## Pathfinders

Commentary on the Book of Revelation

## To Be Like Jesus

Seventh-day Adventists and the Civil Rights Movement is the first in-depth study of the denomination's participation in civil rights politics. It considers the extent to which the denomination's theology influenced how its members responded. This book explores why a brave few Adventists became social and political activists, and why a majority of the faithful eschewed the movement. Samuel G. London, Jr., provides a clear, yet critical understanding of the history and theology of the Seventh-day Adventist Church while highlighting the contributions of its members to political reform. Community awareness, the example of early Adventist pioneers, liberationist interpretations of the Bible, as well as various intellectual and theological justifications motivated the civil rights activities of some Adventists. For those who participated in the civil rights movement, these factors superseded the conservative ideology and theology that came to dominate the church after the passing of its founders. Covering the end of the 1800s through the 1970s, the book discusses how Christian fundamentalism, the curse of Ham, the philosophy of Booker T. Washington, pragmatism, the aversion to ecumenism and the Social Gospel, belief in the separation of church and state, and American individualism converged to impact Adventist sociopolitical thought.

On August 14, 2011, when I was in Kandergrund in the Bernese Highlands in Switzerland an important connection became very clear to me. I recognized a spiritual cause for why we are losing part of our youth. I was very shocked. I thought of my children and grandchildren. Since then I have been intensively occupied with this subject. Now I believe that the same spiritual cause is behind many of our problems; specifically the personal problems, in the local churches and the world-wide church. It is the lack of the Holy Spirit. If this is the cause, then we should urgently address this issue. If the cause can be eliminated or considerably reduced, then many problems will become superfluous or will be resolved.

## **Steps to Personal Revival**

In *Building Academic Vocabulary: Teacher s Manual*, Robert J. Marzano and Debra J. Pickering give teachers a practical way to help students master academic vocabulary. Research has shown that when teachers,

schools, and districts take a systematic approach to helping students identify and master essential vocabulary and concepts of a given subject area, student comprehension and achievement rises. In the manual, readers will find the following tools:

- \* A method to help teachers, schools, and districts determine which academic vocabulary terms are most essential for their needs
- \* A six-step process for direct instruction in subject area vocabulary
- \* A how-to to help students use the Building Academic Vocabulary: Student Notebook. The six-step method encourages students to learn critical academic vocabulary by connecting these terms to prior knowledge using linguistic and non-linguistic means that further encourage the refinement and deepening of their understanding.
- \* Suggestions for tailoring academic vocabulary procedures for English Language Learners.
- \* Samples and blackline masters for a variety of review activities and games that reinforce and refine student understanding of the academic terms and concepts they learn. The book also includes a list of 7,923 vocabulary terms culled from the national standards documents and other publications, organized into 11 subject areas and 4 grade-level categories. Building Academic Vocabulary: Teacher's Manual puts into practice the research and ideas outlined in Marzano's previous book Building Background Knowledge for Academic Achievement. Using the teacher's manual and vocabulary notebooks, educators can guide students in using tools and activities that will help them deepen their own understanding of critical academic vocabulary--the building blocks for achievement in each discipline.

"Whether you call them research guides, subject guides or pathfinders, web-based guides are a great way to create customized support tools for a specific audience: a class, a group, or anyone engaging in research. Studies show that library guides are often difficult, confusing, or overwhelming, causing users to give up and just fall back on search engines such as Google. How can librarians create more effective, less confusing, and simply better research guides? In *Modern Pathfinders: Creating Better Research Guides*, author Jason Puckett takes proven ideas from instructional design and user experience web design and combines them into easy-to-understand principles for making your research guides better teaching tools. It doesn't matter what software your library uses; the advice and techniques in this book will help you create guides that are easier for your users to understand and more effective to use"--

### **Transforming Children Into Spiritual Champions**

## **A Brief History of Seventh-Day Adventists**

Do you find yourself again and again wondering what it would take to get some new volunteers onboard for your ministry? And yet does it seem that you are never able to focus your energy on recruitment? Maybe you find yourself saying things like: "It's just easier for me to do it myself." At one level, of course, this is true. Almost always, it is easier to "do it ourselves." We avoid the hassle of having to coordinate and communicate. We avoid having to follow up with people who drop the ball. Youth leaders Mark DeVries and Nate Stratman have heard dozens of reasons why leaders choose not to build a solid volunteer team. But faithful ministry is not a do-it-yourself project. It's more than just recruiting—it involves changing the culture of your ministry so that volunteers want to become involved. That's why they have developed this 30-day change approach. In these pages you will find the step-by-step support you need to actually make one of the most important changes you want to see in your ministry. DeVries and Stratman are so committed to the ideas that they offer the following guarantee: If you work this 30-day process for one to two hours a day, six days a week, for 30 days, and it does not create significant change in your ministry, Ministry Architects will gladly refund the cost of this book and offer a credit of \$20 toward any downloadable resource in their online store at [ministryarchitects.com](http://ministryarchitects.com). You have so little to risk and everything to gain. It's time to put together that team you've been longing for!

## **Seventh-day Adventists and the Civil Rights Movement**

Largely of historical interest, Ellen G. White's 1864 book on health care reform deals with the perceived problems of masturbation among the young. Terming it a "solitary vice" and "self abuse," she addresses her concerns--and her solutions--directly to mothers, advocating religion, awareness, and work. Though hardly politically correct today, with modern knowledge and insight, her views and solutions are far less extreme than most other health care professionals' of the age.

### **Finding Jesus in the Book of Revelation**

When LGBT+ loved ones come out, parents can experience shock. Fear and grief can disable their initial reaction. Emotions erupt. Hurtful words spill. Trust is damaged. Relationships become disconnected. Meanwhile, in the church, LGBT+ people often hear impossible hurdles and suspicion about their faith. One courageous disclosure can be met with a response that communicates, "I don't understand you" or "You are not welcome here." Guiding Families offers a relationally honoring, biblically sound path forward. It is being called "the single best resource" for parents and pastors when LGBT+ people come out. Author Bill Henson's heart for Guiding Families flows from over a decade of experience training church leaders and caring for LGBT+ people and their families. He is creator of Posture Shift, the leading training and consulting resource on LGBT+ inclusion and relational care in the conservative church.

## **Fundamentals of Christian Education**

### **Modern Pathfinders**

No one can deny that our culture is opposed to Christian values, and the influences bombarding our children's moral development can be deadly. But few parents and church leaders realize how critical it is to start developing a child's biblical worldview from the very earliest years of life. The problem is complex: parents who themselves did not receive early spiritual training leave their children's training to the church. Yet the church often focuses on older children—not realizing that a child's moral development is set by the age of nine. The answer is for churches to recognize the need to come alongside parents to provide them biblical worldview training, parenting information, counseling, etc., that will equip them to help their children become the spiritually mature Church of tomorrow. Profiles presented of churches who are effectively ministering to children and winning the war our enemy is waging against them\.
