A Dictionarie of the French and English Tongves

His beloved Crow wife, Victoria, critically wounded in a Blackfeet raid, Barnaby Skye struggles to bring her to her home village for help, an endeavor that is challenged by a renegade band of Yankee traders who are attempting to sell illicit liquor to the Native Americans. By the author of Downriver and The Fields of Eden. Reprint.

The Coup

Little Bighorn Battlefield National Monument

This invaluable resource provides a comprehensive historical and demographic overview of American Indians along with more than 100 cross-referenced entries on American Indian culture, exploring everything from arts, literature, music, and dance to food, family, housing, and spirituality. American Indian Culture: From Counting Coup to Wampum is organized by cultural form (Arts; Family, Education, and Community; Food; Language and Literature; Media and Popular Culture; Music and Dance; Spirituality; and Transportation and Housing). Examples of topics covered include icons of Native culture, such as pow wows, Indian dancing, and tipi dwellings; Native art forms such as pottery, rock art, sandpainting, silverwork, tattooing, and totem poles; foods such as corn, frybread, and wild rice; and Native Americans in popular culture. The

extensive introductory section, breadth of topics, accessibly written text, and range of perspectives from the many contributors make this work a must-have resource for high school and undergraduate audiences. • Serves to document how many attributes of Native cultures derive from a rich tapestry of American Indian cultural forms, such as very well-known foods like corn, potatoes, turkey, peanuts, and chocolate • Includes numerous spotlights that highlight interesting topics such as the Indigenous Language Institute, the kiva, counting coup, buffalo hunt customs and protocols, and Dakota language in rap music • Offers further readings and additional sources with the entries to guide students or interested readers in their research

The Framers' Coup

Anthills of the Savannah

One of the most elite educational institutions in the world, the Air Force Academy has, from its inception, attracted the best and the brightest, producing leaders not only in the military but throughout American society. In recent years, however, the Academy has also been producing a cadre of zealous evangelical Christians intent on creating a fundamentalist power base at the highest levels of our country. *With God on Our Side* is shocking exposé of life inside the United States Air Force Academy and the systematic program of indoctrination sanctioned, coordinated, and carried out by fundamentalist Christians within the U.S. military. It is also the story of Michael L. Weinstein, a proud Academy graduate and the father of two graduates and a current cadet, who single-handedly brought to light the evangelicals' utter disregard of the constitutional principle of separation of church and state that is so essential to the nation's military mission. Weinstein's war would pit him and his small band of fellow graduates, cadets, and concerned citizens against a program of Christian fundamentalist indoctrination that could transform our fighting men and women into "right-thinking" warriors more befitting a theocracy. In the process, he would come face to face with religious bigotry and at its most extreme and fight an unrelenting battle to save his beloved Academy, the ideals it stood for, and the very future of the country. An important book at a critical time in our nation's history, *With God on Our Side* is the story of one man's courageous struggle to thwart a creeping evangelism permeating America's military and to prevent a taxpayer-funded theocracy in which only the true believers have power.

The Poisonwood Bible

Secrets of the Blue Cliff Record

Bitter Fruit is a comprehensive and insightful account of the CIA operation to overthrow the democratically elected government of Jacobo Arbenz of Guatemala in 1954. First published in 1982, this book has become a classic, a textbook case of the relationship between the United States and the Third World. The authors make extensive use of U.S. government documents and interviews with former CIA and other officials. It is a warning of what happens when the United States abuses its power.

A New and Enlarged Military Dictionary, in French and English, in which are Explained the Principal Terms, with Appropriate Illustrations of All the Sciences that Are, More Or Less, Necessary for an Officer and Engineer

Ordinary Heros, Extraordinary Deeds The bestselling author of Kane & Abel, The Prodigal Daughter and Honor Among Theives once again astonishes, delights, and electrifies his legions of fans. From London to China, and New York to Nigeria, Jeffrey Archer takes the reader on a tour of ancient heirlooms and modern romance, of cutthroat business and kindly strangers, of lives lived in the realms of power and lives freed from the gloom of oppression. Fortunes are made and squandered, honor betrayed and redeemed, and love lost and rediscovered. Embracing the passions that drive men and women to love and to hate, the short stories in A Quiver Full of Arrows will captivate the hearts and souls of readers of everywhere.

