An effective and practical program based on the Paleo lifestyle, customized to fit your needs! As the Paleo movement sweeps the nation, the health benefits of following the lifestyle of our hunter-gatherer forebears are undeniable. But what happens when we hit a wall and weight loss stalls, energy flags, or we're tired of restricted eating? We're not cavemen anymore, so why should we follow a strict caveman diet? In YOUR

PERSONAL PALEO CODE, Chris Kresser uses the Paleo diet as a baseline from which you can tailor the ideal three-step program-Reset, Rebuild, Revive-to fit your lifestyle, body type, genetic blueprint, and individual needs. Kresser helps further personalize your prescription for specific health conditions, from heart disease and high blood pressure to thyroid disorders and digestive problems. Along with a 7-day meal plan and delectable, nutritious recipes, YOUR PERSONAL PALEO CODE offers natural solutions and an avalanche of groundbreaking advice on how to restore a healthy gut and immune system; how to eliminate toxins; which fats to eat liberally; how to choose the healthiest proteins; and much more. Best of all, you only have to follow the program 80% of the time; there's room to indulge in moderation while still experiencing dramatic results. Based on cutting-edge scientific research, YOUR PERSONAL PALEO CODE is designed to be flexible and user-friendly, with helpful charts, quizzes, and effective action steps to help you lose weight, reverse disease, and stay fit and healthy for life.

Drawing on evolutionary logic, scientific research, and his own personal experiences, blogger Richard Nikoley of Free the Animal (freetheanimal.com) presents a complete guide to losing weight and fat the natural way. After many frustrating years of trying to lose weight by adhering to mainstream nutritional guidelines, Richard made a radical decision to throw the rules out. Instead of eating whole grains and lean

meat, he ate what his body had always craved: animal fat, and lots of it—and the extra weight started falling away. In "Free The Animal: How To Lose Weight & Fat On The Paleo Diet", Richard shares his tips for eating, fasting, and exercising as wild humans did for millenia. Find out how to embrace your primal cravings for nutritionally dense animal fats and fiber-rich plant sources. Learn to stop listening to the "experts" and start tuning in to your body's natural signals. Richard's approach to the Paleo lifestyle will help you lose fat, gain muscle, and unleash the energy of the animal inside you.

The Everything Paleolithic Diet Book

Our prehistoric ancestors survived and flourished on high-protein diets filled with fresh meats, fruits, and vegetables. While you no longer have to hunt down a saber-toothed tiger for supper, following the Paleolithic diet can transform your body and help prevent obesity, diabetes, and cancer. You'll learn to prepare 150 nutritious recipes, including: Bacon and Vegetable Omelet Chicken with Sauteed Tomatoes and Pine Nuts Thai Coconut Scallops Roasted Pork Tenderloin Nutty Chocolate Trail Mix Mango Creamsicle Sorbet Featuring extensive meal plans and shopping lists to help transition into the lifestyle, this book helps you lose weight, gain muscle, and achieve peak performance and optimum health.

The Paleo Diet for Athletes

For decades, the diet wars have pitted advocates for

the low-carb, high-fat paleo diet against advocates of the exclusively plant-based vegan diet and dozens of other diets leaving most of us bewildered and confused. For those of us on the sidelines, trying to figure out which approach is best has been nearly impossible - both extreme diets have unique benefits and drawbacks. But how can it be, we've asked desperately, that our only options are bacon and butter three times a day or endless kale salads? How do we eat to reverse disease, optimal health, longevity and performance. How do we eat to reverse climate change? There must be a better way! Fortunately, there is. With The Pegan Diet, a food is medicine approach, Mark Hyman explains how to take the best aspects of the paleo diet (good fats, limited refined carbs, limited sugar) and combine them with the vegan diet (lots and lots of fresh, healthy veggies) to create a delicious diet that is not only good for your brain and your body, but also good for the planet. Featuring 30 recipes, and plenty of infographics illustrating the concepts, The Pegan Diet offers a balanced and easy-to-follow approach to eating that will help you get, and stay, fit, healthy, focused, and happy - for life.

