mines, new approaches to manufacturing and supply-Charis and its few allies seem to have finally gained the upper hand. A secret agent aboard a galactic railroad must derail a sinister conspiracy in this “rip-roaring” thriller by the author of Star Wars: Thrawn (Publishers Weekly). The universe is a dangerous place, a fact violently brought home to Frank Compton for perhaps the thousandth time when a stranger delivering a message dies right in front of him. An operative for Western Alliance Intelligence until his whistle-blowing activities got him fired, Compton is now being sought out by the Spiders, the robotic alien beings responsible for the upkeep and operation of the Quadrail transportation system, which connects the galaxy’s twelve inhabited empires. The discovery of a sinister plot to use the Quadrail for ill has brought the Spiders to Compton—for only someone possessing the former agent’s unique skills can stop the scheme for good. But when Compton leaves Earth behind—joining forces with Bayta, the Spiders’ beautiful, half-human representative aboard the Quadrail—the terrifying scope of a vast, galaxy-wide conspiracy begins to reveal itself. Targeted on all sides by alien assassins of every shape and species, Compton and his enigmatic new partner are suddenly in a race against a clock ticking down to an irreversible doomsday, one in which the galactic night train will derail, carrying all members of humanity screaming to their deaths. The first in the Quadrail series from the Hugo Award-winning author of Blackcollar and many New York Times–bestselling Star Wars novels, Night Train to Rigel is an action-packed “great read” (Booklist).

## **Off Armageddon Reef**

In David Weber's *By Heresies Distressed*, the battle for the soul of the planet Safehold has begun. The Kingdom of Charis and the Kingdom of Chisholm have joined together, pledged to stand against the tyranny of a corrupt Church. The youthful Queen Sharleyan of Chisholm has wed King Cayleb of Charis, forging a single dynasty, a single empire, dedicated to the defense of human freedom. Crowned Empress of that empire, Sharleyan has found in Cayleb's arms the love she never dared hope for in a "marriage of state." In Cayleb's cause, his defiance of the ruthless Group of Four who govern mother Church, she has found the task to which she can commit her mind and her courage. It is a cause for which she was born. Yet there are things Sharleyan still does not know. Secrets Cayleb has not been permitted to share, even with her. Secrets like the true story of humanity on Safehold. Like the intricate web of lies, deception, and fabricated "religion" which have chained humanity for almost a thousand years. Like the existence of the genocidal alien Gbaba, waiting to complete mankind's destruction should humans ever attract their attention once more. Like the existence of a young woman, Nimue Alban, nine hundred years dead, whose heart, mind, and memories live on within the android body of the warrior-monk she knows as Merlin. And so Empress Sharleyan faces the great challenge of her life unaware of all that task truly entails or of how the secrets the man who loves her cannot share may threaten all they have achieved between them and her own life.

## **The Wolf Worlds**

The sequel to the New York Times best seller Off Armageddon Reef The world has changed. The mercantile kingdom of Charis has prevailed over the alliance designed to exterminate it. Armed with better sailing vessels, better guns and better devices of all sorts, Charis faced the combined navies of the rest of the world at Darcos Sound and Armageddon Reef, and broke them. Despite the implacable hostility of the Church of God Awaiting, Charis still stands, still free, still tolerant, still an island of innovation in a world in which the Church has worked for centuries to keep humanity locked at a medieval level of existence. But the powerful men who run the Church aren't going to take their defeat lying down. Charis may control the world's seas, but it barely has an army worthy of the name. And as King Cayleb knows, far too much of the kingdom's recent good fortune is due to the secret manipulations of the being that calls himself Merlin-a being that, the world must not find out too soon, is more than human. A being on whose shoulders rests the last chance for humanity's freedom. Now, as Charis and its archbishop make the rift with Mother Church explicit, the storm gathers. ## **Into the Light**

FIRST NEW HONOR HARRINGTON NOVEL IN FIVE YEARS! New York Times, USA Today, Wall Street Journal and international best-selling phenomenon David Weber delivers book #19 in the multiple New York Times best-selling Honor Harrington series, the first new Honor Harrington novel since 2013's *Shadow of Freedom*. HONOR'S FINISHING WHAT SHE STARTED The Solarian League's navy counts its superdreadnoughts by the thousands. Not even its own government knows how enormous its economy truly is. And for hundreds of years, the League has borne the banner of human civilization, been the ideal to which humanity aspires in its diaspora across the galaxy. But the bureaucrats known as the "Mandarins," who rule today's League, are not the men and women who founded it so long ago. They are corrupt, venal, accountable to no one . . . and they've decided the upstart Star Kingdom of Manticore must be destroyed. Honor Harrington has worn the Star Kingdom's uniform for half a century and served her monarch and her people well. In the course of those years, the woman the newsies call the Salamander has grown from a tactically brilliant but politically naïve junior officer to supreme fleet command and a seat on the highest military and political councils of the Grand Alliance. Very few people know war the way Honor Harrington does. Very few have lost as many men and women, as many friends, as much family, as she has. Yet despite that, hers has been a voice of caution. She knows the Mandarins and the Solarian League Navy are growing increasingly desperate as the truth of their technological inferiority sinks home, but she also knows the sheer size of the League. And she knows how its citizens will react if the Grand Alliance takes the war to the League, attacks its star systems, destroys its infrastructure . . . kills its civilians. Today's victory, bought on those terms, can only guarantee a future war of revenge against a resurgent Solarian League and its navy. Honor knows the Grand Alliance must find a victory that doesn't require incursions deep into Solarian space, doesn't leave a legacy of bottomless hatred, and the strategy she supports has been working. The League is sliding towards inglorious defeat as it steadily loses ground in the Protectorates and the Verge. As its central government teeters towards bankruptcy and even some of its core systems opt to secede in the face of the Mandarins' corruption. As the Solarian Navy finally realizes it cannot face an Alliance battle fleet and win. But the Mandarins have embraced a desperate new strategy, and in pursuit of that strategy, the SLN has committed atrocities such as the galaxy has not known in a thousand years. The League have violated its own Eridani Edict against mass civilian casualties, violated the Deneb Accords prohibition on war crimes. And they have finally killed too many of the people Honor Harrington loves. Hers is the voice of caution and compromise no longer, and the galaxy is about to see something it has never imagined. The Salamander is coming for the Solarian League, and Hell is coming in her wake. At the publisher's request, this title is sold without DRM (Digital Rights Management).