The Standard Sanskrit-English Dictionary

Bitter Fruit

In Native American tradition, a warrior gained honor and glory by "counting coup" -- touching his enemy in battle and living to tell the tale. This is a modern story of COUNTING COUP In this extraordinary work of journalism, Larry Colton journeys into the world of Montana's Crow Indians and follows the struggles of a talented, moody, charismatic young woman named Sharon LaForge, a gifted basketball player and a descendant of one of George Armstrong Custer's Indian scouts. But "Counting Coup" is far more than just a sports story or a portrait of youth. It is a sobering exposé of a part of our society long since cut out of the American dream. Along the banks of the Little Big Horn, Indians and whites live in age-old conflict

and young Indians grow up without role models or dreams. Here Sharon carries the hopes and frustrations of her people on her shoulders as she battles her opponents on and off the court. Colton delves into Sharon's life and shows us the realities of the reservation, the shattered families, the bitter tribal politics, and a people's struggle against a belief that all their children -- even the most intelligent and talented -- are destined for heartbreak. Against this backdrop stands Sharon, a fiery, undaunted competitor with the skill to dominate a high school game and earn a college scholarship. Yet getting to college seems beyond Sharon's vision, obscured by the daily challenge of getting through the season -- physically and ps

The Jungle Book

A look at the rebellious thinkers who are challenging old ideas with their insights into the ways countless elements of complex systems interact to produce spontaneous order out of confusion

Complexity

This volume is an attempt to contextualise the coup attempt of 15 July 2016 in Turkey, within the framework of militarism and masculinities. The immediate aftermath of the 15 July in Turkey witnessed confusion, contestation and negotiation among different narratives, until a hegemonic version was superimposed on the collective memory as part of official history building. This project is an attempt to bring a fresh and critical perspective by compiling together analyses from various disciplines of political science, media and film studies, literature, sociology and cultural studies. Several chapters of this volume delineate the paradox of "victorious militarism," meaning that despite the failure of the coup, its aftermath has been shaped by a new wave of state-sponsored gendered militarism, with the establishment of a regime of "state of emergency."

Imaging of Diseases of the Chest E-Book

Americans revere their Constitution. However, most of us are unaware how tumultuous and improbable the drafting and ratification processes were. As Benjamin Franklin keenly observed, any assembly of men bring with them "all their prejudices, their passions, their errors of opinion, their local interests and their selfish views." One need not deny that the Framers had good intentions in order to believe that they also had interests. Based on prodigious research and told largely through the voices of the participants, Michael Klarman's *The Framers' Coup* narrates how the Framers' clashing interests shaped the Constitution--and American history itself. The Philadelphia convention could easily have been a failure, and the risk of collapse was always present. Had the convention dissolved, any number of adverse outcomes could have resulted, including civil war or a reversion to monarchy. Not only does Klarman capture the knife's-edge atmosphere of the

convention, he populates his narrative with riveting and colorful stories: the rebellion of debtor farmers in Massachusetts; George Washington's uncertainty about whether to attend; Gunning Bedford's threat to turn to a European prince if the small states were denied equal representation in the Senate; slave states' threats to take their marbles and go home if denied representation for their slaves; Hamilton's quasi-monarchist speech to the convention; and Patrick Henry's herculean efforts to defeat the Constitution in Virginia through demagoguery and conspiracy theories. The Framers' Coup is more than a compendium of great stories, however, and the powerful arguments that feature throughout will reshape our understanding of the nation's founding. Simply put, the Constitutional Convention almost didn't happen, and once it happened, it almost failed. And, even after the convention succeeded, the Constitution it produced almost failed to be ratified. Just as importantly, the Constitution was hardly the product of philosophical reflections by brilliant, disinterested statesmen, but rather ordinary interest group politics. Multiple conflicting interests had a say, from creditors and debtors to city dwellers and backwoodsmen. The upper class overwhelmingly supported the Constitution; many working class colonists were more dubious. Slave states and nonslave states had different perspectives on how well the Constitution served their interests. Ultimately, both the Constitution's content and its ratification process raise troubling questions about democratic legitimacy. The Federalists were eager to avoid full-fledged democratic deliberation over the Constitution, and the document that was ratified was stacked in favor of their preferences. And in terms of substance, the Constitution was a significant departure from the more democratic state constitutions of the 1770s. Definitive and authoritative, The Framers' Coup explains why the Framers preferred such a constitution and how they managed to persuade the country to adopt it. We have lived with the consequences, both positive and negative, ever since.