Sacred Cow

At last, here is a comprehensive cookbook to the hottest eating plan around! The Paleo diet—known in some circles as the “Caveman Diet”—is an eating plan based on evolutionary biology and backed up by medical research. Unlike other diets which can incorporate fake, processed foods and artificial

sweeteners, the Paleo diet is based on what our ancestors ate: lean meats and fish, nuts and seeds, and naturally grown fruits and vegetables. Low-carb queen and bestselling author Dana Carpender shows how to stay the Paleo diet course deliciously with 500 easy-to-prepare recipes for everything Paleo from appetizers, to main dishes, to desserts.

Your Personal Paleo Diet

If you want to look good, perform at your peak and be in tip-top shape, you must choose smart fuel for your body, not the processed "food" found on the shelves of every supermarket. Many have turned to Paleo and a low carb way of life to avoid the effects of these food impostors we were never designed to eat. Low carb diets, however, can leave you feeling as though you don't have enough gas in the tank. Low carbs need to be smart carbs. Lucky for us, nature has given us the nutritious, delicious sweet potato. This super food gives all the benefits of other high energy foods with more nutrition and without spiking blood sugar. Plus, this humble tuber tastes great and is easily incorporated into your diet in seriously good ways. Sweet Potato Power gives you the tools to run your own tests to determine the diet rules that work specifically for you and your unique biology. Through self experimentation you can cut through diet mumbo jumbo, and let science and your numbers speak for themselves to answer questions such as: ilHow many carbs should I eat to make me look, feel and perform at my best? ilWhat foods spike my blood sugar the most and make me fat? ilHow do I eliminate craving?

ilHow can I avoid mental fogs and post-lunch energy slumps? ilHow can I optimize my carbs with my athletic pursuits? ilHow can I get fit without getting fat? ilWhat exercise is best for my body? ilHow can my kids become the most delightful version of themselves? ilHow can my doctor be a well-care provider instead of a sick-care provider? Understanding a bit of science and incorporating new tools in your arsenal will make you an active participant in your health. Applying what you learn brings you closer to the ideal version of you. All of this and easy sweet potato recipes so you can incorporate this power food into your everyday life—making Sweet Potato Power a force to be reckoned with!

The Complete Idiot's Guide to Eating Paleo

The popular paleo diet involves eating more leafy greens, fruits, meats, and fish, while eschewing processed foods and dairy. Sounds healthy, right? And strict! Popular blogger Irena Macri follows the diet 80 percent of the time, allowing room for the occasional dessert or drink. The result? She looks and feels great, but not deprived. More than 100 recipes, beautiful photographs of colorful creative dishes, and can-do messages from Irena make *Eat, Drink, Paleo Cookbook* a book that appeals to cooks who want to embrace a healthier diet . . . most of the time.

“With . . . evidence from recent genetic and

anthropological research, [Zuk] offers a dose of paleoreality.”—Erin Wayman, Science News We evolved to eat berries rather than bagels, to live in mud huts rather than condos, to sprint barefoot rather than play football—or did we? Are our bodies and brains truly at odds with modern life? Although it may seem as though we have barely had time to shed our hunter-gatherer legacy, biologist Marlene Zuk reveals that the story is not so simple. Popular theories about how our ancestors lived—and why we should emulate them—are often based on speculation, not scientific evidence. Armed with a razor-sharp wit and brilliant, eye-opening research, Zuk takes us to the cutting edge of biology to show that evolution can work much faster than was previously realized, meaning that we are not biologically the same as our caveman ancestors. Contrary to what the glossy magazines would have us believe, we do not enjoy potato chips because they crunch just like the insects our forebears snacked on. And women don’t go into shoe-shopping frenzies because their prehistoric foremothers gathered resources for their clans. As Zuk compellingly argues, such beliefs incorrectly assume that we’re stuck—finished evolving—and have been for tens of thousands of years. She draws on fascinating evidence that examines everything from adults’ ability to drink milk to the texture of our ear wax to show that we’ve actually never stopped evolving. Our nostalgic visions of an ideal evolutionary past in which we ate, lived, and reproduced as we were “meant to” fail to recognize that we were never perfectly suited to our environment. Evolution is about change, and every organism is full of trade-offs. From debunking the

caveman diet to unraveling gender stereotypes, Zuk delivers an engrossing analysis of widespread paleofantasies and the scientific evidence that undermines them, all the while broadening our understanding of our origins and what they can really tell us about our present and our future.

Cavewomen Don't Get Fat

Combining your body's Paleolithic needs with modern nutritional and medical research for complete mind-body wellness • Provides sustainable diet strategies to curb sugar cravings, promote fat burning and weight loss, reduce stress and anxiety, improve sleep and moods, increase energy and immunity, and enhance memory and brain function • Shows how our modern diet leads to weight gain and "diseases of civilization"--such as cancer, osteoporosis, metabolic syndrome, heart disease, and ADD • Explains how diet affects the brain, hormone balance, and the aging process and the crucial role of vitamin D in cancer and disease prevention Examining the healthy lives of our pre-agricultural Paleolithic ancestors and the marked decline in stature, bone density, and dental health and the increase in birth defects, malnutrition, and disease following the implementation of the agricultural lifestyle, Nora Gedgaudas shows how our modern grain- and carbohydrate-heavy low-fat diets are a far cry from the high-fat, moderate-protein hunter-gatherer diets we are genetically programmed for, leading not only to lifelong weight gain but also to cravings, mood disorders, cognitive problems, and "diseases of

civilization"--such as cancer, osteoporosis, metabolic syndrome (insulin resistance), heart disease, and mental illness. Applying modern discoveries to the basic hunter-gatherer diet, she culls from vast research in evolutionary physiology, biochemistry, metabolism, nutrition, and chronic and degenerative disease to unveil a holistic lifestyle for true mind-body health and longevity. Revealing the primal origins and physiological basis for a high-fat, moderate-protein, starch-free diet and the importance of adequate omega-3 intake--critical to our brain and nervous system but sorely lacking in most people's diets--she explains the nutritional problems of grains, gluten, soy, dairy, and starchy vegetables; which natural fats promote health and which (such as canola oil) harm it; the crucial role of vitamin D in cancer and disease prevention; the importance of saturated fat and cholesterol; and how diet affects mental health, memory, cognitive function, hormonal balance, and cellular aging. With step-by-step guidelines, recipes, and meal recommendations, this book offers sustainable strategies for a primally based, yet modern approach to diet and exercise to reduce stress and anxiety, lose weight, improve sleep and mood, increase energy and immunity, enhance brain function, save money on groceries, and live longer and happier.

Worry about cholesterol. Avoid red meat. Eat whole grains. Could it all be a lie? We live in an era of health hype and nutrition propaganda, and we're suffering for it. Decades of avoiding egg yolks, choosing margarine over butter, and replacing the real foods of our ancestors with low-fat, processed, packaged substitutes have left us with an obesity epidemic, ever-rising rates of chronic disease, and, above all, total confusion about what to eat and why. This is a tragedy of misinformation, food industry shenanigans, and cheap calories disguised as health food. It turns out that everything we've been told about how to eat is wrong. Fat and cholesterol are harmful to your health? Nope—they are crucial to your health. "Whole

grains” are health food? Not even close. Counting calories is the way to lose weight? Not gonna work—nutrients are what matter. Nutrition can come from a box, bag, or capsule? Don’t count on it! In *Eat the Yolks*, Liz Wolfe debunks all these myths and more, revealing what’s behind the lies and bringing the truth about fat, cholesterol, protein, and carbs to light. You’ll be amazed at the tall tales we’ve been told in the name of “healthy eating.” With wit and grace, Wolfe makes a compelling argument for a diet based on Paleo foods. She takes us back to the foods of our ancestors, combining the lessons of history with those of modern science to uncover why real, whole food—the kind humans ate for thousands of years before modern nutrition dogma led us astray—holds the key to amazing health and happy taste buds. In *Eat the Yolks*, Liz Wolfe doesn’t just make a case for eating the whole egg. She uncovers the shocking lies we’ve been told about fat, cholesterol, protein, carbs, and calories and brings us the truth about which foods are healthy—and which foods are really harming us. You’ll learn truths like: - fat and cholesterol are crucial, not harmful . . . and why - “whole grains” are processed foods . . . and what to eat instead - counting calories is a waste of energy . . . and what we actually should be tracking - all animal products are not created equal . . . and which ones we truly need - nutrition doesn’t come in a box, bag, or capsule . . . and why there’s no substitute for real food!