Kingdom of Ash and Soot (Book One of The Order of the Crystal Daggers)

Everyone Lies. PRAGUE, 1870. For the last ten years, nineteen-year-old Eleanora Svobodová has worked as a servant in her stepmother's household. Along with her older brother, she dreams of the day they will be free to live life on their own terms. But everything changes when their estranged grandmother comes to Prague on behalf of Queen Victoria. Throughout Bohemia, a string of murders and secret whispers hint at a larger coup. As the leader of the Order of the Crystal Daggers, an ancient order of spies and soldiers that protect kingdoms and their rulers, Lady Penelope is determined to discover the perpetrators. Now, Eleanora must make the choice between a life of intrigue and saving the lives of others. Can Eleanora find a way do the right thing and still find freedom? FROM THE BOOK: "I want to be free." The words came rushing out of me before I could think through their implications and consequences. "There are two things you need to know about yourself if you want to be free—what you stand for, and what you stand against." Lady Penelope held up her hands, brandishing a pair of daggers that had been hidden in her skirts. "This world lives enslaved to its destruction, and so long as you are living, as long as you are fighting, you will be free." I gazed at the daggers, transfixed. Each blade was clothed in a leather scabbard, but the silver and obsidian of the daggers' hilts winked at me, as though it was calling for me. FROM THE

AUTHOR: With a fun blend of historical fiction, true love, castle intrigue, and family dysfunction, The Order of the Crystal Daggers is my latest adventure series! The Arrow and the Olive Branch

Over 21 million copies sold worldwide

Pharrajimos

An “absorbing” account of the CIA’s 1953 coup in Iran—essential reading for anyone concerned about Iran’s role in the world today (Harper’s Magazine). In August 1953, the Central Intelligence Agency orchestrated the swift overthrow of Iran’s democratically elected leader and installed Muhammad Reza Shah Pahlavi in his place. When the 1979 Iranian Revolution deposed the shah and replaced his puppet government with a radical Islamic republic under Ayatollah Ruhollah Khomeini, the shift reverberated throughout the Middle East and the world, casting a long, dark shadow over United States-Iran relations that extends to the present day. In this authoritative new history of the coup and its aftermath, noted Iran scholar Ervand Abrahamian uncovers little-known documents that challenge conventional interpretations and sheds new light on how the American role in the coup influenced diplomatic relations between the two countries, past and present. Drawing from the hitherto closed archives of British Petroleum, the Foreign Office, and the US State Department, as well as from Iranian memoirs and published interviews, Abrahamian’s riveting account of this key historical event will change America’s understanding of a crucial turning point in modern United States-Iranian relations. A Choice Outstanding Academic Title “Not only is this book important because of its presentation of history. It is also important because it might be predicting the future.” —Counterpunch “Subtle, lucid, and well-proportioned.” —The Spectator “A valuable corrective to previous work and an important contribution to Iranian history.” —American Historical Review

My First Coup D'etat

Vanishing Coup

Meet Joseph Medicine Crow, a man raised in two worlds: according to the Crow Indian traditions and according to White man's rules.

Complete Guide for SSC

We Have Taken a City

This thoughtful and engaging book offers the first extended analysis of coups, a central factor shaping world history and politics. Ivan Perkins introduces a new theory to explain why a military coup or revolution is such an unthinkable prospect in advanced democracies. Focusing especially on the first three coup-free states—the Venetian Republic, Great Britain, and the United States—the book traces the evolutionary origins of political violence and the historical rise of republican government. Perkins concludes with a new explanation for the “democratic peace” and shows why coup-free states form enduring alliances.

Counting Coup

Is the purpose of political philosophy to articulate the moral values that political regimes would realize in a virtually perfect world and show what that implies for the way we should behave toward one another? That model of political philosophy, driven by an effort to draw a picture of an ideal political society, is familiar from the approach of John Rawls and others. Or is political philosophy more useful if it takes the world as it is, acknowledging the existence of various morally non-ideal political realities, and asks how people can live together nonetheless? The latter approach is advocated by “realist” thinkers in contemporary political philosophy. In *Value, Conflict, and Order*, Edward Hall builds on the work of Isaiah Berlin, Stuart Hampshire, and Bernard Williams in order to establish a political realist’s theory of politics for the twenty-first century. The realist approach, Hall argues, helps us make sense of the nature of moral and political conflict, the ethics of compromising with adversaries and opponents, and the character of political legitimacy. In an era when democratic political systems all over the world are riven by conflict over values and interests, Hall’s conception is bracing and timely.

American Coup

'[The writer] in whose company the prison walls fell down' - Nelson Mandela. After a long silence Achebe published in 1987 what many see as his greatest work - an acrid, frightening look at oil-boom Nigeria, a world of robberies, road blocks and intimidation in which those who are meant to be protecting a country's citizens are in reality supervising the looting.

The Indian Historian

This book was written about his family, his life, and his experiences before World War II was over. It was written more like a clinical record rather than a melodramatic memoir; it is somewhat less, somewhat more than pure literature.

The Sure Thing

Argues that we must use American power simultaneously to serve our interests and advance our principles, as can be seen by examining foreign policy precedents set by every president since George Washington.

Studies in Domestic and International Conflict

This is the ideal resource for all those requiring an authoritative and up-to-date review of imaging appearances of diseases of the lung, pleura and mediastinum. Chest radiography and CT are integrated with other imaging techniques, including MRI and PET, where appropriate. The clinical and pathologic features of different diseases are provided in varying degrees of detail with more in depth coverage given to rarer and less well understood conditions. A single volume, comprehensive reference text on chest radiology. Provides in a single resource all of the information a generalist in diagnostic radiology needs to know. Concisely and clearly written by a team of 4 internationally recognized authors. Avoids the inconsistency, repetition, and unevenness of coverage that is inherent in multi-contributed books. Multimodality coverage integrated throughout every chapter. All of the applicable imaging modalities are covered in a clinically relevant, diagnostically helpful way. Approximately 3,000 high quality, good-sized images. Provides a complete visual guide that the practitioner can refer to for help in interpretation and diagnosis. Covers both common and uncommon disorders. Provides the user with a single comprehensive resource, no need to consult alternative resources. Access the full text online and download images via Expert Consult. Access the latest version of the Fleischner Society's glossary of terms for thoracic imaging. Outlines, summary boxes, key points used throughout. Makes content more accessible by highlighting essential information. Brand new color images to illustrate functional imaging techniques. Many of the new imaging techniques can provide functional as well as anatomic information. Introduction of a second color throughout in summary boxes in order to better highlight key information. There's a wealth of key information in the summary boxes—will be highlighted more from the narrative text and will therefore be easier to access. Practical tips on identifying anatomic variants and artefacts in order to avoid diagnostic pitfalls. Many misdiagnoses are the result of basic errors in correlating the anatomic changes seen with imaging to their underlying pathologic processes. Latest techniques in CT, MRI and PET as they relate to thoracic diseases. The pace of development in imaging modalities and new applications/refined techniques in existing modalities continues to drive radiology forward as a specialty. Emphasis on cost-effective image/modality selection. Addresses the hugely important issue of cost-containment by emphasizing which imaging modality is helpful and which is not in any given clinical diagnosis. COPD and Diffuse Lung Disease, Small Airway disease chapters extensively up-dated. Access the full text online and

download images via Expert Consult Access the latest version of the Fleischner Society's glossary of terms for thoracic imaging.