The Paleo Solution

From “a woman who is about to become as famous in

the diet and fitness industries as Martha Stewart is in the world of home decoration” (Liz Jones, The Daily Mail), this back-to-basics approach helps you keep a protein-rich, hormone-balancing, and detoxifying diet to build muscle, catalyze fat loss, and feel gorgeous fast. Weight loss may seem like a modern idea, but studies show that the solution is ancient: a natural diet of lean protein, vegetables, fruit, seeds, and nuts—and no processed starches—leads to a strong, healthy body that works well and looks great. Millions of years of evolutionary history can’t be wrong, and Esther Blum, a holistic nutritionist for nearly two decades, has helped her clients get gorgeous and strong by reinstating the simple, high-protein, low-carb diet that our bodies naturally crave. Esther believes that the greatest gift you can give yourself is a lean, gorgeous body—for life. Through a potent combination of hormonal balance, a detoxified system, and muscle mass, anyone can achieve great results by following some simple no-nonsense tips. Esther breaks her diet down into three easy and sustainable phases: first, a two-week detox, followed by a second phase of hormone balance and fat loss, and then finally, a maintenance phase, which keeps you within 3 to 5 percent of your body fat ideal. Smart, sassy, and sensible, *Cavewomen Don’t Get Fat* will help women everywhere feel and stay gorgeous from the inside out.

Switching to a Paleo lifestyle can effectively manage your diabetes. Millions of people are living with

diabetes, and many experts believe that the regular consumption of packaged and processed foods is the leading cause of diabetes and other chronic diseases. A Paleo Diet isn't a magic bullet but all the recent research points to the fact that it can effectively manage as well as lower your risk for diabetes. The foundation of the paleo diet is built on fresh, unprocessed grass-fed meat, whole fruit, vegetables, seeds and nuts. It's essentially the diet our ancestors ate 10,000 years ago and doesn't typically include grains or dairy. It's a nutrient-dense, low-carb, fiber-rich diet high in vitamins and minerals -- ultimately it's high in foods that improve and stabilize blood sugar levels. So can you avoid refined sugars and sweeteners, grains including whole grains, and industrial seed oils and still enjoy tasty and delicious food? The answer is absolutely yes! Jill has carefully chosen these recipes not only for their nutritional value but for their delicious taste. Just because you're managing diabetes and following a Paleo lifestyle doesn't mean that you have to give up tantalizing dishes and meals. Jill devotes an entire chapter to getting ready for the lifestyle, which includes what foods to avoid and why, as well as what to include and why. Food lists, preparing the kitchen and pantry staples are carefully included as are recommendations for shopping and label reading for blood sugar control. The 30-day meal plan program is easy to follow and common questions and concerns are answered in a friendly manner. You'll have a fantastic variety of 125 recipes to choose from -- from sumptuous soups like Coconut-Spiked Pumpkin Soup with Cumin and Ginger, to Creamy Peanut Coleslaw, Turkey Stuffed Peppers, Italian Sloppy Joes, Skillet

Grilled Flank Steak with Sautéed Mushrooms, Zucchini Noodles and Pesto, Vegetable Frittata, and desserts like Soft Serve Coconut Banana Freeze and Chocolate Mousse. These Paleo-inspired recipes will give you the tools you need to manage or reverse high blood sugar levels while enjoying delicious food at the same time.