American Indian Culture: From Counting Coup to Wampum [2 volumes]

Barbara Kingsolver's acclaimed international bestseller tells the story of an American missionary family in the Congo during a poignant chapter in African history. It spins the tale of the fierce evangelical Baptist, Nathan Price, who takes his wife and four daughters on a missionary journey into the heart of darkness of the Belgian Congo in 1959. They carry with them to Africa all they believe they will need from home, but soon find that all of it - from garden seeds to the King James Bible - is calamitously transformed on African soil. Told from the perspective of the five women, this is a compelling exploration of African history, religion, family, and the many paths to redemption. The Poisonwood Bible was nominated for the Pulitzer Prize in 1999 and was chosen as the best reading group novel ever at the Penguin/Orange Awards. It continues to be read and adored by millions worldwide.

Two Little Savages

My Fellow Americans reveals the many fascinating scouting stories behind each U.S. president's association with the Boy Scouts of America—from Theodore Roosevelt through Barack H. Obama. And it details each chief executive's important contributions towards the building of the American scouting movement as the country traveled a path toward historic national inclusionary domestic policies.

A Quiver Full of Arrows

Comanche Sundown

A fable-like memoir from the Vice President of Ghana that offers a shimmering microcosm of post-colonial Africa.

The Fire Arrow

An anthology that recounts the largely unknown history of the Hungarian Roma during the Holocaust.

My Fellow Americans

The only A Level book on the market covering medieval History

Medieval England, 1042-1228

The Blue Cliff Record is a classic text of Zen Buddhism, designed to assist in the activation of dormant human potential. The core of this extraordinary work is a collection of one hundred traditional citations and stories, selected for their ability to bring about insight and enlightenment. These vignettes are known as gongan in Chinese and koan in Japanese. Secrets of the Blue Cliff Record is a fresh translation featuring newly translated commentary from two of the greatest Zen masters of early modern Japan, Hakuin Ekaku (1685–1768) of the Rinzaï sect of Zen and Tenkei Denson (1648–1735) of the Soto sect of Zen. This translation and commentary on The Blue Cliff Record sheds new light on the meaning of this central Zen text.

Living and Dying in Hungary

Comanche Sundown is the story of the great war chief Quanah Parker, a freed slave and cowboy named Bose Ikard, and the women they love. In 1869 Quanah and Bose do their best to kill each other in a brutal fight on horseback in West Texas. But over several years, through the flash and chaos of war and killing they discover that they are friends, not enemies. They change from violent unformed youths into men of courage and decency. The son of the ferocious warrior Nocona and the tragic captive Texan Cynthia Ann Parker, Quanah suffers the wound of being slurred and rejected by many Comanches as someone of impure blood and certain bad luck. When told he cannot marry his youthful love Weckeah, he rides off and joins another band of his people in the canyonlands and plains of the Texas Panhandle. Later, when Quanah has just emerged as a war chief in a daring rout of army cavalry, in defiance of elders and tradition he elopes with Weckeah and leads a following of the wildest Comanche bunch of all. The enslaved son of a white physician, Bose is freed by the Civil War and rides on trail drives of longhorns into New Mexico Territory that are led by the pioneering Charles Goodnight. Bose winds up captured, utilized, and eventually valued by Quanah and his people. That period in young Bose's life brings him into intoxicating friendship with Quanah's other wife, To-ha-yea, a Mescalero Apache and born heart-breaker. Comanche Sundown lays out a sprawling and plausible recast of Southwestern history that brings Pat Garrett, Billy the Kid, Bat Masterson, Colonel Ranald "Bad Hand" Mackenzie, and General William T. Sherman into one fray. In the tradition of Thomas Berger's Little Big Man, William Styron's The Confessions of Nat Turner, Larry McMurtry's Lonesome Dove, and Cormac McCarthy's All the Pretty Horses, Jan Reid's novel offers a rich blend of historical detail, exquisite eye for the terrain and the animals, and insight into the culture, customs, poetry, and dignity of Native Americans caught up in a desperate fight to survive.

The Dubious Case of a Failed Coup

Countless studies of the American West have been written from the viewpoint of history, psychology, sociology, and anthropology. But the West has seldom been written about with the reflective pen of a philosopher. Offering more than a fresh retelling, in thoroughly human terms, of the major historical events of the nineteenth-century West, Gerald Kreyche also leads the reader in a search for the spirit of the West itself. That spirit was one with the American Dream, which offered freedom, individualism, and self-sufficiency to those strong enough and gutsy enough to heed the call of Manifest Destiny. Although the West was and is the most American part of America itself, its natural wonders, its spacious grandeur, its myths and mystique have captured the hearts and imaginations of people the world over. We have all experienced the quickened pulse at the mention of things indelibly western -- tumbleweed, mountain men, high plains, cowboys and Indians, sod houses, coyotes, and grizzlies. And who doesn't react to such bigger-than-life figures as Jim Bridger, Buffalo Bill, George Armstrong Custer, Sitting Bull, and Crazy Horse? The personal humdrum of our times rapidly disappears when, through the magic of western films, TV shows, and books, we vicariously lose ourselves and then find ourselves in the American West of a bygone time. The West, then, produced a quasi-separate culture. And, as each culture must, it gave birth to its own ethos, its own special character, its own tone and set of guiding beliefs. Kreyche contends that in the process of "westering," the veneer of the sophisticated easterner was sloughed off, leaving in sharp outline the frontiersman and the pioneer. In their own manner, these men and women produced a new species of homo americanus.

Visions of the American West

In 1898, Wilmington, North Carolina was the scene of what many describe as the only successful coup d' etat in the history of the United States, when angry whites overthrew the duly elected government and went on a rampage that tore through the African-American community of the state's largest city. The terror lasted several days, and saw Wilmington blacks gunned down in the streets, forced out of town, and dispossessed of their property. In this reprint of a book first released in 1984, H. Leon Prather, Sr. presents the story of what happened in Wilmington. It is generally considered the most balanced account of the 1898 riots, and tells the story of what happened in a thoroughly researched book that has been hailed as a landmark resource on the subject. The State of North Carolina will issue its official report on what happened in Wilmington in 1898 in 2006, and Prather's book is a primary source for the official history that is soon to be released. Prather's book is a must-have for those interested in the history of African-Americans during Reconstruction, the history of the South, North Carolina, and the Lower Cape Fear region.

Counting Coup

A compelling insight into how legendary gambler Barney Curley pulled off the greatest horse betting scams in history. THE BOOKIES ALWAYS WIN. Yet, for over four decades Barney Curley has proved himself a rare exception. The country's most

renowned and fearless gambler, a man who will back his judgement to win £100,000 and more on a single day, has consistently emerged triumphant from bloody skirmishes with the old enemy. In the summer of 1975 Curley masterminded one of the most spectacular gambles of all time, with a racehorse named Yellow Sam, costing Irish bookmakers around £300,000; the equivalent of some £2m today. No-one believed anything similar could be staged again this century. Bookmakers now have communications and technology in place to thwart any renewed attempts. But challenges inspire Curley and he was determined to beat the system -- again. Thirty-five years later from his first coup, Curley set about staging an ambitious sequel to his Yellow Sam scheme. Curley has never divulged the full details of what happened. Now, for the first time, *The Sure Thing* reveals the complete story of the months of planning and preparation, with all the trials and tribulations, that went into the biggest organised gamble in racing history.

The Kite Runner

Value, Conflict, and Order

With God on Our Side

A stunning exploration of the subtle erosion of freedom in an age of concocted fear and de facto military authority. When we think of a military coup, the first image that comes to mind is a general, standing at a podium with a flag behind him, declaring the deposing of elected leaders and the institution of martial law. Think again. In *AMERICAN COUP*, William Arkin reveals the desk-bound takeover of the highest reaches of government by a coterie of "grey men" of the national security establishment. Operating between the lines of the Constitution this powerful and unelected group fights to save the nation from "terror" and weapons of mass destruction while at the same time modifying and undermining the very essence of the country. Many books are written about secrecy, surveillance, and government law-breaking; none so powerfully expose the truth of everyday life in this state of war.