The Paleo Manifesto

An inspiring account of one woman's mission to lose six dress sizes and change her life for good For Lisa Delaney, being a "fat girl" wasn't just a matter of weight, it was a state of mind. At one hundred eighty-five pounds, she was despondent over diets that never worked and disappointed by her dull job and lack of a love life—until a late-night epiphany involving a half-gallon of ice cream convinced her that becoming a former fat girl, in body and spirit, was the key to creating a life she truly loved. Today, seventy pounds lighter, Lisa is a successful writer at a national magazine. She is married to a man she loves. And she wears a size two. Eye-opening, accessible, and filled with practical advice, this book reveals the seven secrets of Delaney's success, and explores how shifting from "wannabe Former Fat Girl" to actual Former Fat Girl is as much about seeing yourself as a confident, desirable woman as it is about achieving an ideal weight.

Eat the Yolks

We're told that if we care about our health—or our planet—eliminating red meat from our diets is crucial.

That beef is bad for us and cattle farming is horrible for the environment. But science says otherwise. Beef is framed as the most environmentally destructive and least healthy of meats. We're often told that the only solution is to reduce or quit red meat entirely. But despite what anti-meat groups, vegan celebrities, and some health experts say, plant-based agriculture is far from a perfect solution. In *Sacred Cow*, registered dietitian Diana Rodgers and former research biochemist and New York Times bestselling author Robb Wolf explore the quandaries we face in raising and eating animals—focusing on the largest (and most maligned) of farmed animals, the cow. Taking a critical look at the assumptions and misinformation about meat, *Sacred Cow* points out the flaws in our current food system and in the proposed “solutions.” Inside, Rodgers and Wolf reveal contrarian but science-based findings, such as: Meat and animal fat are essential for our bodies. A sustainable food system cannot exist without animals. A vegan diet may destroy more life than sustainable cattle farming. Regenerative cattle ranching is one of our best tools at mitigating climate change. You'll also find practical guidance on how to support sustainable farms and a 30-day challenge to help you transition to a healthful and conscientious diet. With scientific rigor, deep compassion, and wit, Rodgers and Wolf argue unequivocally that meat (done right) should have a place on the table. It's not the cow, it's the how!

Paleo Takes 5 - Or Fewer

"The New Primal Blueprint serves as the ultimate road map for anyone wishing to make the shift from flawed conventional wisdom about diet and exercise to a healthy, happy empowering lifestyle patterned after the evolutionary-tested behaviors of our hunter-gatherer ancestors. The book details the ten immutable Primal Blueprint lifestyle laws that enable empower you to reprogram your genes to direct in the direction of weight loss, health, and longevity. The Primal Blueprint laws are validated by two million years of human evolution as well as an ever-expanding body of contemporary scientific research. Sisson's philosophy was originally met with skepticism as he aggressively challenged numerous mainstream health tenets. Eight years later, mainstream medical and health science are validating the Primal Blueprint tenets assertions that a high-carb, grain-based diet will make you fat, tired, and sick; that a consistent routine of medium-to-difficult cardiovascular workouts can actually compromise your health and longevity and increase risk of heart disease; and that consuming (whole food sources of) fat and cholesterol does not lead to heart disease as we have been led to believe, but rather offers many health benefits." --

Read Book Paleo Solution Diet Review

The idea behind the Paleo, or 'caveman', diet is simple - eat the food we humans were genetically and biologically meant to eat, as our hunter-gatherer ancestors once did, and we can all experience near-effortless weight loss, increased vitality and greatly improved health. But does it really make sense to restrict yourself to the limited range of foods available to our ancestors? Although we share a lot in common with them, we each have our own genes, tastes and health goals. In this groundbreaking book, leading expert Chris Kresser offers his unique solution - a 3-step plan that will fit your body, your lifestyle and your specific health issues. Start by following the basic Paleo plan for 30 days and enjoy a satisfying diet of lean meat, fish, non-starchy vegetables, some fruit, nuts and seeds but avoid grains, dairy, sugar and refined foods. After this 30-day plan, Chris helps you re-introduce certain foods in moderation to find out what agrees with you and what doesn't. So what are you waiting for? You can enjoy life more, look slimmer and feel more vital. And because Chris advocates an 80/20 approach - we all have to live in the real world after all - you can still enjoy your favourite treats from time to time. In addition to dietary advice, the plan also includes guidance on fine-tuning your sleep, exercise and response to stress - all crucial elements in living a life that suits our natural design.
